NMP mapping of cropmark features at Heckfield Place. Some of the large irregular enclosures are likely to be woodland enclosure boundaries but the smaller enclosures as well as many of the field boundaries are interpreted as later prehistoric or Romano-British in date. Ditches are shown in green, banks in red. *Reproduced from the Ordnance Survey map with the permission of the controller of Her Majesty's Stationery Office. © Crown Copyright 2006HCC 100019180.*
