

### III.

NOTICES OF COMETS, ECLIPSES, EARTHQUAKES, AND OTHER NATURAL PHENOMENA, FROM OLD SCOTTISH CHRONICLERS AND DIARISTS, WITH REMARKS. BY ROBERT CHAMBERS, Esq., F.S.A. Scot.

In this paper Mr Chambers gave some curious details of the ideas with which these meteors were regarded by our forefathers, and added some interesting remarks of his own on the subject. It is unnecessary here to give any part of the communication, as the whole will shortly appear in a work preparing for the press under the title of "DOMESTIC ANNALS OF SCOTLAND."
