

Database / Spreadsheet documentation for the Archaeology Data Service

Please fully document and record any databases that you intend to submit to the ADS for archiving. This will help us prepare them for archiving and online dissemination and will enable future re-use of the data by others.

If you already have documentation for your database in another format and would prefer us to work with this instead, this should not be a problem as long as it accurately describes your data tables and any relationships between them.

Title of project:	Combe Down Mine
Name of database/ spreadsheet file:	Come Down Worked Stone

Repeat the following section for each table within your database:

Name of table / worksheet 1:	Sheet 1
Purpose of table/worksheet:	Record of worked stone from Combe Down Mine
Number of rows of data:	222
Primary key (database only):	This table was extracted from a larger database. There is no primary key for this data.
Name of field	Full description of field and codes or terminology used
<i>Recorded off site</i>	<i>Yes (Y) or No (N) as to whether the stone was recorded on site or off site at finds repository.</i>
<i>Pub_No</i>	<i>Number of the stone find as recorded in the publication which may be different to original registered find number</i>
<i>Context</i>	<i>Context number from which the stone came</i>
<i>SFNO</i>	<i>Small Find Number i.e. registered find number</i>
<i>Description</i>	<i>Summary of the stone artefact including possible use. Includes search words.</i>
<i>Notes</i>	<i>Detailed description of artefact.</i>
<i>Size</i>	<i>Dimensions. Usually diameter then max and min thickness in mm and then in inches</i>
<i>Lithology</i>	<i>Name of stone type from which the artefact is made</i>
<i>Cont_Type</i>	<i>Quarry area to which context number is associated</i>
<i>Plan number</i>	<i>Number of plan which shows location of context where artefact found</i>
<i>Phase</i>	<i>Phase of site from which artefact dates as used in publication – year range added</i>
<i>Quarry</i>	<i>Name and number of quarry area within Combe Down complex where artefact found</i>

Name of table / worksheet 2:	
Purpose of	

table/worksheet:	
Number of rows of data:	
Primary key (database only):	
Name of field	Full description of field and codes or terminology used

Name of table / worksheet 3:	
Purpose of table/worksheet:	
Number of rows of data:	
Primary key (database only):	
Name of field	Full description of field and codes or terminology used

Relationships (database only)

Please include an entity relationship diagram to show the relationships between your database tables

This database has only one table.

The completed documentation should be submitted to the ADS in **digital** form along with the deposited data that it describes, or via e-mail to Catherine Hardman at csh3@york.ac.uk
