

Project metadata for the Archaeology Data Service

Please complete this form as fully as possible with details of your project. This data will form the basis of an entry about your dataset in the ADS Catalogue, and underpins the computerised searching process that allows users to discover and retrieve information.

<p>1. Title - please indicate the title (and any alternatives) for the dataset.</p> <p>Bald Faced Stag, 36 Edward Road, Southampton</p>
<p>2. Description - please provide a brief summary (max. 200-300 words) of the main aims and objectives of the project and the content of the dataset.</p> <p>The project was an archaeological building record, to level 2, of the cellar of the Bald Faced Stag public House at 36 Edward Road in the Freemantle area of Southampton. The public house dates from the 1870s when it was known as the "Stag Inn." Stylistic and map evidence suggests that the upper stories may have been rebuilt at some time between 1896 and 1909. The bricks used in the cellar were smaller than those of the ground floor, perhaps indicating that the cellar belonged to the original building phase of the 1870s. The cellar was originally accessed by a brick staircase at the north end, but this was replaced by a wooden stair against the west wall. This change may either have occurred during the refurbishment/rebuilding of about 1900, or when the bar area was reformed, probably in 1965.</p>
<p>3. Subject - please suggest keywords for the subject content of the dataset. If possible, please used existing documentation standards (e.g. The RCHME thesaurus of Monument Types, the MDA Archaeological Object Name thesaurus) and indicate which standard you are following. If you use a documentation standard unique to your organisation, it would be extremely helpful if you could send a copy of it with your dataset.</p> <p>HOUSE –public house – recreational –eating and drinking establishment - brick</p>
