

SCM 28/6/10

DB 09/12/09^{18/02/11}

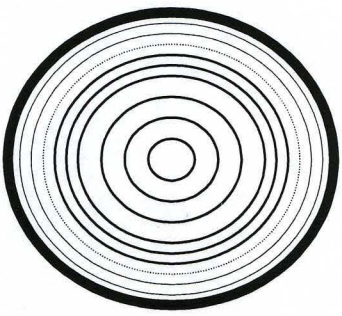

Cow Tag 451	Function Code Misc Timber
--------------------	-------------------------------------

Brief Description: [timber element, p/s, condition, fragments]
Worked object - carved **Charred on some surfaces**
axe marks

Notable Features: [tool marks, scribed lines, decoration, repairs] POINTS TO LOOK OUT FOR WHEN RECORDING
Dome shaped wooden artefact. Objects base is sub-circular with a diameter of 100mm approx. One nail hole 10mm x 10mm and approx 28mm deep - hole does not perforate all the way through. Edges are roughly worked with visible tool marks. Top of dome has a diameter of 69mm. Partially charred. Function unknown. Some of the working of the edges appears to have taken place after charring.
