NOTES
- Drainage pipe sizes (where shown) have been gauged from the surface for safety reasons and should be regarded as approximate only.
- Tree species (where shown) should be treated with caution and expert advice is recommended.
- Manholes are only surveyed where they are uncovered and detail shown is only approximate with the predominant mode of snagging as specified. Care should be exercised when working to large' inches.
- Visible features in the vicinity of the boundaries as shown above, may not represent the extent of legally conveyed ownership.
- Whilst every effort has been made to achieve accuracy on this plan, CRUCIAL dimensions between buildings and invert levels should be checked prior to design and construction.
- Kerb levels have been taken in the bottom of the channel.
