COMMUNITY ACCESS TO ARCHIVE OFFICES

Thank you for taking the time to look at this questionnaire, which is part of an English Heritage project titled **Expanding the Neighbourhood Plan Evidence Base**.

The Questionnaire
The questionnaire is structured into 3 sections. **Please complete multiple choice questions using the letter 'x'.** Each question has a short explanatory sentence indicating whether one or multiple boxes should be checked. For free text questions we welcome as much concise detail as you can supply. We would be grateful if you could avoid the use of 'jargon' in your replies. A brief glossary of terms is included in a separate document to help in the interpretation of some questions.

We hope you'll find everything straightforward. We've attached some explanatory notes about the questionnaire, which we hope will enable you to complete the questionnaire as fully as possible. However if you do have any problems please don't hesitate to give us a call on the numbers below, and we'll gladly talk things through. Thank you again for sharing your information with us.

Submitting the Questionnaire
Completed questionnaires can be emailed to answers@locusconsulting.co.uk. Or, if you prefer, they can be printed off and sent in the post to:

SECTION 2: ACCESSIBILITY

As well as finding out the types of information held by your archive, we are interested to know the ways in which it is being made available to the public. This section is divided into three parts, investigating online access to holdings, remote enquiries and requests for research, and physical access by a member of the public.

> ONLINE

A growing number of archives are providing information online, including via third party websites (e.g findmypast, ancestry). The styles of website vary considerably, particularly according to the information displayed, the different structures in which information is held, and the resources available. The questions below seek to understand the different types of heritage information held online and the often individual ways in which it is presented and structured.

If none of your heritage information is available online please go to Question 2.6

2.1 How is heritage information hosted online? (Mark **either** 'Yes' or 'No'. Please add the address of your website in the appropriate box.)

SECTION 3: ENABLING ANALYSIS, INTERPRETATION AND APPLICATION

Much of the information held by archives is in a raw form (e.g. original documents and maps). This section aims to find out what processes and resources are in place to assist a member of the public in the interpretation and application of information acquired from an archive office.

3.1 Please give details of any methods and materials available to help users in the interpretation of heritage information, such as user guides to your archive. (Free text)

Answer:
On the websites www.wshc.eu and www.wiltshirewills.org and history.wiltshire.gov.uk (various subpages) there are guides to using archives, plus access to the archive catalogues and our community history pages (maintained by the local studies team) which contain a lot of useful topographical and local history information.

3.2 What guidance do you have to help guide members of the public in undertaking heritage-related projects in your area? If you don't provide any guidance of this kind please enter "n/a". (Free text)

(These might include guidance on how to produce village design statements, organise local history projects, or inform building restoration projects.)

3.3 Are you aware of any *specific* community-led plans (e.g. parish plans, village design statements, neighbourhood plans etc.) that have used information from your archive in the past 5 years?

Answer: YES/NO (delete as applicable). NO – I've checked and cannot find any recent requests for copies but that doesn't mean they haven't approached the local studies team instead.

3.4 If 'YES' please give some specific details where possible (Free text)
(e.g. location, type of plan and basic aims)
