Data Description	Title:	The Historic Landscape Assessment of Peterborough Unitary Authority
	Data Originator:	David. J. Lock. Department of Archaeological Sciences Bradford University
	Abstract:	Using the extensive Historic Landscape guidelines created by Lynne Dyson Bruce and English Heritage, the project worked to create the Historic Landscape Assessment for Peterborough Unitary Authority. With the Historic Landscape Assessment completed it then went on to compare the methodology to traditional landscape archaeological results in order to determine whether Landscape Archaeology is enhanced by the Historic Landscape project. An in-depth discussion of the reasoning behind the Historic Landscape Assessment project is also included.
