**NOTE:** In the event of the discovery of a previously unknown monument, or of the threatened damage to or destruction of a known monument, coming to the notice of members, they are urged to report the same forthwith to the Correspondent who lives nearest to the site in question, or to the Chief Correspondent concerned. It is important to note that scheduling of an ancient monument by the Ministry of Works is not in itself a guarantee of its immunity from damage or destruction, and the co-operation of local observers is necessary to ensure such immunity; for a prosecution under the Ancient Monuments Acts to be valid, it is necessary for proceedings to be begun within six months of the committing of an offence, so that it is essential that cases of damage or threatened damage to a monument should be reported as promptly as possible.
