

Development Potential and Constraints

Farmstead Name	Date
Weather	Initials

Capacity of site – considering existing and ruined buildings – i.e. number of units and what farm needs	
Unique/desirable features/assets that might be considered as selling points for conversion/adaptation	
Any physical features that could constrain development or change of use?	
Re-use of existing buildings? Any clear need for (i.e. Division, upscaling, rebuilding demolition)	
Are there any buildings/features requiring relocation?	
What is the likely capacity of the site for new buildings (i.e. How many potential units?)
