INDEX	272

ILLUSTRATIONS

A NEOLITHIC CAIRN AT WHITWELL, DERBYSHIRE

Fig.1	Plan showing the general site location and relationship of the cairn to the limestone quarry	2
Fig.2	Whitwell cairn in relation to the local topography and geology	3
Fig.3	West-east section through the monument as revealed by quarry disturbance	5
Fig.4	Detailed plan of the Whitwell cairn, showing cairn construction	6
Fig.5	Outline plan showing the principal components of the cairn	7
Fig.6	Plan showing the distribution of finds	8
Fig.7	Mortuary structure 1 features and first stage linear mortuary deposit, showing location of radiocarbon dated bones	10
Fig.8	The mortuary zone and single inhumation beneath oval cairn stage 1	12
Fig.9	Upper levels of linear mortuary deposit with adjacent trapezoidal cairn stage 1, approach passage and scoops	21
Fig.10	Upper levels of linear mortuary deposit with adjacent trapezoidal cairn stage 1, outer cairn wall of trapezoidal cairn stage 2 and passage blocking material	22
Fig.11	A – detail of trapezoidal cairn stage 2 wall. East; B- section through trapezoidal cairn stage 2 external deposits	24
Fig.12	Linear mortuary deposit, showing the distribution of flints, pottery, animal bones and location of radiocarbon dated human bones	27
Fig.13	Probable distribution of dates from Whitwell cairn	36
Fig.14	Graph of [can't do symbol!] 13C and [can't do symbol!]15N value of bone collagen from Whitwell cairn	38
Fig.15	Neolithic pottery, vessels 1-6	42
Fig.16	Flint arrowheads	67
Fig.17	Other illustrated flint	68
Fig.18	Relative frequency of skulls, vertebrae, long bones and bones of the hands and feet at Whitwell	73
Fig.19	The angle of ocular wear on front molars	84
Fig.20	Interproximal facet width on the first molars of Whitwell individuals	84
Fig.21	Spatial distribution of skeletal elements assigned to Phase 1	88
Fig.22	Spatial distribution of skeletal elements assigned to Phase 5	88
Fig.23	Spatial distribution of cross-matched bones assigned to Phase 1	89
Fig.24	Spatial distribution of antimere-matched bones assigned to Phase 1	89
Fig.25	Spatial distribution of cross-matched bones assigned to Phase 5	90
Fig.26	Spatial distribution of antimere-matched bones assigned to Phase 5	90
Fig.27	Whitwell cairn – schematic phasing diagram	104
Plate 1	View of the cairn section at quarry edge, 1989	15
Plate 2	View of the cairn after removal of topsoil and disturbed material	15
Plate 3	The linear mortuary deposit, looking west, both stages	16
Plate 4	Linear mortuary zone pits	16
Plate 5	Single inhumation and surrounding cairn material	17
Plate 6	Walls of the two stages of the oval cairn, view from the east	17
Plate 7	North east portion of the trapezoidal cairn, showing two phases of walling	18
Plate 8	Second phase linear mortuary deposit with flint arrowhead 6	18
Plate 9	Eastern side of cairn showing variation in alignment between stage 1 and stage 2 of the of the trapezoidal cairn	19
Plate 10	Detail of cairn wall of stage 2 trapezoidal cairn, eastern side	19

Plate 11	Detail of passage blocking showing slabs at west end of passage	20
Plate 12	Displaced cairn material against eastern side of stage 2 trapezoidal cairn	20
Plate 13	Medial and posterior photographs and radiograph of the osteocondrone and the right tibia of skeleton 957	79
Plate 14	A possible trepanation on the left frontal bone of 834/1	79
Plate 15	Strongly worn maxillary anterior dentition in an adult female	86
Plate 16	Lightly worn maxillary anterior dentition in an adult male	86
Plate 17	Rodent gnaw marks on inferior margin of right zygomatic 512/2	92
