

BROOCHESSITE B

- S.F. 83
C. 60 Bronze Brooch flat bow w̄ groove down central ridge to foot two other grooves either side half-way-circular and triangular holes in catchplate. broken - no head.
- SF. 236
C. 74 Bronze Brooch lower part of bow only - flattened. beginning of catch-plate on back. narrow knurled marginal ridges - two grooves down side of central ridge - knurled on edges either side of incised central pattern, above two grooves and two cross mouldings the lower one incised in diagonal lines. Bagendon or Hod Hill?
- SF. 115
C. 64 Bronze Brooch rounded bow only - patterned catchplate broken but w̄ 2 perforations - round or triangular undecorated probably Colchester derivative
- S.F. 128
C. 64 Bronze Brooch rectangular plate brooch with raised centre with seven enamel panels - green, blue, red, blue, red, blue, green - six lugs - one at each end over pin hinge and catchplate and two on each side - stamped with concentric rings and two smaller ones at each short end of rectangle - knurled all round raised centre and round neck edges at hinge and catchplate - pin complete - catchplate broken.
- S.F. 962
C. 99 Bronze Brooch
No. 26 very simple Hod Hill? 40mm long - single deep groove down centre bow between marginal ridges with horizontal incised lines regularly spaced across it - hinged w̄ pin missing incipient foot knob - solid catchplate.
- S.F. 1003
C. 64 Hinged brooch pin - 34mm long.
- S.F. 969
C. 200 Hod Hill - oblong bow w̄ 2 grooves between raised marginal and central ridges with knurled decoration - side lugs at lower corners - 2 cross ridges with groove between at foot - solid catchplate. Hinge box and pin missing.
- S.F. 1048
C. 205 Flattened section brooch pin - probably from a penannular brooch.
- S.F. 993
C. 99 Flattened bow of heavy Nauheim derivative - no decoration - solid catchplate.

- S.F. 1443
C. 255 Plain bow and catchplate of Iron Brooch.
Solid catchplate - central knob on bow maybe
solidified corrosion rather than decoration.
- S.F. 1223
C. 99 Pin of rounded section from spring brooch
- S.F. 1213
C. 233 Substantial example of Colchester Brooch - spring
and pin missing - two slightly incised cross grooves
at foot - slightly incised marginal grooves -
incised zig-zag decoration on crest.
triangular perforation in catchplate.
- S.F. 1301
F. 16
Hull 1961 178-9 Broken bow and foot of Bagendon Type C?
3 lugs each side of oblong bow w deep central groove
Hinge box, hinge and pin missing - raised cross
ridge on foot. Solid catchplate.
- S.F. 1324
C. 200 Iron Brooch - plain tapering hinged bow - pin and
catchplate missing.
- S.F. 1049
C. 213 Foot only of plain Colchester derivative type
two incised cross grooves at base of foot
catchplate perforated with 1 triangular and 1 round
hole.
- S.F. 1118
C. 64 Plain mis-shapen penannular Brooch of round
section wire-rolled over and flattened terminals.
- S.F. 1357
C. 200 Plain undecorated Colchester type of copper alloy.
Spring of 8 turns - pin missing - plain bow with
foot and catchplate missing.
- S.F. 1396
C. 265 Bow and foot of Nauheim Derivative.
Central vertical zig-zag decoration on bow between
incised marginal grooves (lines). solid catchplate.
- S.F. 1318
C. 200 Hinged Brooch of Hod Hill type.
Oblong bow w deep central lateral groove between
2 ridges and two smaller outer grooves and marginal
ridges, - close groove between two ridges on foot -
pin missing - solid catchplate.
- S.F. 1358
C. 238 Hinged Brooch of Hod Hill type.
Oblong bow w deep central lateral groove flanked
by two shallower grooves - knurled along ridges
between them - two lugs at bottom corners of oblong
plate-divided from foot by two deep cross grooves and
ridges - marginal lateral incised lines along foot
part of bow ending in two more cross grooves and
ridges and a toe knob. - tinned or silvered.
Pin missing - solid catchplate.

- S.F. 1412
C. 243
Colchester variant?
- Two piece brooch - spring and pin missing
undecorated wings - central lateral ridge down bow-
deliberately flattened - incised marginal grooves
down bow - pierced catchplate - two more perforations
at edge where bent up. (ending in toe-knob)
- S.F. 1234
C. F.16
- Iron Brooch - Colchester
Curved bow - part of cord extant but spring and
pin missing - copper alloy inlay on wings but only
right side inlay still extant - centre inlaid
lateral groove down bow also decorated with incised
pattern - solid catchplate.
- S.F. 1413
C. 255 D
- Bow and foot only - Flattened and distorted (Aucissa?)
Decorative beaded central lateral ridge down bow
between two deep grooves separated from foot by
2 cross ridges and 3 grooves - solid catchplate -
twisted and mis-shapen.
- S.F. 1677
C. 373
- Colchester derivative - Harlow type - complete
w pin. Spring of 9 turns - high crest on bow -
raised lateral ridge between
2 deep marginal grooves down centre bow.
triangular perforation in catchplate.
bent and distorted.
- S.F. 1601
C. 336
- Colchester
Spring of 8 turns - pin extant complete
plain wings - decorated crest with incised zig-zag
shallow incised marginal grooves.
bow broken - foot missing
- S.F. 1854
C. 551
- Colchester
Spring of 8 turns - pin missing
plain wings - incised zig-zag decoration below crest
on bow - solid catchplate.
- S.F. 1905
C. 601
- Colchester
Spring of 7 turns - complete
plain wings - incised zig-zag decoration below crest
on bow - solid catchplate.
- 1324 200
- Iron Brooch - plain tapering hinged bow - pin and
catchplate missing.
- 1049 213
- Foot only of plain Colchester derivative type
two incised cross grooves at base of foot
catchplate perforated with 1 triangular and
1 round hole.
- 1118 64
- Plain mis-shapen penannular Brooch of round section
wire - rolled over and flattened terminals.
- 1357 200
- Plain undecorated Colchester type of copper alloy.
Spring of 8 turns - pin missing - plain bow with
foot and catchplate missing.

- 1396 265 Bow and foot of Nauheim Derivative
Central vertical zig-zag decoration on bow
between incised marginal grooves (lines) *lateral*
Solid Catchplate
- 1318 200 Hinged Brooch of Hod Hill type
Oblong bow with deep central lateral groove
between 2 ridges and two smaller outer grooves
and marginal ridges - cross groove between two
ridges on foot - pin missing - solid catchplate.
- 1358 238 Hinged Brooch of Hod Hill type
Oblong bow with deep central lateral groove flanked
by two shallower grooves - knurled along ridges
between them - two lugs at bottom corners of oblong
plate divided from foot by two deep cross grooves
and ridges - marginal lateral incised lines along
foot past of bow ending in two more cross grooves
and ridges and a toe knob.
Pin missing - solid catchplate.
- 1412 243 Two piece brooch - spring and pin missing
Colchester variant ?unde corated wings - central lateral ridge down bow-
deliberately flattened - incised marginal grooves
down bow - pierced catchplate - two more perforations
ending in toe-knob at edge where bent up.
- 1915 601 Colchester Variant - 2 part
9 5/4 springs - pin in tact
plain rounded bow - grooved wings - 1 on each side
flanked by knurled ridges
zoomorphic crest
pierced catchplate - broken - knob at top in
inside centre (to stop pin springing out?
a safety catch?)
2 rows of incised vertical pattern at join of
c/p to bowfoot.
- 2101 628 Colchester 2 part
superior chord-spring of ? coils - spring missing
central groove 2/3⁵ down centre of bow-knurled
either side of groove. plain wings
triangular perforation in catchplate.
- 2064 582 Colchester - 2 part
4 springs extant on one side - spring uncoiled on
other. plain wings
bow has incised zig-zag decoration from
below crest to foot on raised central ridge with
deep marginal vertical grooves on either side.
plain catchplate - pin missing - broken in antiquity
- 788 98 Colchester Variant
Similar to 1671 Central ridge with wide marginal grooves down bow -
extended crest to halfway - plain wing - one broken off
spring broken - one half extended - pin missing
broken across in antiquity - twisted too -
catchplate complete with triangular perforation.

- 1324 200 Iron Brooch - plain tapering hinged bow - pin and catchplate missing.
- 1049 213 Foot only of plain Colchester derivative type two incised cross grooves at base of foot catchplate perforated to 1 triangular and 1 round hole.
- 1118 64 Plain misshapen penannular Brooch of round section wire - rolled over and flattered terminals.
- 1357 200 Plain undecorated Colchester type of copper alloy. Spring of 8 turns - pin missing - plain bow with foot and catchplate missing.
- 1396 265 Bow and foot of Nauheim Derivative. Central vertical zig-zag decoration on bow between incised marginal grooves (lines) Solid Catchplate.
- 1318 200 Hinged Brooch of Hod Hill type Oblong bow with deep central lateral groove between two ridges and two smaller outer grooves and marginal ridges - cross groove between two ridges on foot - pin missing - solid catchplate.
- 1358 238 Hinged Brooch of Hod Hill type Oblong bow with deep central lateral groove flanked by two shallower grooves - knurled along ridges between them - two lugs at bottom corners of oblong plate divided from foot by two deep cross grooves and ridges - marginal lateral incised lines along foot part of bow ending in two more cross grooves and ridges and a toe knob. Pin missing - solid catchplate.
- 1412 243 Two piece brooch - spring and pin missing.
Colchester Variant ?undecorated wings - central lateral ridge down bow - deliberately flattened - incised marginal grooves down bow - pierced catchplate - two more perforations ending in toe-knob at edge where bent up.
- 817 U/S Hod Hill type with 7 very bold transverse mouldings occupying half it's length - close parallel from Colchester. Pin missing - circular perforation in catchplate. Fishbourne - page 100, fig.38, No.25
- 2138 647 Colchester plain wings - Knurled decoration on crest - bow broken off below crest - part of crest broken at join - spring of 6 coils - pin complete.

- 1716 394 Nauheim derivative
plain bow - 2 coils of spring - rest and pin missing
catchplate broken - decorated round the internal edge
with incised zig-zag pattern.
- 1892 579 Nauheim derivative
plain bow. spring of 3 coils and chord complete -
pin missing. catchplate broken.
- 2137 649 Colchester - two parts
plain rounded bow with high arch - catchplate broken
off. plain undecorated wings - one broken off
half spring of 3 turn extent with rod and hook - pin
missing in poor condition - spring corroded.
- 1716 394 Nauheim derivative
plain bow - 2 coils of spring - rest and pin missing
catchplate broken - decorated round the internal edge
with incised zig-zag pattern.
- 1892 579 No. 3 Nauheim derivative
plain bow - spring of 3 coils and chord complete
pin missing. catchplate broken.
- 2137 649 Colchester - two parts
plain rounded bow with high arch - catchplate broken off.
plain undecorated wings - one broken off
half spring of 3 turns extent with rod and hook, pin
missing in poor condition - spring corroded.
- 1827 64 No. 31 Hod Hill - Simple
prominent knurled ridge down centre of bow with deep
grooves and knurled marginal ridges either side.
incised marginal lines on foot which is divided from
bow by cross ridge - two cross ridges on the -
complete plain footplate - hinged pin; half missing -
traces of silvering.
- 1829 H.10 No. 29 Hod Hill - Simple
small example with plain flat ridge between deep
marginal grooves down centre of bow - divided from
foot with deep transverse cross groove and ridge -
deep cross groove and ridge above toe knob - plain
catchplate - broken at hinge-pin missing
- 2148 H.10 No. 28 Hod Hill - Simple
Small example - deep groove between pronounced
marginal ridges down centre of bow - 2 cross ridges
waisted between dividing bow from foot - foot broken off
just below start of catchplate.
Hinged - pin and hinge missing.
- 1746 422A No. 19 Aucissa
High bow - central groove between 2 ridges and 2
grooves and marginal ridges - central groove decorated
with raised zig-zag pattern - divided from foot with
1 cross ridge and 2 grooves
complete catchplate - pin missing.

- 1693 392 Hod Hill
Bow only - foot broken off above catchplate -
hinged - pin missing.
Oblong bow tapering towards top - two pronounced
vertical grooves - central and marginal ridges
knurled - deep cross grooves at top and bottom of
bow - lugs at the bottom corners of oblong - lefthand
one partly broken off.
- 1990 608 Hod Hill
bow and footplate - head missing - pin missing
Oblong bow - two vertical groove with very pronounced
flattened ridge between - decorated with central
ridge of stab decoration between 2 ridges of knurling
- plain marginal ridges.
Long foot plate with slightly off centre toe knob -
plain catchplate, slightly damaged - silvered all over
- fine incised marginal line on footplate
- 9 Crescent shaped plate brooch. - early 1st century.
Claudian hinged - ornamental end-knobs and sunk
central disk of concentric circles probably for
enamel decoration hinged but pin missing -
catchplate broken.
- 2121 Crescent shaped plate brooch - early 1st century
Bottom part of undecorated brooch - similar to 9 above.
solid catchplate with turned over edge broken off.
- 2126 Simple Hod Hill
Lower bow and foot only - plain, solid catchplate.
Oblong bow with marginal ridges and deep grooves
either side of wide grooved ridge - vertical
knurling either side of central groove -
foot divided from bow by two cross grooves and ridge
horizontal knurling on central ridge.
- 7 Wheel Brooch. Claudian
Flat wheel-shaped plate brooch- central perforation in
stamped disk probably held knob-seating ring implied
of Canulodunum p.g. 326 plate XCVIII No.177
hinged - pin missing
- 1755 Head and ½ bow of Langton Down Type
Box enclosing 2 bars and spring pin which is bent up
over top. - Wings have 2 vertical grooves outside the
stamped pattern of lines and dots within bands on
box front, heavily incised pattern of vertical grooves
down bow.
Baldock: pg 116, no. 87
- 1849
576 *Bronze Brooch
Top half of Colchester type - undecorated
5 spring coils - 8 originally.*

- 748 Thistle or Rosette
64 Part of large example - plate broken - spring cover/box extent but prised open on one side - spring and pin missing
- 2095 Bagendon - derivative. - or Hod Hill
628 Oblong bow - decorated w̄ 4 crescent shaped incisions originally filled w̄ riells either side of raised central ridge divided from foot by stepped cross-ridge - plain leg w̄ small toe knob - solid catchplate.
hinge and pin missing - top broken at central perforation
- 507 Iron Brooch
64 Flat section bow - tapering towards foot - catchplate missing. Spring of 8 turns - pin missing - original curved bow now flattened and plain wings also turned downwards.
- 660 Iron Brooch
54 Plain bow - hinged - pin missing - catch missing circular dots in irregular pattern down centre of bow.
- 672 Iron Brooch
64 Nauheim Derivative - 4 springs, 1 broken, pin missing - bow only Bow broken and catchplate missing.
- 404 Iron Colchester
108 Plain wings - inset bronze strip down centre of bow spring of 8 turns - atchplate broken off - pin missing.
- 795 Iron Aucissa
98 raised central ridge between two grooves down centre of bow. Complete with hinged pin.
- 2042 Iron Colchester
621 Flat bow w̄ possible bronze inlay now missing - wings decorated w̄ 1 surviving bronze inlay strip - 3 missing - 10 coiled spring pin bent - complete
