

Appendix B: Register of Small Finds

compiled by

Denis Miles

from original Finds Register made by C. Elliot-Xenopontos, E. Goring and others

Entries with numbers above 5000 are inventoried, not registered. Many are embedded on site at Kissonerga, others comprise partly reconstructed pots housed as sherds in the District Archaeological Museum, Paphos, and yet others are too fragmentary to register. That museum contains all <KM 5000 finds save those from Unit 1015 and some figurines which are in the Cyprus Museum, Nicosia. Measurements in cms.
