

PHASES OF WORK (Contexts shown in **bold**):

50003:

- Water pipe gwb City Farm 21/07/10 **None**
- Groundworks gwb City Farm 20/08/10 **None**
- Evaluation trenches 1-9 City Farm and Green Park 06/12/10-21/01/11 **[1]-[165], [172]-[181]**
- Sewer diversion twb Garden Street 13/01/11-02/02/11 **[166]-[171]**
- Community archaeology trenches 1-3 City Farm 24/01/11-29/01/11 **[401]-[405]**
- Protective measures gwb City Farm 31/01/11-04/02/11 **None**

50047:

- 22kve-cable trench diversion gwb 05/05/11-31/05/11 **None**
- Excavation main shafts 22/06/11-18/08/11 **[182]-[212], [214]-[300]**
- Ground reduction twb 05/07/11-30/07/11 **[213]**
- Protection of Baptist Chapel and Congregational church twb 11/07/11-07/08/11 **None**

50006:

- Trial pits for facility buildings and drainage x 4 gwb City Farm 01/02/12-10/02-13 **[302]-[312]**
- Soakaways x 2, utilities water main, drainage t&gwb City Farm 06/02/12-10/08/12 **[313]-[328], [343]-[344]**
- Shafts gwb Stepney Green 27/02/12-09/03/12 **[333]-[334]**
- New worksite gwb 20/06/12-25/06/12 **[329]-[332]**
- Levelling points and boreholes gwb 25/06/12-14/09/12 **None**
- Fire water main gwb 29/08/13-03/09/13 **[335]-[342]**

Matrices

Where the drawn matrices on permatrace differ from the context sheet matrices then the permatrace will take precedence.

The context matrix for Trench 3 is missing.

Environmental Material

Sample No. 8 does not seem to have been used. Also a dendro sample no. 25 was taken but could not be used as there were not enough rings present.

Finds

Registered finds nos. <74> - <79> and <98> were originally given to glass objects that were subsequently identified as window glass and therefore have now been deaccessioned and added to the bulk glass boxes. Glass <137> not used as it was amalgamated with <106> (same vessel)

Fig. 66 in Stepney Green book gives incorrect accession number for the copper nutcracker. Labelled as <61> when it's actually <18>
