## WC DRAWINGS

The following drawn objects have been cross-referenced to the original registers. Please note there are a few discrepancies, e.g. three objects with no numbers have been renumbered at 900, 901 & 902. 824a & 824b were numbered the same but are two separate objects, now numbered accordingly on drawings. Unlike ODXI & ODXII, WC did not differentiate between General Finds & Small Finds so all retain their original numbers.
