

FYFOD WORKING PAPER 33

A list of FYFOD Working Papers (FWPs)

Numbers 1-100

P.J.Fowler

Editor's Note: this edition of FWP 33 provides a list of contributors to the FWPs, and for each FWP a number, a full title, the author(s), date(s) of origin (and revision(s) and, as appropriate, a further comment. Key Words for each FWP are listed in FWP 33a.

Work on the final stages of preparation of the digital archive began immediately after the very last checks on the final proof of the Project's monograph, *Landscape Plotted and Pieced*, 2000. An immediate consequence was a revision of some of the detail of this catalogue of the Working Papers. The catalogue as printed in *LPP*, Appendix 1, is therefore already superseded, and this edition here is now the superior source.

We hope the whole of this electronic archive will continue to be used in this way, through amendment, addition and re-assessment. An obvious task, for example, is to key those FWPs (in the paper archive) which only exist as hard copy. It would be helpful too if (notes on) new publications and new work were added to this non-definitive *corpus*, perhaps by creating where appropriate new FWPs numbered 101 onwards from 1 January, 1999.

Abbreviations: *LPP*: Fowler, P J 2000, *Landscape Plotted and Pieced. Landscape History and Local Archaeology in Fyfield and Overton, Wiltshire*, Research Report 64, Society of Antiquaries of London, London
