chap 10

LXVIII. *RAF VAP of Shaw DMV and area: NMR 549958: 1 Dec 52: F.20/3078 = 3026/1*

LXIX. The 'empty' north part of West Overton tything between Overton Hill and Headlands, from the south

LXX. West Overton Methodist Church (destroyed), positioned at the historical west end of the former village of West Overton on a site now occupied since the early 1960s by a bungalow.

chap 11

LXXI. a and b. The village of West Overton in 1924 portrayed on two previously unpublished overlapping vertical air photographs by O.G.S.Crawford. Essentially they show the plan of the historic village in its early 19th century form, with the earthworks of the 'improved' water meadows of that time still in operation, though the lineaments of the two arguably late Anglo-Saxon 'planned' Overtons are also visible. The apparent cropmarks of a 'planned medieval village' east of the church (and over the site of the round barrow discovered in 1993) were created by the strip arrangements of allotment gardens which have now disappeared.

LXXII. St. Michael's Church, West Overton, in 1877, as depicted on a sketch of 'the old Overton church' before restoration, photographed in the 1960s from the original then in the church but now disappeared.

LXXIII. East Overton Manor house and St. Michael's church viewed from the S across the earthworks in Ring or Church Close, the abandoned part of medieval East Overton

chap 12

LXXIV. *Lockeridge and Fyfield on 11 Aug. 1972 (Vertical air photograph, NMR ref 231 72 295 10326)*

LXXV. Whitehill long barrow, enclosure and round barrows, Lockeridge (RCHM colour OAP)

LXXVI. *Lockeridge: cropmark of 'back street' along E side of planned village (12th century?) (RCHM OAP 1996)*

LXXVII. St. Nicholas' church, Fyfield, from the SE showing its Listed tombs flanking the approach to the south porch.

LXXVIII. *West Woods on the 12 July, 1946, after felling during World War 2 and before replanting, showing Clatford Park including part of its outline as an earthwork, the bank and ditch of Wansdyke along a length now heavily wooded, and Shaw DMV, already partly under plough: NMR VAP 106G/UK/1661 12/7/46*

chap 13

chap 14

LXXIX. Long Tom standing stone on the Fyfield/Clatford tything boundary, undated but likely to be of early medieval or earlier date.

LXXX. Sarsen stone split into blocks as if for removal, behind Delling, Fyfield Down

chap 15

LXXXI. Devil's Den in the early 1960s, a 1920s 'restoration' of a 'cromlech' of antiquarian thought rather than of a Neolithic chambered long barrow.

chap 16

LXXXII. Lambing on the Downs: thatched sheep pens, 1961

LXXXIII. Old Totterdown cottage collapsing 1961 (now completely ruinous and overgrown)

LXXXIV. South Farm (now demolished), West Overton:derelict barns 196?1

LXXXV. Overton Hill transport café during demolition, ?1989

LXXXVI. The Ridgeway on Overton Down, 1995, during mechanical excavation for improved

surfacing

LXXXVII. 'The Derby Gallop', the race-horse training course on Overton Down, 1996

LXXXVIII. Overton Down experimental earthwork in its summer foliage (*1980s, get exact date*)
