

## APPENDIX 1 METALWORK

### 1.1 Metalwork

#### *Introduction and methodology*

- 1.1.1 A total of 5 iron items were recovered from the excavation west of Leda Cottages. The assemblage has not been x-rayed.

#### *Quantification*

- 1.1.2 The metal artefacts are summarised in Table 4.1.
- 1.1.3 One complete nail and two heads of nails were retrieved from context 8036. The complete nail was bent in an L-shape.
- 1.1.4 Two complete nails were recovered from context 8097. One of them was slightly bent.

#### *Conservation*

- 1.1.5 No further conservation is required.

#### *Potential for Further Work*

- 1.1.6 Due to the very small size of this assemblage, there is no potential for further work.

*Table 4.1: Quantification of metalwork by context*

Context	SF number	Material	Comments
8036		Fe	1 complete nail and 2 nail heads
8097	800	Fe	Nail
8097	801	Fe	Nail
