

**ARC BBW 00**

CONTEXT NUMBER

**1345**

SKULL:

Mandible: Right body fragment, lingual surface (Non-metric trait: mandibular torus)

Teeth: 1 molar root fragment, 1 canine root fragment, 1 incisor root fragment, 2 crown fragments, right mandibular canine, 1 mandibular incisor fragment, 7 root fragments.

Right superior margin of the external acoustic meatus, left posterior zygomatic arch (Sex: Male), 1 occipital bone fragment.

4 cranial vault fragments.

AXIAL SKELETON:

Rib: 1 neck fragment, 1 right head fragment.

Cervical: 1 right inferior articular process.

Thoracic: 2 superior articular process fragments, 1 spinous process fragment.

5 vertebral body fragments.

UPPER LIMB:

Ulna: Trochlear notch fragment, 1 shaft fragment.

Radius: 1 head fragment, 2 shaft fragments.

Hands: Scaphoid fragment, right 5th metacarpal shaft, 1 metacarpal head fragment, 1 proximal end of a proximal phalanx fragment, 1 distal end of a intermediate phalanx..

LOWER LIMB:

Tibia: Condyle fragment.

Fibula: 1 shaft fragment.

Foot: 1 sesamoid.

AGE: Adult

SEX: Male ??

PATHOLOGY SUMMARY: Ante-mortem tooth loss.

PYRE GOODS: 1 Fe stud/nail, animal bones (1 g), small charcoal fragments (&gt; 1 g).

CREMATION SUMMARY: All white

COMMENTS: The residue contained a moderate amount of unidentifiable bone fragments from the 2 mm fraction.

**ARC BBW 00**

CONTEXT NUMBER

**1346**

SKULL:

Teeth: 1 molar root fragment, 1 single root fragment.

2 parietal fragments.

10 cranial vault fragments.

AXIAL SKELETON:

Thoracic: 1 body.

UPPER LIMB:

Humerus: 1 shaft fragment.

Ulna: 1 shaft fragment.

Hands: 1 distal end of a proximal phalanx, 2 distal ends of intermediate phalanges.

LOWER LIMB:

Femur: 1 postero-proximal shaft fragment, 2 shaft fragments with linea aspera.

Tibia: 1 shaft fragment with anterior border.

AGE: Adult

SEX: Unknown

PATHOLOGY SUMMARY: Slight porosity on the thoracic vertebral body.

PYRE GOODS: Fe nail?, 1 animal bone fragment.

CREMATION SUMMARY: All white. Small charcoal fragments present.

COMMENTS: The residue contained a small amount of unidentifiable bone fragments from the 2 mm fraction and a small amount of charcoal fragments.

**ARC BBW 00**

CONTEXT NUMBER

**2030**

SKULL:

Mandible: 2 body fragments, left condyle and neck.

Teeth: 2 incisor root fragments, 2 molar root fragment, 2 mandibular incisor root fragments, 6 single root fragments, 1 maxillary 1st premolar crown, 5 root fragments.

4 occipital bone fragments, 1 zygomatic arch fragment.

116 cranial vault fragments.

UPPER LIMB:

Scapula: 1 spine fragment.

Ulna: 3 shaft fragments.

Radius: 2 shaft fragments.

LOWER LIMB:

Femur: 6 shaft fragments, 1 postero-proximal shaft fragment, 9 shaft fragments with linea aspera.

Tibia: 3 shaft fragment with anterior border. 1 shaft fragment.

Fibula: 2 shaft fragments.

AGE: Subadult??

SEX: Unknown

PATHOLOGY SUMMARY: None

PYRE GOODS: Bird bones (> 1 g), Copper fragments (> 1 g).

CREMATION SUMMARY: All fragments are white.

COMMENTS: The residue contained a high amount of bone fragments from the 2 mm fraction.

**ARC BBW 00**

CONTEXT NUMBER

**1604**

SKULL:

Teeth: 3 single root fragments.

1 mastoid fragment, 1 occipital bone fragment,

23 cranial vault fragments.

UPPER LIMB:

Radius: 1 shaft fragment.

LOWER LIMB:

Tibia: 2 shaft fragments with anterior border, 2 shaft fragment.

Fibula: 1 shaft fragment.

AGE: Adult

SEX: Unknown

PATHOLOGY SUMMARY: None

GRAVE GOODS: 2 flint chips (< 1 g).

CREMATION SUMMARY: All white, small charcoal fragments are also present, moderate amount of fragments are abraded.

COMMENTS: The residue contained a small amount of unidentifiable bone fragments from the 2 mm fraction.

**ARC BBW 00**

CONTEXT NUMBER

**2042**

SKULL:

Teeth: 1 incisor root.

1 temporal bone fragment.

1 cranial vault fragments.

AXIAL SKELETON:

Thoracic: 2 left superior articular processes, 1 right inferior articular process

1 inferior articular process fragment.

UPPER LIMB:

Humerus: 1 head fragment.

LOWER LIMB:

Femur: 1 shaft fragment.

Tibia: 2 shaft fragments.

Fibula: 1 shaft fragment.

AGE: Adult

SEX: Unknown

PATHOLOGY SUMMARY: None  
PYRE GOODS: None  
CREMATION SUMMARY: All white.  
COMMENTS: The residue contained a small amount of unidentifiable bone fragments from the 2 mm fraction.

**ARC BBW 00**

CONTEXT NUMBER

**2040**

SKULL:

Mandible: 1 body fragment.

7 cranial vault fragments.

AXIAL SKELETON:

Rib: 2 body fragments.

Atlas: 1 fragment.

Cervical: 2 body fragments.

Thoracic: 1 body fragment.

2 vertebral body fragments.

AGE: Adult??

SEX: Unknown

PATHOLOGY SUMMARY: None

PYRE GOODS: None

CREMATION SUMMARY: All white

COMMENTS: The residue contained a moderate amount of unidentifiable bone from the 2 mm fraction.

**ARC BBW 00**

CONTEXT NUMBER

**2044**

SKULL:

Teeth: 2 mandibular molar root fragments, 1 mandibular 1st premolar crown..

AXIAL SKELETON:

Innominate: 1 acetabulum fragment, 1 ischial tuberosity fragment.

Rib: 6 body fragments.

Thoracic: 1 right inferior articular process.

2 vertebral body fragments.

LOWER LIMB:

Femur: 2 shaft fragments, 1 shaft fragment with linea aspera.

Tibia: 1 postero-proximal shaft fragment, 2 shaft fragments, 3 shaft fragments with anterior border.

AGE: Adult

SEX: Unknown

PATHOLOGY SUMMARY: None

PYRE GOODS: None

CREMATION SUMMARY: All white

COMMENTS: The residue contained a moderate amount of bone from the 2 mm fraction.

**ARC BBW 00**

CONTEXT NUMBER

**2213**

AXIAL SKELETON:

1 vertebral body fragments.

LOWER LIMB:

Tibia: 1 proximal end fragment.

AGE: Adult

SEX: Unknown

PATHOLOGY SUMMARY: None

PYRE GOODS: 4 animal bone fragments (18 g).

CREMATION SUMMARY: Bones present are spongy bone fragments and the human remains are slightly charred.

COMMENTS: All the bone present are spongy bone which is generally brown with slight black

charring at the edges. The animal bones are white with a black core.

**ARC BBW 00**

CONTEXT NUMBER

**2036**

SKULL:

14 cranial vault fragments.

UPPER LIMB:

Humerus: 1 antero-distal shaft fragment.

Radius: 1 shaft fragment.

AGE: Adult?

SEX: Unknown

PATHOLOGY SUMMARY: None

GRAVE GOODS: None

CREMATION SUMMARY: All white

COMMENTS: The residue contained a small amount of bone from the 2 mm fraction.
