This report has been prepared by Oxford Archaeological Unit for Union Railways Limited to provide reference material for the Channel Tunnel Rail Link Environmental Statement.

This Report has been compiled by the Oxford Archaeological Unit in good faith within the terms of the brief, timescale and resources assigned to it by the client. The report represents the views of the Oxford Archaeological Unit based on the data and information supplied by Union Railways Ltd. OAU accepts no responsibility for errors in data compiled by other bodies or individuals and no legal liability arising from the use made by other persons of the data or opinions presented in this report.

APPENDIX A

GAZETTEER OF HISTORIC AND CULTURAL SITES

This Gazetteer of Cultural Heritage Features covers those features shown on the Historic and Cultural Environmental Features Mapping (EFM) in Volume 2. It is printed from a database which is related to a larger project archive and has been developed over the five years period of OAU's involvement in the project. As a consequence of the numerous changes in alignment during this period, there are many entries in the database and archive which are no longer within the study area. Such entries are not printed here, and the sequence of identifying numbers (OAU No.) is thus not continuous. The gazetteer is printed in numerical order within the following categories:

Historic Buildings (OAU Nos. 61-1016; 3001-54)

Archaeological Sites (OAU Nos. 1050 - 1990)

Historic Landscape Features (OAU Nos. 2001 - 2337)

A coloured divider is placed at the beginning of each section.

The following abbreviations are used in the Gazetteer. A definition of each term can be found in the Glossary (Appendix D in Volume 4).

PERIOD

BA	Bronze Age	NE	Neolithic
EM	Early Medieval	PA	Palaeolithic
