APPENDIX A

GAZETTEER OF HISTORIC AND CULTURAL SITES

This Gazetteer of Cultural Heritage Features covers those features shown on the Historic and Cultural Environmental Features Mapping (EFM) in Volume 2. It is printed from a database which is related to a larger project archive and has been developed over the five years period of OAU's involvement in the project. As a consequence of the numerous changes in alignment during this period, there are many entries in the database and archive which are no longer within the study area. Such entries are not printed here, and the sequence of identifying numbers (OAU No.) is thus not continuous. The gazetteer is printed in numerical order within the following categories:

Historic Buildings (OAU Nos. 61-1016; 3001-54)

Archaeological Sites (OAU Nos. 1050 - 1990)

Historic Landscape Features (OAU Nos. 2001 - 2337)

A coloured divider is placed at the beginning of each section.

The following abbreviations are used in the Gazetteer. A definition of each term can be found in the Glossary (Appendix D in Volume 4).

PERIOD

BA	Bronze Age	NE	Neolithic
EM	Early Medieval	PA	Palaeolithic
IN	Industrial	PM	Post medieval
IA	Iron Age	RB	Romano British
