

Site name/address	122-132 Putney Bridge Road, SW15, LB of Wandsworth
OS grid reference	TQ 2452 7530
Project type	Watching brief
Contractor	Compass Archaeology Ltd.
Dates of work	13 th November-11 th December 2003
Funding body	The Hurlingham School
Site code	PBG03

There were no significant finds. The site area had been largely reduced to basement level, although a buried soil and overlying dumps of 19th/20th century date were recorded in section. Elsewhere the surface of the natural Terrace sand and gravel was exposed, although there was a large intrusion with probable 19th century fill in the northeast corner of the site. This feature may have been a gravel pit, dug prior to the development of the site.
