

ARCHAEOLOGICAL SURVEY OF MINERAL EXTRACTION SITES AROUND THE THAMES ESTUARY

AGGREGATES LEVY SUSTAINABILITY FUND 1 ASSESSMENT REPORT

(March 2004)

Essex County Council
Planning

ARCHAEOLOGICAL SURVEY OF MINERAL EXTRACTION SITES AROUND THE THAMES ESTUARY

**AGGREGATES LEVY SUSTAINABILITY FUND
ASSESSMENT REPORT**

1.1 CONTENTS

1.	BACKGROUND	1
1.1	INTRODUCTION	1
1.2	BACKGROUND	2
1.2.1	LOCATION	2
1.2.2	GEOLOGY AND PALAEOLITHIC ARCHAEOLOGY	2
1.2.3	ARCHAEOLOGY	3
1.2.4	PLANNING	3
1.3	AIMS AND OBJECTIVES	4
1.3.1	AIMS	4
1.3.2	RESEARCH OBJECTIVES	4
1.4	METHOD	5
1.4.1	METHOD	5
1.4.2	GEOGRAPHICAL INFORMATION SYSTEM	6
1.4.2.1	Introduction	6
1.4.2.2	Data formats	6
1.4.2.3	Layers	6
1.4.2.4	Data queries	7
1.5	WIDER DISPERSAL AND ARCHIVE	7
1.5.1	LINKS TO OTHER PROJECTS	7
1.5.2	WIDER DISPERSAL	8
1.5.3	ARCHIVE	8
2.	ASSESSMENT REPORTS	9
2.1	GEOLOGY	9
2.1.1	GEOLOGICAL CONTEXT	9
2.1.1.1	Introduction to the Pleistocene in the Lower Thames	9
2.1.1.2	The Quaternary Era	9
2.1.1.3	River Terraces	11
2.1.1.4	Lower Thames terrace deposits: definitions and brief descriptions	13
2.1.1.5	Other drift deposits: definitions and brief descriptions	19
2.1.2	METHODOLOGY	20
2.1.2.1	Desk study selection of sites	20
2.1.2.2	Site visits	23
2.1.2.3	Reporting	25
2.1.3	Results: site reports (examples)	31
2.1.4	GIS 3D MODELLING OF GEOLOGICAL DATA	34
2.1.4.1	Scoping	34
2.1.4.2	BGS methodology	34
2.1.4.3	Project utilization of BGS modelling	35
2.2	PALAEOLITHIC	40
2.2.1	INTRODUCTION	40
2.2.1.1	The Palaeolithic	40
2.2.1.2	The Palaeolithic in the Thames Estuary	43
2.2.1.3	Palaeolithic archaeology and aggregate extraction	46
2.2.2	AIMS AND OBJECTIVES	47
2.2.3	METHODS	47
2.2.4	RESULTS	51

2.2.4.1	Essex	51
2.2.4.2	Kent	53
2.3	ARCHAEOLOGY	63
2.3.1	INTRODUCTION	63
2.3.2	AIMS AND OBJECTIVES	64
2.3.3	METHOD	64
2.3.4	RESULTS	65
2.3.5	ARCHAEOLOGICAL POTENTIAL	66
2.3.6	AREAS WHERE QUARRYING HAS DESTROYED ARCHAEOLOGICAL DEPOSITS	67
2.3.7	HISTORIC ENVIRONMENT RECORD ENHANCEMENT	67
2.3.8	DISCUSSION	68
2.4	INDUSTRIAL	68
2.4.1	INTRODUCTION	68
2.4.2	BACKGROUND	68
2.4.3	AIMS AND METHODOLOGY	69
2.4.4	ESSEX	69
2.4.5	KENT	71
3.	CONCLUSIONS AND RECOMMENDATIONS	74
3.1	GEOLOGY	74
3.1.1	SITES OF HIGH POTENTIAL OR IN NEED OF PROTECTION	74
3.1.1.1	Essex	74
3.1.1.2	Kent	75
3.2	PALAEOLITHIC	77
3.2.1	CONCLUSIONS	77
3.2.1.1	Future threats and curatorial priorities	77
3.2.1.2	Research framework and priorities	79
3.3	ARCHAEOLOGY	81
3.3.1	ASSESSMENT OF FUTURE THREAT	81
3.3.2	IDENTIFICATION OF FUTURE THREATS	82
3.3.2.1	Minerals	82
3.3.2.2	Regional and local planning policy	83
3.3.2.3	Gravesham	83
3.3.2.4	Dartford	84
3.3.2.5	Thurrock	85
3.3.3	ASSESSMENT OF FUTURE THREAT	86
3.3.3.1	Kent	86
3.3.3.2	Essex	87
3.4	INDUSTRIAL	87
3.4.1	DISCUSSION	87
3.5	GIS	88
3.5.1	FURTHER WORK	88
3.6	SUMMARY	90
3.6.1	PRESERVATION AND MANAGEMENT OF SITES	90
3.6.1.1	Geology and Palaeolithic	90
3.6.1.2	Industrial	91
3.6.2	RESEARCH OBJECTIVES	92
3.6.2.1	Geology and Palaeolithic	92
3.6.2.2	Industrial	92

3.6.3	TECHNICAL AND ORGANISATIONAL ISSUES	92
	ACKNOWLEDGEMENTS	93
	BIBLIOGRAPHY	94

APPENDICES

1.	Desk-based study: Palaeolithic data	100
2.	Field visits: Palaeolithic recording	101
3.	Overall assessment: Palaeolithic Archaeology	102
4.	Data formats	103

TABLES

1.	Terrace nomenclature and dating in the Lower Thames	13
2.	Desk study pro-forma (GD)	21
3.	Site visit pro-forma (GV)	24
4.	Overall assessment form; Palaeolithic archaeology	26
5.	Site record form, worked example	28
6.	Palaeolithic period	41
7.	Key Thames Estuary Palaeolithic sites	46
8.	Categories of desk-based and field visit data from Palaeolithic and Pleistocene studies contributing to overall assessment in different areas	51
9.	Essex mineral extraction sites with Palaeolithic remains	53
10.	Kent mineral extraction sites with Palaeolithic remains	54
11.	Stratigraphic and archaeological summary of Barnfield Pit sequence, Swanscombe	57
12.	Threats to the Palaeolithic resource	79
13.	Palaeolithic research priorities in the Thames Estuary (Essex)	80
14.	Palaeolithic research priorities in the Thames Estuary (Kent)	81

COLOUR PLATES

1.	Ruined building in nature reserve in Grays chalk quarry (EX477)	107
2.	Derelict Church House in Tank Lane Quarry, Purfleet (EX681)	107
3.	Tramway cutting (EX 649)	108
4.	?Cement storage building at Aspdins Cement Works (KN558)	108
5.	Craylands Gorge Tunnel, Swanscombe (KN877)	109
6.	C19 linear spoil tips/banks on Dartford Heath (KN727)	109

FIGURES

1.	Location of study area	110
2.	GIS: Geology	111
3.	GIS: Palaeolithic	112
4.	GIS: Industrial	113
5.	Geology: Summary map – distribution of Lower Thames terrace deposits	114
6.	Geology: Lower Thames staircase diagram, idealised transverse section	115
7.	Geology: Lower Thames staircase diagram, transverse section with archaeology	116
8.	Geology: Lower Thames staircase diagram, transverse section with vertebrates	117
9.	Geology: Oxygen isotope curve	118
10.	Geology: Climatic terrace model (after Bridgland 2000)	119
11.	Geology: Project area, location and outline of geology	120
12.	Geology: Orsett Heath Formation (Black Park and Boyn Hill Gravels); Long profile fence diagram	121
13.	Geology: Orsett Heath Formation (Black Park and Boyn Hill Gravels); Isopachs	122
14.	Geology: Corbets Tey Formation (Lynch Hill and Hackney Gravels); Long profile fence diagram	123
15.	Geology: Corbets Tey Formation (Lynch Hill and Hackney Gravels); Isopachs	124
16.	Geology: Aveley – relationship of Black Park and Boyn Hill Gravels	125
17.	Geology: Aveley – deformation of sediments (diaper and gull)	126
18.	Geology: Southfleet Road, Swanscombe Community School – investigation of Boyn Hill Gravel boundary	127
19.	Geology: Dartford Heath Hospital – investigation of Boyn Hill Gravel boundary, comparing bespoke geological mapping and fence diagram	128
20.	Geology: Dartford Heath Hospital – investigation of Boyn Hill Gravel boundary comparing bespoke geological mapping and 1:50,000 geological mapping	129
21.	Geology: Little Thurrock, Globe Pit – investigation of mapping of Corbets Tey Gravel	130
22.	GIS: Screen shots illustrating (top) data in the map regression layers, and (bottom) data in the desk-based assessment layer	131
23.	GIS: Desk-based assessment results	132
24.	GIS: BGS Superficial and Solid geology layers with artificial ground layer overlaid (red line), and attributes of Artificial ground layer	133
25.	GIS: Artificial ground layer overlaid on 1st Edition OS, showing discrepancy in extent of excavation	133
