## Proceedings of Societies.

BERKS ARCHÆOLOGICAL SOCIETY.—During the Winter Session some valuable and interesting lectures have been delivered, though with the exception of the "Reading Pageant" and Major Godsal's "Conquest of Britain," the subjects have not been connected with the County. On January 30th, Dr. H. A. Powell gave a very interesting lecture on "Japan and its Gardens," beautifully illustrated by lantern slides. On February 13th, Mr. Arthur W. Sutton gave a valuable lecture on "A Camping Tour in Petra," which was much appreciated by a large audience, his lantern slides being greatly admired. On March 19th, Mr. Albin White gave a very interesting lecture on "The Land of Lley, a little known corner of Wales," his illustrations being excellent. The next Meeting of the Society on May 18th, will be the Annual Meeting, when the President will give a Lecture on the Churches of Cholsey and South Moreton. The annual reports will be presented at this meeting, and the Officers elected.
