

## CONTENTS OF ADS ARCHIVE

1. Introduction to the archive and project summary. D. Knight (March 2014)
2. Integrated assessment report (including specialist finds reports)  
Knight, D., 2014. *Church Wilne Deserted Settlement: Assessment of Archaeological Potential*. Nottingham: Trent & Peak Archaeology (updated May 2014)
3. Contents of Derby Museum archive  
Appleton, E. and Markoulaki, P., 2009. *Church Wilne, Derbyshire: Contents of Site Archive*. Nottingham: Trent & Peak Archaeology (revised March 2014 by D. Knight)
4. Site Notebooks (scanned and indexed by S.Lomax)
  - Notebook 1: index of context codes and feature
  - Notebook 2: index of context codes and features
  - Notebooks 1 and 2: index of drawings
  - Notebook 1: scanned copy
  - Notebook 2: scanned copy
5. Large format plans and sections
  - Catalogue of plans and sections. E.Appleton
  - Scans of Drawings 1-42
6. Excavation photographs (scanned by S.Lomax and J.Priest)
  - Catalogue. D.Knight
  - Colour print scans
  - Colour slide scans
  - Monochrome print scans
7. Database of Context Codes (including details of artefact and ecofact associations; compiled by A.Wilson and S.Lomax)
  - Introduction. D.Knight
  - Microsoft Access database
8. Harris matrices (compiled by S. Lomax)
  - Areas I-IV
  - Area V
  - Area VI
  - Area VII
9. Finds drawings
  - Catalogue of pot drawings (compiled by A. Irving)
  - Catalogue of small finds drawings (compiled by D.Knight)
  - Scans of pottery drawings (compiled by J. Priest)
  - Scans of small finds drawings (compiled by J. Priest)
10. Metalwork conservation reports: condition assessments and report on investigative cleaning
  - Mildwaters, N. 2009a (June) Condition assessment of ironwork from Church Wilne. York: York Archaeological Trust Conservation Laboratories
  - Mildwaters, N. 2009b (July) Additional Condition Assessment of Ironwork from Church Wilne. York: York Archaeological Trust Conservation Laboratories

- Kenward, K. 2010. Church Wilne Village: the Investigation of Two Iron Objects, SF40 and SF81. York: York Archaeological Trust Conservation Laboratories
11. Radiographs (York Archaeological Trust Conservation Laboratories)
    - Introduction (by D. Knight)
    - Scanned X-rays: raw files
    - Scanned X-rays: edited files
  12. List of slag and other metalworking waste (compiled by P. de Rijk)
    - Microsoft Excel spreadsheet

### **Location of finds**

Most of the ironwork has been discarded, and the radiographs prepared by Kent County Museums Service and York Archaeological Trust now form the primary archive for this class of material (see Section 11 above). All other finds have been retained and, together with the original documentary archive, are stored as a research resource in the collections of Derby City Museum and Art Gallery, The Strand, Derby.
