
In continuation of the Inventory for Cumberland, given in these Transactions, N.S. xxiii, to which some additions are made in the appendix to this article, similar lists are now attempted. As before, we have to admit gaps in our knowledge and uncertainties about sites not yet thoroughly investigated. In the references, "o.s." and "n.s." stand for the old series and the new series of these Transactions; "N. & B." for Nicolson & Burn, History of Westmorland; "O.M." for the Ordnance Map; "Test. Karl." for Chancellor Ferguson's Testamenta Karleolensia; "Proc. S.A." for Proceedings of the Society of Antiquaries; "B.N.F.C." for the Barrow Naturalists' Field Club Reports; "C.I.L. vii" for Huebner's volume on Britain of the Corpus Inscriptionum Latinarum. Other abbreviations will be easily recognised.

Thanks are especially due to Mr. J. F. Curwen, F.S.A., for the sight of his MS. collections with regard to ancient roads.
