NOTE.

The value of this Index to archaeologists is now recognised. Every effort is made to keep its contents up to date and continuous, but it is obvious that the difficulties are great unless the assistance of the societies is obtained. If for any reason the papers of a society are not indexed in the year to which they properly belong the plan is to include them in the following year; and whenever the papers of societies are brought into the Index for the first time they are then indexed from the year 1891.

By this means it will be seen that the year 1891 is treated as the commencing year for the Index and that all transactions published in and since that year will find their place in the series.

To make this work complete an index of the transactions from the beginning of archaeological societies down to the year 1890 needs to be published. This Index is already completed in MS. form and it will be printed as soon as arrangements can be made.

Societies will greatly oblige by communicating any omissions or suggestions to

THE EDITOR OF THE ARCHAEOLOGICAL INDEX,

Society of Antiquaries,
Burlington House, London, W.

Single copies of the yearly Index may be obtained. Many of the societies in union with the Society of Antiquaries take a sufficient number of copies to issue with their transactions to each of their members. The more this plan is extended the less will be the cost of the Index to each society. For particulars of this and other works now being carried on by the societies in union application should be made to the Honorary Secretary
