

Data Table 19 Comparative details of applied saucer brooches from Cemetery II

Gr/object no.	Diam	Decoration	Material	Usage/position	Pin
355/1	37mm	10 spirals, guilloche outer border, beaded inner border	?leaded bronze; flat backplate	R side of upper chest; pair with annular brooch	Fe pin/spring
589/1, /2	43mm+	tongued outer border, backward-facing sea-lions with trident tail, beaded border around central boss	gilded copper alloy	?pair with 589/3; in fill at foot end, ? disturbed from Gr 585	CA spring, Fe axis bar, Fe pin; long slender pin catch
589/3	45mm	as 589/1, /2	gilded copper alloy	as 589/1, /2	CA spring, Fe axis bar, Fe pin; long slender pin catch
622/1	53mm	none surviving	copper alloy, tinning on rim	L shoulder, pair with saucer brooch	Fe axis bar, ?Fe spring
778/1a	-	none surviving (frs of brooch only)	copper alloy, gilding on plate	L shoulder; pair with 778/2	?2 lateral lugs; Fe pin/spring
778/2	-	none surviving (frs of brooch only)	as 778/1a	R shoulder; pair with 778/1a	as 778/1
878/6	36mm	none surviving	(leaded) bronze	R shoulder; pair with 878/7	CA pin, Fe axis bar
878/7	-	none surviving (frs of brooch only)	brass spring	L shoulder; pair with 878/6	CA pin, Fe axis bar
884/1	28mm	cross shape with raised dots in centre, ?floriate cross	copper alloy	L side of chest; disturbance at R side of chest	traces of Fe pin in pin catch
924B/3	35mm+	none surviving	copper alloy	L side of chest; pair with 924B/4	Fe axis bar
924B/4	36mm	none surviving	copper alloy	centre of chest; pair with 924B/3	CA pin, Fe axis bar
925/1	38mm	cable border; star; central boss	copper alloy	L shoulder; pair with 925/2	traces of Fe pin in pin catch
925/2	39mm	cable border; star; central boss with plain border	copper alloy	R shoulder; pair with 925/1	traces of Fe axis bar on lug; inserted lug replaced with soldered one
964/1	38mm	V-shape and ribs outside beaded border	copper alloy	R?L shoulder; pair with 964/2	Fe pin; long slender pin catch
964/2	37mm	none surviving	copper alloy	R?L shoulder; pair with 964/1	traces of Fe pin/spring; long slender pin catch
970/2	39mm	raised wave border outside beaded border; 6-pointed star; depressed central boss with beaded border	(leaded) bronze; mercury-gilded (leaded) bronze plate	R shoulder; pair with 970/3	Fe pin/spring; long slender pin catch

970/3	39mm	as 970/2	as 970/2	L shoulder; pair with 970/2	Fe pin/spring; long slender pin catch
975/2	38mm	raised wave border outside beaded border; 6-pointed star; depressed central boss with beaded border	copper alloy with gilded plate	R shoulder; pair with 975/3	CA pin, Fe axis bar; ? long slender pin catch
975/3	39mm	as 975/2, less well-preserved	copper alloy with gilded plate	L shoulder; pair with 975/2	CA pin, Fe axis bar; ? long slender pin catch
983/1	-	none surviving	(leaded) bronze	?R shoulder; pair with 983/2	CA pin/spring
983/2	32mm	none surviving	(leaded) bronze	?L shoulder; pair with 983/1	CA pin/spring
985/1	32mm+	spiral/circular motifs, ?floriante cross	copper alloy	L?R shoulder; pair with 985/2	Fe pin/spring, CA axis bar; ? long slender pin catch
985/2	-	none surviving	copper alloy	L?R shoulder; pair with 985/1	CA pin/spring; Fe axis bar
992/2	37mm	milled outer border with part of ?floriante cross	copper alloy	R shoulder; pair with 992/3	Fe pin/spring
992/3	37mm	none surviving	copper alloy	L shoulder; pair with 992/2	Fe pin/spring
998/2	42mm	?milled border	copper alloy	R shoulder; pair with 998/3	CA pin, Fe axis bar; long slender pin catch
998/3	41mm	?milled border	copper alloy	L shoulder; pair with 998/2	CA pin, Fe axis bar; long slender pin catch
