

Data Table 49 Evidence for bags from Cemetery I

Gr no.	Gender	Object group	Comment	Position
99	f	iron purse-mount and rings	knife probably not in bag, nor is comb; leather traces on buckle of purse-mount and also on rings; textile traces on rings, so bag may have been lined with textile; mention of tablet braid, which may have been in purse or on it	6L
100	f	spindle-whorl, knife and brooch together	stain observed on site	5L
123A	f	rings and key, knife, RB brooch	bag recorded on site and traces of leather on the iron rings, so leather bag	7L
244	m	copper-alloy tweezers, awl, knife etc; knife may have been in bag	remains of iron purse-mount covered with leather (calf from grain pattern); traces of seams; buckles could be from strap for bag rather than belt	4L
246	f	tweezers, key and knife fr to left of buckle	textile on objects; no leather observed, but possibly textile bag	6L
256	f	copper-alloy toilet implements at neck	traces of leather on some, so could have been in bag	3C
