

Data Table 52 The female seriation printout of the data from inhumations in Cemeteries I and II

There were 104 units  
 Scored on 82 variables

Delete all contexts/types with fewer than 2 occurrence(s)  
 Do Correspondence Analysis (and print scores)  
 Do improve with 8-position search, using Doran criterion  
 Sort contexts & types for leading slope  
 Print results for both orders  
 Print matrix only
