Abstraction and interpretation of
magnetometer anomalies -
Area 4

- Positive linear anomaly - cut feature of archaeological potential
- Positive linear anomaly - possible ditch-like feature
- Linear anomaly - of agricultural origin (trend only)
- Linear anomaly - ridge and furrow
- Negative linear anomaly - material of low magnetic susceptibility
- Discrete positive response - cut feature of archaeological potential
- Discrete positive response - possible pit-like feature
- ◆ Positive anomaly - magnetically enhanced material
- ◆ Negative anomaly - material of low magnetic susceptibility
- /// Magnetic disturbance from ferrous material
- Strong dipolar anomaly - ferrous object
