

Database documentation for the Archaeology Data Service

Title of project:	Identifying coastal archaeology using multispectral satellite imagery of the intertidal zone: A pilot study
Name of database file:	spectral-anomalies.xls

Name of table 1:	spectral-anomalies	
Number of rows of data:	106	
Primary key:		
Name of field	Full description of field and codes or terminology used	Data type and field length
ID	Record number	Integer (3)
Easting	Easting coordinate of the spectral anomaly (British National Grid)	Integer (6)
Northing	Northing coordinate of the spectral anomaly (British National Grid)	Integer (6)
Interpretation	Brief notes on interpretation of the spectral anomaly	Text (160)
Area	Area of the spectral anomaly (m ²)	Integer (5)
Perimeter	Perimeter of the spectral anomaly (m)	Integer (4)
Report_App_Ref	Reference to illustration/figures in the final report to English Heritage	Text (2)
