List of GIS files deposited with the Archaeology Data Service

Please document each of the GIS layers you are intending to deposit with the ADS. Some example entries are provided in the first 3 lines of the table.

Folder	Filename	File type	Projection	Description	Source	Attribute Tables – codes used
/GIS/	UK_Fields_of_Conflict	Point, polygon	OSGB	Point and polygon locations of battles, sieges, raids and other fields of conflict in the UK.	Historic and modern maps, and various documentary sources	UKFOC_number: Unique identifier for each action Sub_number: Subordinate number for actions with more than one possible location. E.g. 174.1; 174.2 etc. Unique within UKFOC number. This is always 0 where no alternative site has been entered. Action_name: preferred name for the action, typically the commonly accepted name Name_alternatives: Alternative or former name(s) Date_or_date_from: known date or date from where there is uncertainty Date_to: last probable date where there is uncertainty Year: Year in which action took

						place *Year_to_or_alternatives: Alternative dates for action where there is uncertainty* *Century: Century in which action took place* *War_period: Stuart Uprisings (Post Medieval): 1661-1746* *Civil Wars (Post Medieval): 1639-1660* *Post Medieval (Early): 1501-1638* *High Medieval: 1067-1500* *Early Medieval: 411-1066* *Roman: AD43-410* *War: Individual war within war period. E.g. 2nd Scottish War of Independence 1332 – 1363* *Campaign: Name of individual campaign within war* *War_type: International: e.g. England / Scotland* *National: e.g. Civil War* *Local* *Local (clan)* *International(border conflict* *Type_of_action: Battle* *Skirmish* *Raid* *Massacre* *Judicial combat* *Siege* *Numbers_engaged: Approximate*

						probable total number of combatants *NMR_digital_refernce: number of NMR record* *NMR_traditional_reference: For NMRS: OS quarter sheet (1:10000) number on which a site is located + individual site number* *SMR: Name of local SMR* *SMR_number: Individual local SMR record number* *Record_veracity: Reliability of source where primary documentary evidence is scant or non-existent.* *Professional_judgement: Initial grading assessed by professional judgement* *NGR_easting: British National Grid Reference (NGR) eastings specifying site location* *NGR_northing: British National Grid Reference (NGR) northings specifying site location* *NGR_traditional: 6 figure NGR with OS 100km sq. numbers. E.g. TL156081* *Location_accuracy: Accuracy of location of action* *Location_source: Source from which the mapped location*

					derives *Country: England* *Northern Ireland* *Scotland* *Wales* *Historiv_county: Former county in which site is located* *Modern_administrative_unit: Current administrative unit: Unitary authority / county* *Parishes: Current administrative parish in England & Wales, 'historic' parish in Scotland* *Historic_terrain:* Probable land use at the time of the battle. *Designations:designation type and area of site covered* *Importance_militarypolitical: Numeric field on scale of 1-3 with 3 being the most important* *Importance_bibliographicquantity Quantity of published bibliographic entries recovered from searches of specified general books on battles/battlefield* *Individual_bibliography: Quantity of published bibliographic entries recovered from specified searches of name(s) of individual battles/battlefields* *Potential_re_historic_terrain:*

						assessment of documentary and archaeological sources for potential landscape reconstruction *Potential_re_battle: assessment of sources for battle* *Battle_array: Were the combatants arrayed in military formation:* *Y/N/U(uncertain)* *Comabatants_type: Regular military forces* *Irregular military forces* *Civilian* *Combatants_1: Military force of home of government side e.g. Scottish when in contemporary Scotland* *Combatants_2: Military force of invading or rebel side e.g. English in contemporary Scotland* *Outcome: Summary result of action* *Assessed_register_or_inventory: Assessed by English Heritage for inclusion in the Register or by Historic Scotland for inclusion in the Inventory* *BTrust_assessment_c2000: assessment by Battlefields Trust of importance of the battle, numeric grade*

						Featured_on_BT-website: Sites featured on the Battlefields Trust website true or false *OS_landranger_map: Sheet number(s) on which site is located* *OS_explorer_map_number: Sheet number(s) on which site is located* *OS_2"_Surveyors_drawings: Sheet number(s) on which site is located* *Geology: type fg geology/ies of site* *Comments: free text field* *State_of_developement: numeric field with lower number indicating greater development* *Arable_1930s: numeric field with lower number indicating more arable* *Arable_modern: numeric field with lower number indicating more arable* *Battle_archaeology_potential: numeric field with lower number indicating greater potential*
/GIS/	*UKFOC_features*	*point*	*OSGB*	*Point locations of features related to battlefields in UK Fields of Conflict table*	*Historic and modern maps, and various documentary sources, fieldwork*	*Action_name: preferred name for the action, typically the commonly accepted name* *UKFOC_number: Unique identifier for each action* *Sub_number: Subordinate number for actions with more than one*

						possible location. E.g. 174.1; 174.2 etc. Unique within UKFOC number. This is always 0 where no alternative site has been entered. *Feature_number: Unique number for all records in the database. 0 indicates there is only one feature associated with a UKFOC record. 1 is only used when multiple features are present.* *NMR_NUMLINK: Unique identifier supplied by NMRS* *NMR Traditional number: Indicates the map number of the OS quarter sheet (1:10000) on which a site is located* *SITE: Unique NMRS site record number to be used with NMRS Traditional reference* *Feature_name: preferred name for the feature, typically the commonly accepted name* *Alternative_name: Alternative or former name(s)* *SMR: name of local SMR* *SMR_number: Individual local SMR record number* *Activity: type of investigation e.g. metal detecting* *Type: type of feature e.g. monument*

						Description: brief description of feature *Designation: type of designation e.g. Listed Building* *Accuracy: numeric field* *X: British National Grid Reference (NGR) eastings specifying site location* *Y: British National Grid Reference (NGR) northings specifying site location* *Comments: Free text field to include additional information to assist the user*
