SUMMARY

A Level 1 standing building survey was carried out on 15 December 2014; the weather was clear and bright. All exterior walls were recorded photographically and architects plans were annotated and measurements taken. The roofs were in poor condition and so there was no access to the interior of the steading buildings. The building had been built for agricultural use and it is therefore recommended that no further archaeological work is required during this redevelopment (Aberdeenshire planning application 2014/3073). Further archaeological work may be required if the Spear Mill building itself is to be redeveloped.

1 INTRODUCTION

- 1.1 The site (Illus 1) is located on the SE side of Marykirk on the NE side of the Burn of Balmaleedy (Balmaleedie). It is centred on NGR NO 68972 65085, at 19-21m OD (Illus 1) and in the parish of Marykirk.
- 1.2 The work was commissioned by Louise Rae, A.B. Roger and Young Ltd, Brechin. An Aberdeenshire planning application 2014/3073 for conversion and alterations and extension of steading to form 2 dwellinghouses was passed on 18 November 2014 with an archaeology condition (condition 2) for a Level 1 standing building survey.
- 1.3 All the archaeological work was carried out in the context of Scottish Planning Policy (SPP) Planning Advice Note (PAN 2/2011) and Scottish Historic Environment Policy (SHEP), which state that archaeological remains should be regarded as part of the environment to be protected and managed.

2 THE LEVEL 1 STANDING BUILDING SURVEY

The site is occupied by the 19th-century Spear Mill farmhouse (NO66NE 39) Listed Category C and its associated unlisted steading (the subject of this survey) and the early 18th-century Spear Mill (NO66NE 49) Listed Category B (Geddes 2001, 43; Illus 2). A battle, said to have been fought between the laird of Aberluthnet (the old name for Marykirk), and the laird of Canterland and Balmaleedie (Burn of Balmaleedie), with their retainers. Their quarrel was over the siting of a mill now called Spear Mill because they fought with spears, 'but when this happened none can precisely tell.' (NMRS Canmore online NO66NE 1).

The standing building survey took place on15 December 2014; the weather was clear and bright. All exterior walls were recorded photographically and architects plans were annotated and measurements taken. The roofs were in poor condition and so there was no access to the interior of the steading buildings. The building had been constructed for agricultural use and developed since it was first constructed in the late 18th or early 19th century.

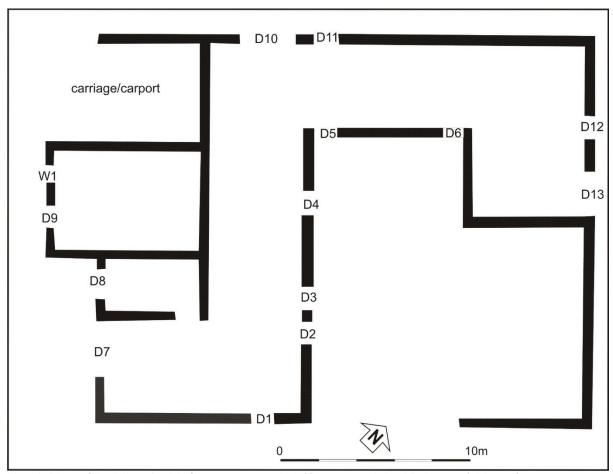

Illus 2 Plan of all buildings (from copyright AB Roger & Young)

2.1 Building 1 The Steading

The steading is located at the north end of the parcel of land, NE of the farmhouse and mill. The roofs are collapsing and so there was little access to the interiors and some of the exterior walls were difficult to access. All walls and details were photographed.

The steading is 21m NW-SE and 29m NE-SW (Illus 3). The steading has developed over from a group of separate buildings on the First Edition OS map (Illus 8) and there is use of ashlar sandstone tooled blocks (SW wall), granite fieldstone and brick.

Illus 3 Plan of Building 1 with features recorded (from copyright AB Roger & Young)

The earliest section of the building may date to the 18th-century (Phase 1 Illus 4-7). The Phase 1 farmhouse on the SW side of the current steading was once a separate building (see First Edition map Illus 7). It has tooled ashlar sandstone blocks for quoins, jambs and lintels (Illus 4). Walls of granite fieldstones were added to the NW and SE walls to incorporate this building into the steading and a new farmhouse built after the 3rd Edition OS (*c*1923).

The steading constructed by the late 19th century was formed around a central courtyard with an opening on the SE side. The courtyard walls are partly formed in granite fieldstones and brick (Illus 5).

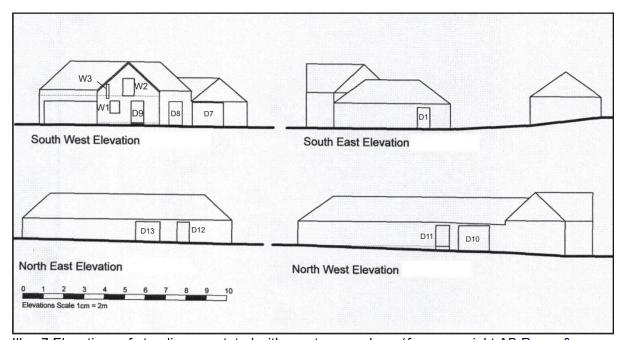

Illus 4 Phase 1 farmhouse façade with Door 9 on SW façade showing tooled sandstone blocks for jambs, lintel and quoins; facing NE

Illus 5 SW wall of courtyard with (I-r) Doors D2, D3, D4, D5 showing stone and brick sections of construction

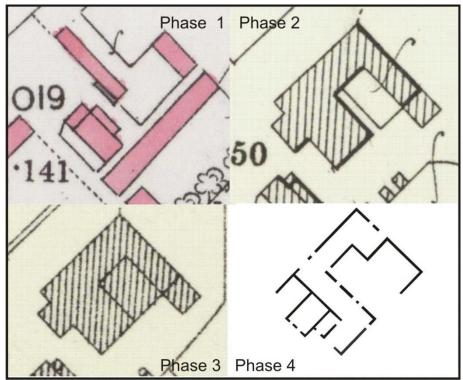

Illus 6 NE wall showing Phase 1 section of wall (left); facing SW

Illus 7 Elevations of steading annotated with aperture numbers (from copyright AB Roger & Young)

2.2 The other buildings

There are three other buildings at the site including a large modern farmhouse (Building 2), an 18th-century mill (Building 3) and a modern farm cottage (Building 4) which were recorded photographically as part of this survey. All details appear in archive.

Illus 8 Phase plan showing development of Building 1 on the Ordnance Survey and the modern plan. Top left First Edition OS Forfar Sheet XXVIII.1, 1865 (top right) Forfarshire, Sheet 028.01, 1904 (bottom left) Forfarshire, Sheet 028.01, 1924 (all copyright National Library of Scotland); (bottom right modern plan (from copyright AB Roger & Young)

3 RECOMMENDATIONS

A Level 1 standing building survey was carried out on 15 December 2014 and it is recommended that no further archaeological work is required during the current planning application.

4 ACKNOWLEDGEMENTS

Thanks to Louise Rae, A.B. Roger and Young Ltd for commissioning this project and to Claire Herbert for her advice during the work.

APPENDIX 1 FEATURES RECORDED IN THIS SURVEY

Feature no	Description	Size
D1	SE wall	1.2m wide, 2.1m high
D2	SW wall courtyard	1.2m wide, 2.1m high
D3	SW wall courtyard	1.2m wide, 2.1m high
D4	SW wall courtyard	1.2m wide, 2.1m high
D5	NW wall courtyard	c1.2m wide, 2.1m high
D6	NW wall courtyard	c1.2m wide, 2.1m high
D7	SW wall	3m wide, 2.1m high
D8	SW wall	1.65m wide, 2.1m high
D9	SW wall	1.25m wide, 2.1m high
D10	NW wall	3m wide, 2.1m high
D11	NW wall	1.3m wide, 2.1m high
D12	NE wall	1.7m wide, 2.1m high
D13	NE wall	2.4m wide, 2.1m high
W1	SW wall ground floor house	0.95m wide, 1.2m high
W2	SW wall first floor house	1m wide, 1.2m high
W3	SW wall slit on first floor house	C0.25m wide, 1m high
