SUMMARY

A Level 1 standing building survey was carried out on 9 September 2015. Buildings 1, 4, 5 are the earliest with B3 created to infill an area of an unroofed enclosure, B6 probably built late 19th century and B2 and B7 being late 20th century in date. It is recommended that no further archaeological work is required during the current planning application.

1 INTRODUCTION

- 1.1 The site (Illus 1) is located on the W side of the A92 W of Catterline. It is centred on NGR NO 83784 78831 and at 95-100m OD (Illus 1) and in the parish of Kinneff.
- 1.2 The work was commissioned by Anne Booth. An Aberdeenshire Council planning application 2012/4191 for conversion of steadings to 6 dwellinghouses, erection of 1 dwellinghouse and garage and formation of access roads and suds basin was passed on 20 December 2013 with an archaeology condition and there is a requirement for a Level 1 standing building survey (condition 1).
- 1.3 All the archaeological work was carried out in the context of Scottish Planning Policy (SPP) Planning Advice Note (PAN 2/2011) and Scottish Historic Environment Policy (SHEP), which state that archaeological remains should be regarded as part of the environment to be protected and managed.

2 BACKGROUND

West Mains of Barras is unlisted and not included in CANMORE

3 THE LEVEL 1 STANDING BUILDING SURVEY

A Level 1 Standing Building Survey was carried out on 9 September 2015. Architects plans and elevations were checked and annotated and a full photographic survey of the accessible areas. Several areas were overgrown with vegetation, some roofs were in poor condition and overrun with pigeons. The interior of Building 5 and the central courtyard were not fully accessible on the interiors and the area around Building 5 is overgrown as are discrete areas around the other buildings.

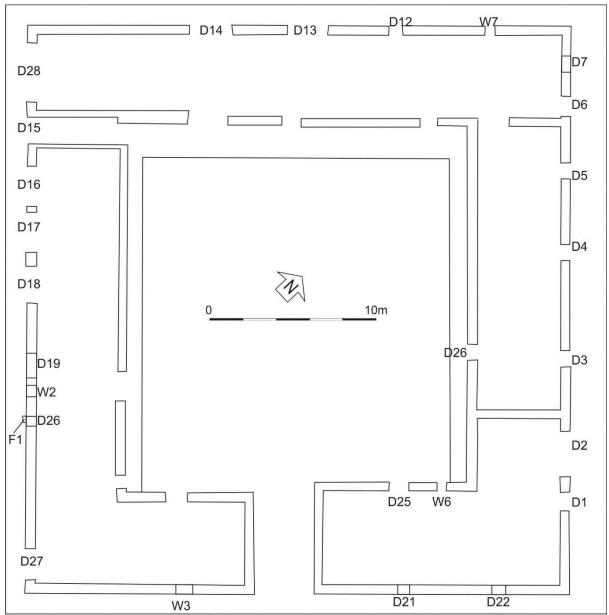

Illus 2 Plan showing buildings recorded in this survey (from copyright cumming and co)

BUILDING 1

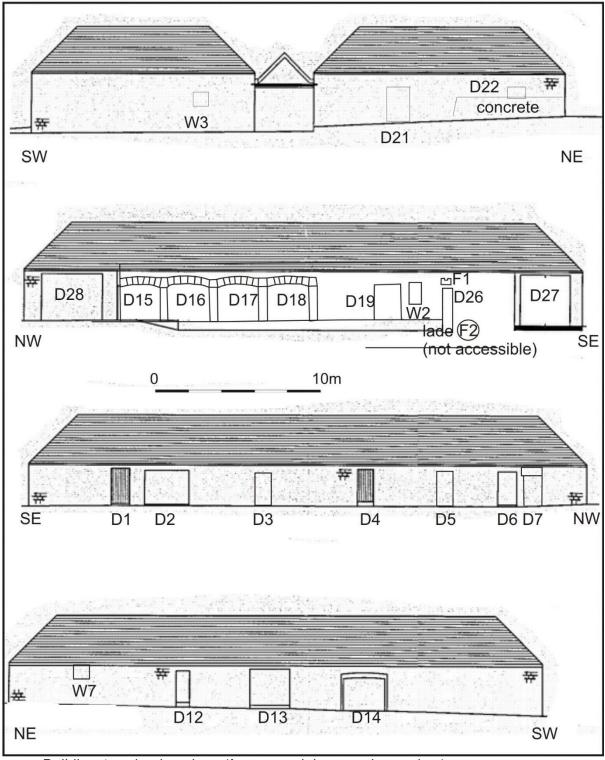

Building 1 is the main steading consisting of four ranges around a central courtyard (Illus 3, 4). It is 34m NW-SE with a main entrance into the (now covered) courtyard on the SE façade. It is constructed of fieldstones, including pink and red sandstone and granite with window and door mouldings of pink and red sandstone tooled blocks (Illus 5, 6). The interiors have been converted for animal use with linings of concrete which mainly obscure any architectural details.

There is one large cart door in the NW façade (D14; Illus 8) and four cart doors on the SW façade (D15-18; Illus 7). There has been a waterwheel located on the SE end of the SW façade (F2; Illus 6 and seen on 1st and 2nd OS maps; Illus 20-21). The area around the former lade has been infilled and concrete floors and farm buildings constructed (and subsequently demolished). There is a metal channel (F2, Illus 4, 6) adjacent to D20 and this may have been associated with the mill; there is now a concrete ramp down to this aperture.

Illus 3 Building 1 plan (from copyright cumming and co)

Most of the apertures apart from the main gable doors (eg D28, D27) have been blocked with stone or breeze blocks when the buildings were converted for animal and farm use in the 20th century. The courtyard has been roofed and converted for animal use.

Illus 4 Building 1 main elevations (from copyright cumming and co)

Illus 5 Building 1 E corner; facing W

Illus 6 Building 1 SW wall with D20 (left) showing drop in ground level, former location of lade; facing NE

Illus 7 Cart door D16, one of four cart doors in SW wall Building 1; facing NE

Illus 8 D14 cart door in NW wall Building 1; facing SE

Building 2 is a modern barn, possibly originally incorporating a Nissen-type building (Illus 9).

Illus 9 Building 2; facing N

BUILDING 3

Building 3 is a small Nissen-type structure, built into an existing unroofed enclosure (retained in the SE wall; Illus 10) and infilled with brick on the SW front façade. It has infilled an unroofed enclosure on the 1st and 2nd OS maps. It is constructed of tin roof and red brick front SW wall (Illus 11). There is a window (W4) and door (D23) both with poured concrete lintels in the SW façade and these have subsequently been blocked and the interior lined with concrete for animal use.

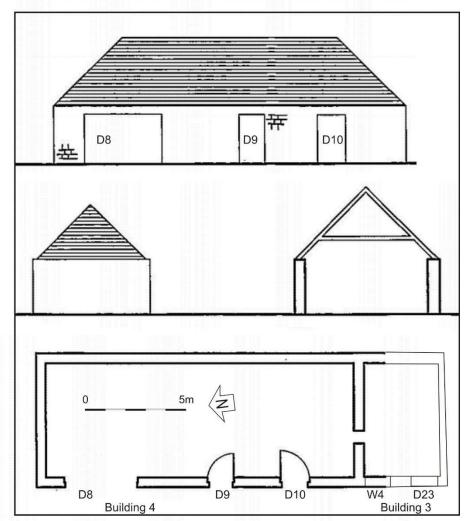

Illus 10 Building 3; facing NW

Illus 11 Building 3 W4 (left) and door D23 (right); facing NE

Building 4 is the 'stable' building. It is constructed of granite and sandstone rubble with red sandstone door and window mouldings (Illus 12). It is attached to the NW wall of Building 3 and has doors D8, D9 and D10 on the SW wall.

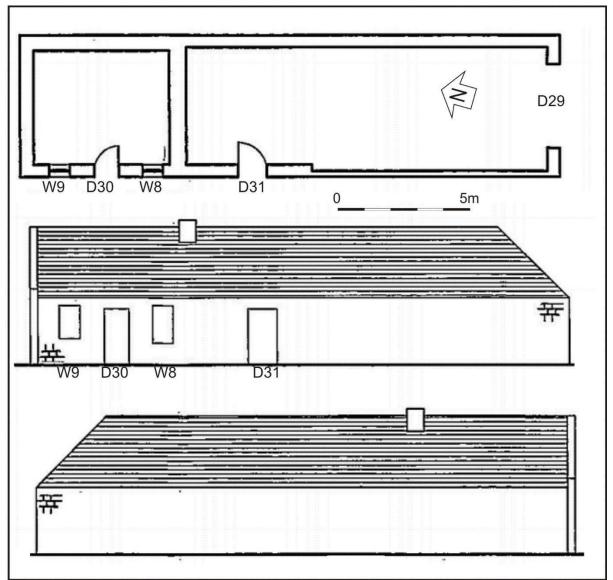

Illus 12 Building 4 stable elevations (top) and plan (below) (from copyright cumming and co)

Illus 13 Building 4; facing SE

Building 5 is the 'bothy' building (Illus 14). It has been heavily rebuilt at the SE end (Illus 15), is heavily overgrown (Illus 16) and the roof is not safe for access to the interior. It is divided into two rooms (Illus 14) with windows W8 and W9 and doors D30 and D31 on the SW façade. The NW room has been for domestic use (bothy) with the SE room for agricultural use.

Illus 14 Building 5 bothy plan (top) and elevations (below) (from copyright cumming and co)

Illus 15 Building 5 SE gable with D29 showing SW wall rebuilt; facing NW

Illus 16 Building 5 SW façade showing overgrown state and poor condition of roof; facing SW $\,$

Building 6 is a small bothy or garage on the main road SW of the main buildings. It is overgrown with no access to the interior. It is constructed of grey sandstone rubble and has a main door in the NE façade. It is a later addition to the farm complex, probably constructed in the late 19th or early 20th century.

Illus 17 Building 6; facing W

Building 7 is a modern barn; several modern buildings have also been demolished to the NW of this building and concrete floors survive.

Illus 18 Building 7 (centre background) with demolished concrete structures (foreground); facing SE

4 CONCLUSIONS AND RECOMMENDATIONS

A Level 1 standing building survey was carried out on 9 September 2015 Buildings 1, 4, 5 area the earliest with B3 created to infill an unroofed enclosure, B6 probably built late 19th century and B2 and B7 being late 20th century in date. It is recommended that no further archaeological work is required during the current planning application.

5 ACKNOWLEDGEMENTS

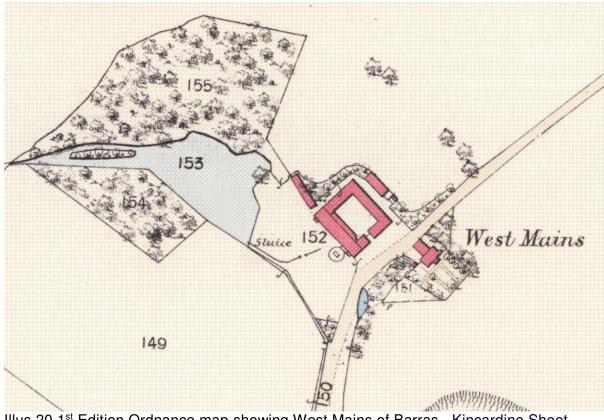

Thanks to Anne Booth for commissioning this project and to Claire Herbert, Aberdeenshire Council Archaeology Service for her advice during the work.
