Cow Tag 10		Type stringer? ^{carvel} Plank
<p>Description 1.72m in length one end damaged. Uniformly 20cm wide. 3.5cm thick. Six treenails, three of which are in situ, three missing. They vary in diameter from 2.5cm to 3.5cm. Two iron nails - one measures 0.7 x 0.7 and the second is larger 1cm x 1cm. This piece is in very good condition with very little cracking. There is a build up of iron salts, specifically around treenails. Inboard appears to be charred and has tool marks + inscribed lines or scratches. The outboard too has tool marks.</p>		
<p>Wood Science:</p> <p>Bark Yes <input type="radio"/> No <input checked="" type="radio"/> Radially split, converted.</p> <p>Sapwood Yes <input type="radio"/> No <input checked="" type="radio"/> Fairly straight grained.</p> <p>Knotty Yes <input type="radio"/> No <input checked="" type="radio"/> Approx 60+ rings.</p> <p>Straight grained <input checked="" type="radio"/> Yes <input type="radio"/> No slow grain.</p> <p>Oak.</p> 		
<p>Recommended action: [samples, additional photos, moulding, queries and problems]</p> <p>Dendro sample 3011</p> <p>Discarded</p>		
<p>Checked: [corrections needed]</p> <p>NN</p>
