

DB 19/05/2010

Cow Tag 34	Type Possible Stringer.
---------------	----------------------------

Description
 length 112.5cm width 15.5cm depth 3.5cm.
 Side A has two metal nail holes and impressions. Also side A has one treenail hole. The first metal nail impression is 3.7cm in diameter, the shaft is 1cm in diameter and is slightly distorted by a crack. The impression and shaft has much rust colouring. The second metal nail hole is distorted by a large crack and is approx. 3.5cm in diameter. The shaft is approx. 1cm in diameter. The treenail is possibly where a knot would have been. It is 3.2cm in diameter. Side A has a large crack 56cm long. Side A also has a knot 6cm long.
 Side B has a very cracked surface. Side B has two metal nail shafts and one treenail hole. The first is distorted slightly by a crack and is 1.3cm in diameter. The second metal nail hole is badly distorted by the large crack and is approx. 1.5cm in diameter. The treenail hole is 3.4cm in diameter. Side B has one knot and one possible knot. The knot is 9cm long. The possible knot is 3cm long. Side B has a long crack 57cm long.

Wood Science:	<i>fast grown oak</i> Possibly factually cert.	
Bark	Yes <input type="radio"/> No <input checked="" type="radio"/>	
Sapwood	Yes <input type="radio"/> No <input checked="" type="radio"/>	
Knotty	Yes <input checked="" type="radio"/> No <input type="radio"/>	
Straight grained	Yes <input checked="" type="radio"/> No <input type="radio"/>	

Three knots.
approx 22 rings.

Recommended action: [samples, additional photos, moulding, queries and problems]

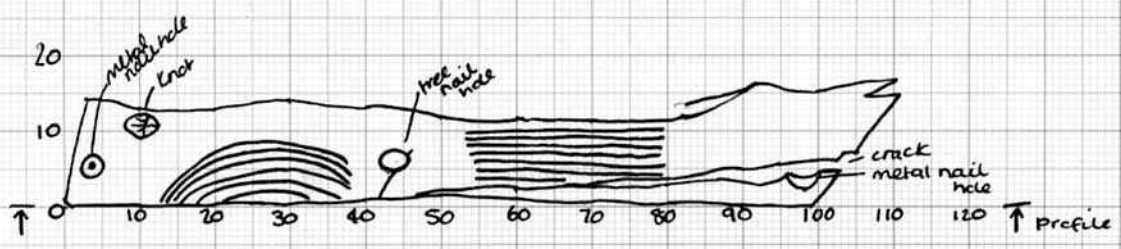

Discarded

Checked: [corrections needed]
