

DB 17/5/2010

Cow Tag 7 Type Possible frame fragment

Description 68cm in length. Roughly square in section at 'end A' 21cm x 16.5cm. Tapering toward 'End B'. This timber is extremely dry with large cracks. There is no evidence of fasteners. It is possible it was part of a frame or may have been part of a river front structure.

No indication of previous use. Cut on two sides to form a taper - base of driven timber?

Wood Science:

- Bark Yes No
- Sapwood Yes No
- Knotty Yes No
- Straight grained Yes No

Approx 25 tree rings
Fairly narrow rings - 0.4cm wide
possibly some sapwood
species: oak

Recommended action: [samples, additional photos, moulding, queries and problems]

Discarded

Checked: [corrections needed]

NA. 19/5/10.
