

Appendix A

Appendix A – Archaeological Sites

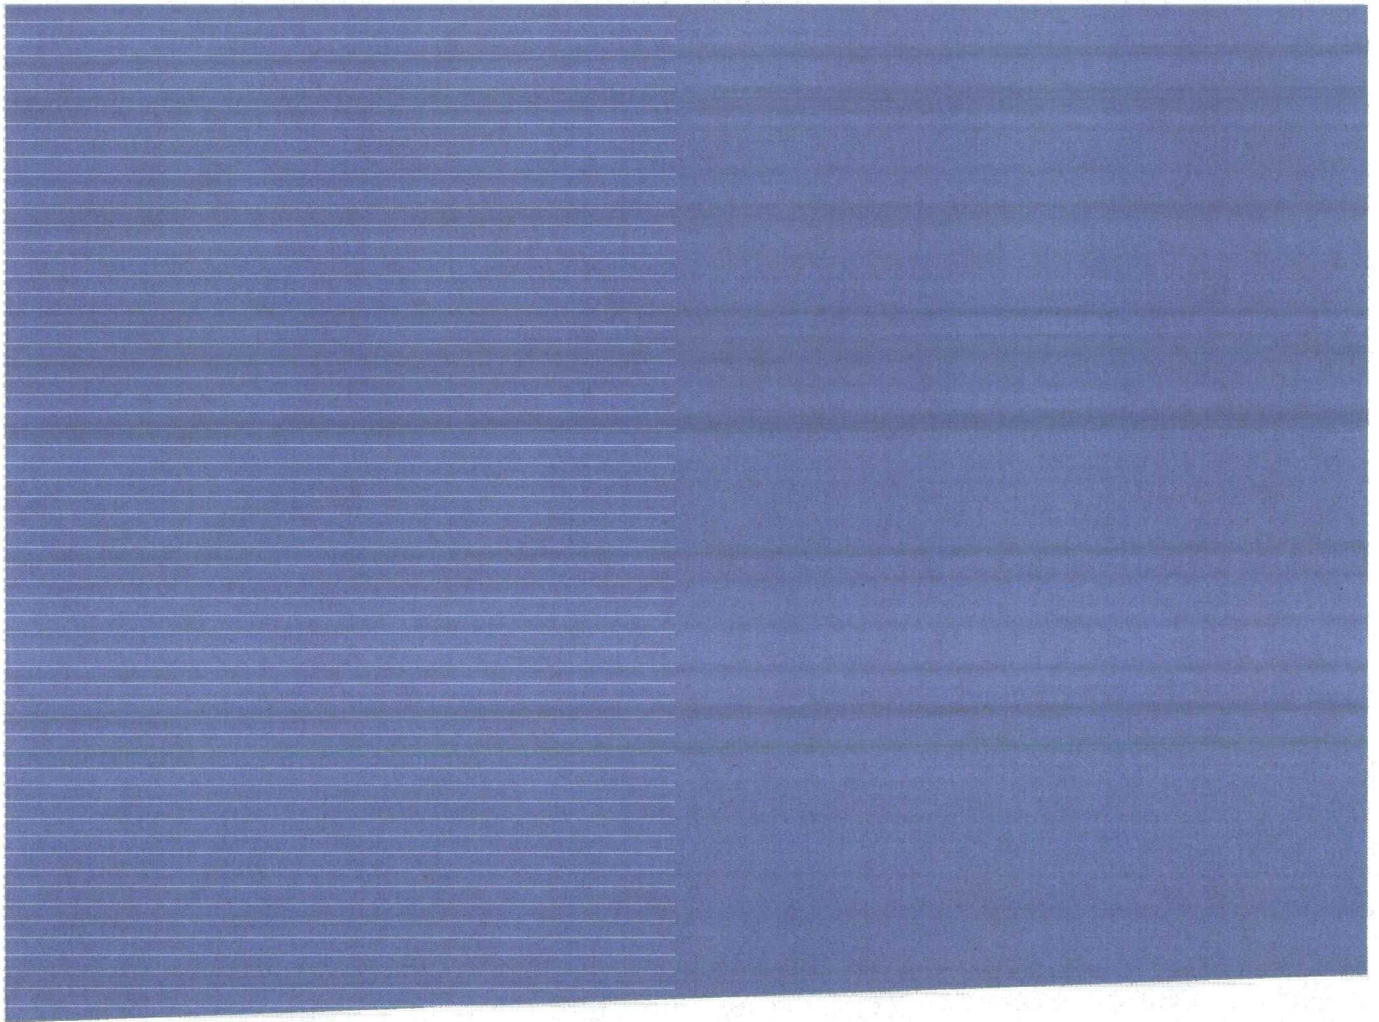

Reference Numbers	Grid Reference	Period	Summary	No. on Fig 2
TA 08 SW 4 NYM12601 NYM12602 NYM12603	TA 0329 8379	Iron Age	The site of a probable Iron Age chariot burial. Accounts from workmen in 1862 suggested that a burial of horse and cart were found in the ballast pit at Seamer Station. This included the iron hoops of the wheels and horse bones. There was no wood recorded and no human burial noted, although the latter might be assumed.	1
TA 08 SW 9	TA 0384 8214	Mesolithic	A Maglemosean ³ core axe in Scarborough Museum.	2
TA 08 SW 22 NYM12622	TA 0338 8334	Palaeolithic	A flint burin typical of late Palaeolithic type found in 1955.	3
TA 08 SW 27 NYM12624	TA 0373 8205	Prehistoric	A convex scraper found in 1954 and now in Scarborough Museum.	4
TA 08 SW 41; UID 636163, 636164, 1035024 NYM12635	TA 031 833	Roman and Early Medieval	A possible Roman fortlet or villa and settlement with later evidence of early medieval settlement. Excavations in the gravel pits identified a ditched rectangular enclosure and timber building with later occupation in the form of circular huts and an Anglian settlement of 5th and 6th centuries. Roman settlement dates from the end of the 1 st century AD.	5
TA 08 SW 44 NYM12638	TA 0421 8206	Romano-British	Three Romano-British beehive querns and a sherd of 1st-2nd century AD pottery found during ploughing in 1947 and 1953.	6
TA 08 SW 45 NYM12639	TA 0428 8213	Roman	4th century AD pottery found in 1947. Calcite gritted ware with a grooved rim and straight neck.	7

³ Maglemosean – the first stage of the Mesolithic period in northern Europe (Bahn 1992).

Reference Numbers	Grid Reference	Period	Summary	No. on Fig 2
TA 08 SW 48 NYM12643	TA 0408 8217	Anglo-Saxon	An Anglo-Saxon embankment cross consisting of three banks of earth faced with stones embedded in clay. There is no trace of a ditch and mature trees are on its summit. Reduced by ploughing.	8
TA 08 SW 59	TA 0326 8393	Post-Medieval	Seamer railway station on the York and Scarborough railway opened in 1845.	9
LINEAR 1466	TA 02 83	Post-Medieval	Scarborough Branch Railway formed of the combined lines of Hull and Selby Railway and the Scarborough and Bridlington Railway opened in 1846.	-
LINEAR 1473	SE 59 51	Post-Medieval	The York and Scarborough railway was authorised in 1844 and opened in 1845. It closed in 1965.	-
NYM12591	TA 05 82	Mesolithic	Find spot of a flint knife found during cutting operations. Possibly Mesolithic in date.	-
NYM12610	TA 0384 8214	Mesolithic	Find spot of a flint axe.	10
NYM12620	TA 031 826 within study area	Neolithic	Scatter of Neolithic artefacts. The concentration of artefacts suggests an area of Neolithic occupation, possibly settlement or agricultural activity.	11
NYM12640	TA 0425 8216	Roman	Sherd of 4 th century pot with grooved decorations and a straight neck.	12
NYM13383	TA 042 840	Undated	Village of Eastfield.	13
NYM23657	TA 03012 83762	Bronze Age, Iron Age & Medieval	A multi-period settlement site including field systems, enclosures, pits and other features.	14
NYM23882	TA 03298 83018	Neolithic	Find spot of a Neolithic core.	15

Reference Numbers	Grid Reference	Period	Summary	No. on Fig 2
ENY102, ENY148, ENY223, ENY518, ENY688, ENY1568, ENY1800, ENY1871, ENY2557, UID 1351141, 1381128	TA 03126 83351	Neolithic	Archaeological desk-based assessment at Hopper Hill, Scarborough Business Park. This was followed by geophysical survey and evaluation excavation. This revealed linear ditches, and pits, postholes and pottery and flint artefacts dating to the Neolithic. A watching brief recovered only Neolithic artefacts from the topsoil.	16
ENY592, ENY1809, ENY1813, ENY1816, ENY1819, UID 1305010	TA 031 838 within study area	Iron Age, Early Medieval, Medieval	Crossgates Farm, Seamer. Geophysical survey followed by excavation in advance of a housing development revealed an Iron Age enclosure and gully, early medieval pottery and a medieval ditch.	17
ENY1844	TA 04487 81684	Unknown	Test pits undertaken in an area proposed for a fishing lake. Outcome unknown.	-
UID 906578	TA 036 830	Roman	Geophysical survey revealed anomalies including a Roman enclosure and possible hut circle.	18
UID 1035338, 1035339, 1035340	TA 033 824 to TA 034 820	Mesolithic, Neolithic, Early Medieval	A geophysical survey and augering over a multi-period site that was due for development. It revealed Mesolithic evidence and Neolithic and early medieval settlement remains.	19
-	TA 0482 8348	Unknown	Probable boundary stone. 80-90cm high and made of sandstone.	20
