Desk Based Assessment

SE 4065 6619

Non Technical Summary

This report has been prepared by MAP Archaeological Consultancy Ltd under instruction from James Tancred, to assess the Historical and Archaeological background and the impact of the Proposed Development at Village Farm, Back Street, Aldborough, North Yorkshire.

The Site of the Proposed Development is currently part of a farmyard. The Proposed Development is for the demolition of an existing farm building and the erection of replacement detached building comprising garage, garden room, shed with WC and log store.

The Proposed Development Area is within the Scheduled Ancient Monument NY436 and within the Aldborough Designated Conservation Area. There are no Registered Park and Gardens, Registered Battlefields or Listed Buildings within the Proposed Development Area. Within 50m of Village Farm there are two Grade II Listed Buildings. Excavations at Studforth Farm, on Back Street, uncovered Roman Finds and Features.

1. Introduction

- 1.1 This Desk-based Assessment was commissioned by James Tancred and was undertaken by MAP Archaeological Consultancy Ltd for a Proposed Development at Village Farm, Back Street, Aldborough (SE 4065 6619: Fig.
 - 1). The Proposed Development is for the demolition of an existing farm building and the erection of replacement detached building comprising garage, garden room, shed with WC and log store.

- 1.2 Archaeological, Historical and Architectural remains are protected by means of Statutory Instruments (including Scheduled Ancient Monument Legislation and Planning Policy Guidance Nos. 15 and 16) and by the Aldborough Conservation Area and the Harrogate Borough Council Local Plan (May 2003: Chapter 4: Policies HD1 HD7).
- 1.3 The Proposed Development Area is within the Scheduled Ancient Monument NY436 and within the Aldborough Designated Conservation Area. There are no Registered Park and Gardens, Registered Battlefields or Listed Buildings within the Proposed Development Area.
- 1.4 The Site Code for this Desk Based Assessment 01-02-10.
- 1.5 All work was funded by James Tancred.
- 1.6 All Maps within this report have been reproduced from the Ordnance Survey with the permission of the Controller of Her Majesty's Stationery Office, Crown Copyright, Licence No. AL50453A.

2. Site Description

- 2.1 Aldborough is located c.1.5km south-east of Boroughbridge. Aldborough occupies the southern two thirds of the Roman Town of Isurium Brigantae, which covered c. 55 acres. Village Farm is located on the east side of Back Street, to the west of the Roman Town Wall (Figs 1 & 2 and Pls. 1 to 4).
- 2.2 The site stands on soils of the Bishampton 1 association, deep fine loamy soils with slowly permeable subsoils and slight seasonal waterlogging associated with well-drained fine and coarse loamy soils in an undulating landscape. Some slowly permeable seasonally waterlogged fine loamy soils, and stands at a height of c. 38m AOD.

3. Planning Background

3.1 This Desk Based Assessment provides an archaeological background for the Proposed Planning Application for the Erection of replacement detached building comprising garage, garden room, shed with WC and log store. Previously an Planning Application for the Proposed Development (Fig. 4) has been withdrawn (Planning Application No. 10/00171/FUL).

4. Aims and Objectives

- 4.1 The aim of the Assessment is to:
 - Identify recorded features of archaeological significance within the study area
 - Establish the potential for hitherto unrecorded and unknown sites
 - Assess the relative importance of the sites
 - Assess the likely impact of the proposed development on the sites
 - Make recommendations to mitigate any impact of the development on the sites

5. Methodology

- 5.1 The Desk-based Assessment reviewed the following sources of information for a target area that extended for a radius of 1km from the study site: -
 - North Yorkshire Historic Environment Record (HER)
 - National Monuments Record
 - Listed Building/Conservation records.
 - o Aerial Photographs
 - o Scheduled Monuments List
 - English Heritage Register of Historic Parks and Gardens
 - English Heritage Register of Battlefields
 - Visual inspection of the site
 - Plans and maps of the site and its environs, including historical pictorial and surveyed maps and including pre- and post war Ordnance Surveys up to the present day.
 - Place and street name evidence
 - Historical documents and photographs

o Appropriate archaeological and historical journals and books

6. Results

- 6.1 There are no archaeological sites known within the Proposed Development Site on the North Yorkshire Historic Environment Record (HER).
- There are one hundred and thirty-five sites on the North Yorkshire HER within 250m of the Proposed Development Area. The Proposed Development Site is within the Aldbrough Roman Town Scheduled Ancient Monument (Monument No, 436). There is another Scheduled Ancient Monument in Aldborough: Aldborough Cross (Monument No, 262). Details of the Historic Environment Record are summarised on Table 1 below. There are twentynine listed buildings within Aldborough listed on Table 2.

6.3 Prehistoric

- 6.3.1 There are no Prehistoric archaeological sites or finds on the North Yorkshire Historic Environment Record within the Proposed Development Area.
- 6.3.2 Within 250m of the Proposed Development Area, there are two Prehistoric finds. These are two Neolithic Axes found in Aldborough (HER Refs. MNY18576 and MNY18550).

Potential: Moderate

6.4 Romano-British Activity

- 6.4.1 There Proposed Development Area is within the Roman Town of ISURIUM BRIGANTIUM and its defences (Monument No. 436; HER Nos. MNY11251; MNY11295, MNY11298; MNY11363; MNY11371; MNY11373; MNY11375; MNY11374; MNY11306; MNY11307; MNY11296MNY11257, MNY11242; MNY11322; MNY11372; MNY11350; MNY11346; MNY11366; MNY11344; MNY11348; MNY11156). Village farm is located within the Roman Town, and the Scheduled Area. The Roman Town Wall runs to the east of Village Farm.
- 6.4.2 The Roman Town was established in the late first century AD and prospered through the second, third and fourth centuries, then declining in the fifth century. The Roman Street Plan was based on a regular grid with a central open space. In 1770, the widening of the road north of St. Andrew's Church uncovered remains of massively built rooms, which have been interpreted as the forum basilica. The earthworks at Studforth Hill may indicate an amphitheatre. The town defences were built around 200 AD.
- 6.4.3 The other entries includes the Roman Roads (MNY11379), Gates (MNY11299), Burials (MNY11270; MNY11261; MNY11349; MNY18582),

Outer Ditch (MNY11369; MNY11370: MNY11367), Inner Ditch (MNY11368); foundations (MNY11345; MNY11364), Mosaics (MNY11273; MNY18602; MNY18595; MNY11268; MNY18588; MNY18600: MNY18601; MNY18596), Mason's waste (MNY11365), quarries (MNY11287, MNY18644), Houses and Mansio (MNY11277; MNY11266; MNY11282; MNY18604; MNY18557; MNY18565; MNY18606; MNY18575 and MNY18587), Tombstones (MNY18552; MNY18554) and Roman finds (MY18568; MNY18560; MNY18572; MNY18564; MNY18547; MNY18556).

6.4.4 Excavated sites include Roman Finds and Features at Aldborough Manor (MNY11378; MNY11377; MNY11376) and Studforth Farm (MNY24901) and Roman Waste discovered during a Watching Brief (MNY11292). Trial trenches at Studforth Farm in 1993 and 2006 by NAA to the south of Village Farm found a Roman Wall, a Ditch and Roman Pottery. An Evaluation by MAP Archaeological Consultancy in 2005 at Studforth Farm house did not encounter any Roman finds or Features.

Potential: High

6.5 Anglo-Saxon/Anglo-Scandinavian

- 6.5.1 Aldborough as a Place-name is derived from the Old English 'auld burh' meaning 'old stronghold'. This settlement was sacked by the Danes in 870AD.
- 6.5.2 Fragments of Anglo-Saxon Cross were found at Aldborough Manor (Refs. MNY18549; MNY11249). There is a Saxon Motte also noted in Aldborough on the HER (MNY18585).

Potential: Low

6.6 Medieval Activity

6.6.1 The Proposed Development Area lies in the Village of Aldborough in the Harrogate District of North Yorkshire, which was formerly in the Wapentake of Lower Claro in the West Riding of Yorkshire and the Hallikeld Wapentake in the North Riding of Yorkshire. 6.6.2 The village of Aldborough is listed on the North Yorkshire HER with its inclusion in the Domesday Book (MNY11242 and MNY11246). Aldborough was an extensive manor and included various outliers under its jurisdiction.

6.6.3 By the twelfth century, Boroughbridge was established to the north. The Church of St. Andrew was rebuilt about 1360, and was possibly the third church on the site (MNY 11244). The Church was built over the Roman Forum.

6.6.4 The Manor of Aldborough was incorporated into the Duchy of Lancaster in the fourteenth century.

6.6.5 The Manor House had a foundation in the Medieval period (MNY18571; MNY11248). A Medieval burial with a fifteenth century dagger was found in the Manor House (MNY 11247). The Stocks are listed as being Medieval (MNY11252). Medieval burials are noted in Aldborough (MNY18573).

6.6.6 Aldborough Cross is a Medieval Stone Cross, which is a Scheduled Ancient Monument (Monument No. 262; MNY18574).

6.6.7 The Parish Church of St. Andrew was originally built in 1360 with later additions (MNY11244). A Timber Framed Medieval House is also listed on the HER (MNY11255).

Potential: Low

6.7 Post-Medieval/ Modern

6.7.1 Aldborough became a borough in 1558, and it received the elective franchise from Philip and Mary, and returning two members to parliament from that time till 1832, when it was disfranchised under the Reform Act.

6.7.2 By the eighteenth century, Aldborough Manor was under the control of the Duke of Newcastle. Alborough Hall was rebuilt in the early seventeenth century.

- 6.7.3 The First Enclosures in Aldborough took Place in 1626 with the main enclosure in 1808-9.
- 6.7.4 The Courthouse dates to the Post-medieval Period (MNY18580). There is a Village Cross (MNY11245), which was originally in Boroughbridge and set up in Aldborough in 1852.
- 6.7.5 The earliest map showing Village Farm is the First Edition Six Inch to One Mile Ordnance Survey Map, dated 1853 and on the later edition six inch one to mile Ordnance Survey Maps (1895, 1910 and 1952). Village Farm is also shown on the 1893 First Edition Twenty-five inch to one mile Ordnance Survey Map and the 1909 Edition Twenty-five inch to one mile Ordnance Survey Map (www.old-maps.co.uk).

Potential: Low

6.8 Listed Buildings and the Aldborough Conservation Area

- 6.8.1 Village Farm is located within the Aldborough Designated Conservation Area (Fig. 4).
- 6.8.2 There are twenty-eight Listed Buildings within Aldborough, which are listed below on Table 2.
- 6.8.3 There are no Listed Buildings within the Proposed Development Area. On Back Lane, to the south of Village Farm, there are two Grade Listed Buildings; Studforth Farmhouse and the Barn and Stables east of Studforth Farm.

Table 2. Listed Buildings within 250km of the Proposed Development Site (noted on Listed Buildings Online)

Name	Grid Reference	Description
Aldborough Manor Low Road, Aldborough, Boroughbridge	SE 40440 66504	Manor House. Probably early C18, heightened, extended and refronted by R.N. Sharp in the mid C19. 3 storeys, 5 bays. Grade II
Building linking Aldborough Manor and Manor Cottage and Flats,	SE 40462 66492	Linking Building. C18 or early C19. Painted brick. Pantile roof with modern dormer. One storey, 5 irregular bays. Grade II

Low Road, Aldborough,		
Boroughbridge		
Manor Cottage and Flats, Low Road, Aldborough, Boroughbridge	SE 40481 66475	Formerly two cottages, now cottage and flats with carriage entrance between. 2 builds. Probably late C18 and early C19. Pale brown local brick. Stepped and dentilled eaves. Pantile roof, 2 storeys. Grade II
Manor Farmhouse, front wall and railings, Low Road, Aldborough, Boroughbridge	SE 40489 66502	Farmhouse. Early C19. Brick, rendered front. Welsh slate roof with end chimneys. 2 storeys, 3 bays. Grade II
Gardeners Cottage Low Road, Aldborough, Boroughbridge	SE 40497 66496	Cottage. Early C18. Reddish brown local brick. Dentilled eaves and 3-course stepped 1 st floor band. Tumbled-in brickwork to gable end. Swept pantile roof with raised brick verges and end chimneys. 2 storeys, 2 bays. Grade II
Manor Cottage, Low Road, Aldborough, Boroughbridge	SE 40518 66487	Cottage. Probably late C16 with C18 and later alterations. Timber frame, cased in reddish-brown local brick, except for 1st floor front. Corbelling out at gable ends, raised brick verges. Pantile roof. End chimneys, Timber frame of 2 bays. Grade II
Village Cross, Low Road, Aldborough, Boroughbridge	SE 40513 66470	Village Cross. Probably C15. 4 stone angle shafts with spurs between and moulded capitals. Grade II
Glebe Cottage, Nos. 1 and 2, Low Road, Aldborough, Boroughbridge	SE 40574 66473	House and cottage. Probably early C18. Pinkish-brown local brick. Dentilled eaves and 3 course stepped 1 st floor band. Coursed cobble plinth. Rendered gable ends. Swept pantile roof with raised brick verges. Off centre ridge chimney. 2 storeys. Grade II
Chest Tomb of Mark Smithson, At Base of Church Tower, To South, Low Road, Aldborough, Boroughbridge	SE 40582 66424	Chest Tomb. Sandstone. Late C18. Grade II
Memorial Slab Laying East of Path, c20m to south of South Door, Low Road, Aldborough, Boroughbridge	SE 40592 66404	Memorial Stone. C14. Grade II
Church of St. Andrew, Low Road, Aldborough, Boroughbridge	SE 40599 66431	Church. North Chantry Chapel founded 1333. 4-bay nave arcade and north aisle c. 1360. C15 flat arched clerestory, low battlemented west tower and 3-bay chancel with 5-light east window. Red Sandstone. Lead Roof.

	.68.	Grade I

6.9 Site Walkover
6.9.1 The site was visited on the 3rd February 2010.

6.10 Potential for Unrecorded Sites

6.10.1 The potential for unrecorded sites is low based on the results of this Desk Based Assessment.

6.11 Evidence of Previous Disturbance

6.11.1 The Footprint of the Proposed New Build is within the footprint of an existing agricultural building. This Existing Building will have footings and services, which will have caused disturbance.

7. Impact of the Development

- 7.1 The following potential impacts upon the archaeological resource are considered:
 - Loss of, or damage to, archaeological sites and remains
 - Settings and views of and from upstanding remains, Listed Buildings,
 Scheduled Monuments and other archaeological sites
 - Changes to ground conditions as a result of changes to the drainage regime which could affect archaeological remains
 - Loss of landscape features, structures and areas with historic and cultural heritage associations
 - Other possible impacts such as noise, vibration, compressions and other changed ground conditions

7.2 Loss of, or damage to, archaeological sites and remains

- 7.2.1 The proposed development is within the Aldborough Roman Town (Scheduled Ancient Monument 436), and any development is likely to damage or destroy known Roman deposits.
- 7.3 Settings and views of and from upstanding remains, Listed Buildings, Scheduled Monuments and other archaeological sites
- 7.3.1 The Proposed Development Area is within the Aldborough Designated Conservation Area and within the Aldborough Roman Town Scheduled Ancient Monument 436.

- 7.3.2 Studforth Farm, the Barn and Stables east of Studforth Farm situated to the south of Village Farm on Back Lane, are all Grade II Listed Buildings.
- 7.4 Changes to ground conditions as a result of changes to the drainage regime which could affect archaeological remains
- 7.4.1 The Proposed Development is not envisaged to have an effect on the prevailing local drainage conditions.
- 7.5 Loss of landscape features, structures and areas with historic and cultural heritage associations
- 7.5.1 It is likely that the Proposed Development will have an impact on features of archaeological or historic environment importance, as the Proposed Development Site is within the Schediuled Monument Area (Monument 436).
- 7.6 Other possible impacts such as noise, vibration, compressions and other changed ground conditions
- 7.6.1 It is unlikely that the Proposed Development will have an impact on noise, vibrations, compressions or other ground conditions.

8. Conclusions and Recommendations

- 8.1 The Area of the Proposed Development Area is within a Scheduled Ancient Monument. The Roman Town of Aldborough had extensive town defences including two ditches, walls and bastions. The Roman Town covered c. 55 acres and was founded in the late first century AD through to the early fifth century AD. Village Farm lies within the Roman Town and the Roman Town Defences lie to the east of the farm. Roman Finds and features were uncovered during excavations at Studforth Farm in 1993 and 2006.
- 8.2 Any Development would require Scheduled Monument Consent for Evaluation works to Mitigate for the Proposed Development. Evidence of this Roman Settlement may be encountered during the Proposed Groundworks.

- 8.2 There are no Listed Buildings within the Proposed Development Area, although the properties to the south of Village Farm on Back Lane: Studforth Farmhouse and the Barn and Stables to the east of Studforth Farm, are Grade II Listed Buildings.
- 8.3 The Proposed Planning Application and Scheduled Monument Consent is for the demolition of an existing building and the erection of the new build over this area of this existing building. The existing building could possibly have truncated existing archaeological deposits. The Proposed Foundation Design for the new build is not known, but either strip footings or a raft footing will impact on the archaeological resource. It is proposed that an Archaeological Strip and Record is undertaken for the entire footprint to mitigate that if any archaeological features are uncovered during the development, full excavation and preservation by record is undertaken. Archaeological Features truncated by the original building and in the undisturbed area can then be excavated and recorded. Any service trenches should be excavated with an archaeologist in attendance, to allow the excavation and recording of any archaeological deposits that are disturbed.
