

Silbury Hill badger sett entrances location survey

Tom Cromwell, December 2003

A traverse was established from two survey nails at the roadside, and one point was surveyed at each sett entrance. All data is in full OS co-ordinates to three decimal places. The survey data is in Excel file Pr661_2003b_SurveyData-BadgerSett_Archive_v01, and the CAD drawing is in file Pr661_2003b_Drawing-BadgerSettSurvey_Archive_v01.dwg

(Large circles on plan are for general location only)
