HYDE PARK, GREATER LONDON

An Archaeological Survey

Part 1:

Features Catalogue

October 1994

HYDE PARK

AN ARCHAEOLOGICAL FIELD SURVEY by the RCHME

PART 1: FEATURES CATALOGUE

OCTOBER 1994

An archaeological field survey was undertaken by the RCHME (staff from the Archaeological Field Office in Cambridge) in Kensington Gardens between February and May 1993. The purpose of this survey was threefold:

- 1) To enhance the National Monuments Record.
- 2) To contribute towards a forthcoming Survey of London volume on Hyde Park and Kensington Gardens.
- 3) To provide information to the Royal Parks Agency results for management purposes.

The results of the survey are presented in three parts:

Part 1: Features Catalogue details individually all the surface archaeological features located, irrespective of their significance. The entries are numbered in the catalogue from one to infinity by Ordnance Survey 1:1250 map sheet, these numbers also appearing on the survey plans which are the Ordnance Survey maps at the slightly enlarged scale of 1:1000. All features are surveyed accurately into the Ordnance Survey base maps.

The details of each catalogue entry ensure accurate location and include dimensions, a brief description and where possible, an interpretation.

Part 2: National Monument Record Reports: defines the most significant archaeological features with more detailed reports which are prepared to RCHME's internal format and are assigned National Monument Record (NMR) numbers. A list of these reports is included at the end of this Features Catalogue and copies can be obtained from the public archive of the RCHME at the address below.

Part 3: Hyde Park and Kensington Gardens Air Photographic Transcription and Analysis contains full details of Second World War activity, virtually all of which is no longer visible. It includes transcribed plans at a scale of 1:2500 showing all features visible on air photographs between 1941 and 1950.

Maps

Several references to historic maps in the Features Catalogue are abbreviated. These are:

MARCH 1994

HYDE PARK: ORDNANCE SURVEY 1:1250 Map Sheets

HYDE PARK Features Catalogue		OS Sheet: TQ 2679 NE	
Feature no: 019		NGR: TQ 2695 7995	
Feature type: Scarp		Length: 64.0m	
Width: 1.0m	Diam:	Ht/depth: 0.1m	
Description: A very slight scarp running NW to SE			
Relationships: None			
Interpretation: The edge of a former path, known as Ailanthus Walk, shown on the Ordnance Survey 25 inch map of 1869 and probably dating from the Burton improvements of 1823-29			

		OS Sheet: TQ 2679 NE	
Feature no: 020		NGR: TQ 2700 8000	
Feature type: Hollow		Length:	
Width:	Diam: 80.0m	Ht/depth: 0.3 - 0.8m	
Description: A large, flat-bottomed hollow of irregular shape. Apparently cut into the rising ground S of the Serpentine, the hollow is delimited by scarps on three sides, but is open to the N			
Relationships: None			
Interpretation: Possibly the edge of a former gravel quarry, although this is uncertain			

		OS Sheet: TQ 2679 NE	
Feature no: 021		NGR: TQ 2692 7991	
Feature type: Scarp		Length: 236.0m	
Width: 2.0m	Diam:	Ht/depth: 0.1 - 0.4m	
Description: A scarp running W to E along an avenue of young trees. The fall consists of three minor scarps			
Relationships: Parallel to Rotten Row TQ 2779 NW 001			
Interpretation: Probably equates to terracing for the present pathway			

HYDE PARK Features Catalogue		OS Sheet: TQ 2679 NE	
Feature no: 022		NGR: TQ 2693 7998	
Feature type: (site of)		Length:	
Width:	Diam:	Ht/depth:	
Description: Nothing remains visible on the surface			
Relationships: None			
Interpretation: The site of the south bastion of Charles Bridgeman's ornamental ha-ha, built 1730-31, and demolished in 1868. There may be sub-surface remains beneath the car park and open ground to the south			

HYDE PARK Features Catalogue	OS Sheet: TQ 2680 NE	
Feature no: 008	NGR: TQ 2692 8073	
Feature type: Mound	Length: 53.0 m	
Width: 27.0 m	Diam:	Ht/depth: 0.5 m
Description: A low mound at the junction of West Carriage Drive and North Carriage Drive. Its longer axis is N to S. It is surmounted by trees but there are only three tree holes, one of which is recent		
Relationships: None		
Interpretation: Shown as a plantation on the Ordnance Survey 25 inch map of 1869. Probably deliberately landscaped following the construction of North and West Carriage Drives by 1827		

	OS Sheet: TQ 2680 NE	
Feature no: 009	NGR: TQ 2685 8077	
Feature type: Scarps	Length: 120.0m	
Width: 5.0-11.0m	Diam:	Ht/depth: 1.5m max
Description: Substantial landscaping scarps for trees and shrubbery along the edge of the park W of Victoria Gate Lodge		
Relationships: None		
Interpretation: Landscaping, undated		

HYDE PARK Features Catalogue		OS Sheet: TQ 2680 SE	
Feature no: 067		NGR: TQ 2693 8009	
Feature type: Mound		Length:	
Width:	Diam: 60.0m	Ht/depth: 0.5 - 2.5m	
Description: A flat-topped mound abutting against the E side of West Carriage Drive. To the N, the mound falls steeply to the edge of the Serpentine; on the E side, there is a drop of 2.5m. To the SE, the fall is more gradual and measures only 0.5m in height. There is, however, a steady slope towards the fence			
Relationships: Joined by TQ 2680 SE 069			
Interpretation: This mound appears to coincide with the area of a plantation shown on the Ordnance Survey 25 inch map of 1869 and is probably connected with landscaping works following the construction of the Serpentine Bridge in 1826			

		OS Sheet: TQ 2680 SE	
Feature no: 068		NGR: TQ 2694 8006	
Feature type: Scarp		Length: 24.0m	
Width: 3.0m	Diam:	Ht/depth: 0.2m	
Description: A scarp running N to S			
Relationships: The scarp runs into and forms the lower part of mound TQ 2680 SE 067			
Interpretation: See TQ 2680 SE 067			

		OS Sheet: TQ 2680 SE	
Feature no: 069		NGR: TQ 2696 8004	
Feature type: Scarp		Length: 33.0m	
Width: 6.0m	Diam:	Ht/depth: 0.4m	
Description: A scarp running NE to SW below an existing path			
Relationships: None			
Interpretation: See TQ 2680 SE 067			

HYDE PARK Features Catalogue		OS Sheet: TQ 2779 NE	
Feature no: 001		NGR: TQ 2780 7996	
Feature type: Dam		Length: 160.0m	
Width: 50.0m	Diam:	Ht/depth: 4.2m	
Description: A massive dam spanning the Westbourne Valley from NE to SW. The central section is broader, except where cut into by the weir. The back of the dam is formed by two steps, the lower below the waterline and presumably reveted, the upper a scarp 1.3m high creating a level terrace between its base and the water's edge			
Relationships: Overlain by TQ 2779 NE 003 and 005 and cut by 002. Continuous with TQ 2779 NE 018			
Interpretation: The Serpentine Dam, built 1731			

		OS Sheet: TQ 2779 NE	
Feature no: 002		NGR: TQ 2786 7994	
Feature type: Ditch		Length: 75.0m	
Width: 23.0m	Diam:	Ht/depth: 1.7m	
Description: A broad irregular channel for the Westbourne stream, aligned NW to SE through The Dell. The W scarp, only 0.4m high, is weaker and corresponds to the edges of flowerbeds. The E is very strong and forms an embankment for a N to S Victorian path along the E edge of the Dell for most of its length, and emphasised by bank TQ 2779 NE 003 at its N end. A broader section at TQ 2786 7996 may be the edge of the pool built 1736-7 and modified in 1844			
Relationships: Cuts the Serpentine Dam TQ 2779 NE 001. Overlain by bank TQ 2779 NE 003. E scarp abutting bank TQ 2779 NE 005			
Interpretation: The modified course of the Westbourne stream			

HYDE PARK		OS Sheet: TQ 2779 NE	
Features Catalogue			
Feature no: 003		NGR: TQ 2784 7998	
Feature type: Bank		Length: 33.0m	
Width: 7.5m	Diam:	Ht/depth: 0.4m	
Description: A bank extending SE at right angles from the Serpentine Dam TQ 2779 NE 001 along the N side of the Westbourne Stream			
Relationships: Overlies ditch TQ 2779 NE 002			
Interpretation: Probably represents spoil from a recut of the Westbourne Stream			

		OS Sheet: TQ 2779 NE	
Feature no: 004		NGR: TQ 2785 7998	
Feature type: Mound		Length: 13.5m	
Width: 1.1m	Diam:	Ht/depth: 0.3m	
Description: A semi-circular scarp defines the N side of a low mound			
Relationships: None			
Interpretation: A mound supporting the 'Monolith' sculpture			

		OS Sheet: TQ 2779 NE	
Feature no: 005		NGR: TQ 2784 7992	
Feature type: Bank		Length: 85.0m	
Width: 16.5m	Diam:	Ht/depth: 1.2m max	
Description: An irregular embanked flower bed projecting E from the S end of the dam TQ 2779 NE 001, defining the present S edge of the Dell. The height of the S scarp is 0.8m on average; the fall on the N side is up to 1.9m			
Relationships: Overlies dam TQ 2779 NE 001. Abutting the E scarp of ditch TQ 2779 NE 002			
Interpretation: This scarp, representing landscaping at the edge of a former pond at the outfall of the Serpentine, reached its present form between 1844, when Cubbitt infilled the southern half of the pond south of Rotten Row, and 1878 when the scarp is shown in its present form on the Ordnance Survey 25 inch map			

HYDE PARK Features Catalogue		OS Sheet: TQ 2779 NE	
Feature no: 006		NGR: TQ 2789 7994	
Feature type: Scarp		Length: 34.0m	
Width: 1.1m	Diam:	Ht/depth: 0.1m	
Description: A faint scarp extending S from the Holocaust Memorial Garden			
Relationships: Parallel to bank TQ 2779 NE 009			
Interpretation: Unknown but possibly a former path			

		OS Sheet: TQ 2779 NE	
Feature no: 007		NGR: TQ 2783 7984	
Feature type: Scarp		Length: 55.0m	
Width: 2.5m	Diam:	Ht/depth: 0.5m	
Description: A scarp running NE to SW along the W side of the horse ride			
Relationships: None			
Interpretation: No archaeological significance			

		OS Sheet: TQ 2779 NE	
Feature no: 008		NGR: TQ 2785 7983	
Feature type: Mound		Length: 40.0m	
Width: 2.0m	Diam:	Ht/depth: 0.6m	
Description: A low triangular mound			
Relationships: Cut by a drain			
Interpretation: A raised flowerbed of recent origin			

HYDE PARK Features Catalogue		OS Sheet: TQ 2779 NE	
Feature no: 009		NGR: TQ 2787 7997	
Feature type: Bank		Length: 95.0m	
Width: 5.0m	Diam:	Ht/depth: 0.2m	
Description: A straight bank alongside the present path			
Relationships: Joins TQ 2779 NE 010			
Interpretation: Spoil from the cutting of the path: no archaeological significance			

		OS Sheet: TQ 2779 NE	
Feature no: 010		NGR: TQ 2796 7977	
Feature type: Bank		Length: 160.0m	
Width: 6.2m	Diam:	Ht/depth: 0.3m	
Description: A bank extending NW to SE forming an embanked terrace for a path immediately on its N. The S scarp is stronger reaching a maximum of 0.6m high, the N scarp only 0.2m high on average. At its W end it angles S alongside another path TQ 2779 NE 009			
Relationships: Joins TQ 2779 NE 009			
Interpretation: Embankment for a path, in existence since 1827 at least (Greenwood plan)			

		OS Sheet: TQ 2779 NE	
Feature no: 011		NGR: TQ 2793 7994	
Feature type: Hollow		Length: 10.7m	
Width: 6.0m	Diam:	Ht/depth: 0.1m	
Description: A rectangular depression aligned NW to SE			
Relationships: None			
Interpretation: Unknown but probably modern			

HYDE PARK Features Catalogue		OS Sheet: TQ 2779 NE	
Feature no: 012		NGR: TQ 2775 7983	
Feature type: Hollow		Length: 130.0m	
Width: 30.0 - 40.0m	Diam:	Ht/depth: 0.3 - 1.1m	
Description: A large subrectangular hollow oriented E to W. The hollow is defined on the N by a bank, which includes mounds TQ 2779 NE 017 and 019, and stands between 0.7 and 1.1m high. The hollow tapers towards the W where it ends against one side of a ?flowerbed (see TQ 2779 NE 020). The S side is defined by a slight scarp, 0.3m high, which runs beneath the modern path			
Relationships: Overlain by TQ 2779 NE 013 and 014			
Interpretation: The hollow evidently predates both the modern path and a previous arrangement exemplified by TQ 2779 NE 014. The location corresponds to that of an oval pond, depicted on Rhodes' of 1762, which may originally have been a gravel pit dug to provide metalling for Rotten Row c. 1690			

		OS Sheet: TQ 2779 NE	
Feature no: 013		NGR: TQ 2772 7982	
Feature type: Scarp		Length: 30.0m	
Width: 1.0m	Diam:	Ht/depth: 0.3m	
Description: A scarp running NNE to SSW below a modern path.			
Relationships: Overlies TQ 2779 NE 012			
Interpretation: The scarp cuts across the bottom of hollow TQ 2779 NE 012 and is likely to be associated with the construction of the present path in the nineteenth century			

HYDE PARK Features Catalogue		OS Sheet: TQ 2779 NE	
Feature no: 014		NGR: TQ 2774 7985	
Feature type: Path		Length: 37.0m	
Width: 6.0m	Diam:	Ht/depth:	
Description: A terraced way aligned NE to SW. A patch of tarmac is exposed at the N end, where it joins the modern path below Rotten Row. The N half is in a cutting 0.5m deep, with mound TQ 2779 NE 017 on the W side. To the S, the terrace is 8.0 - 10.0m wide and 0.2m (W) to 0.5m (E) high			
Relationships: Overlies TQ 2779 NE 012			
Interpretation: A former pathway, possibly one of those built under Burton in the third decade of the nineteenth century			

		OS Sheet: TQ 2779 NE	
Feature no: 015		NGR: TQ 2797 7985	
Feature type: Hollow		Length: 60.5m	
Width: 20m	Diam:	Ht/depth: 1.1m	
Description: An irregular depression aligned E to W. The N side is strongest, the S side is weaker particularly on the SW			
Relationships: Probably cuts scarp TQ 2879 NW 001			
Interpretation: Probably a former gravel quarry, perhaps connected with metalling for Rotten Row c. 1690, or perhaps for general use in a later period. It is depicted on the OS 25 inch map of 1878			

		OS Sheet: TQ 2779 NE	
Feature no: 016		NGR: TQ 2798 7980	
Feature type: Bank		Length: 145.0m	
Width: 25.0m	Diam:	Ht/depth: 1.5m	
Description: A bank extending E to W between South Carriage Drive and the French Embassy. Beyond the embassy to the E it fades out gradually, but the S scarp continues onto sheet TQ 2879 NW			
Relationships: None			
Interpretation: A bank screening the French Embassy ground floor, presumably created using spoil from terracing the basement into the side of the natural slope			

HYDE PARK		OS Sheet: TQ 2779 NE	
Features Catalogue			
Feature no: 017		NGR: TQ 2773 7985	
Feature type: Mound		Length: 18.0m	
Width: 15.0m		Diam:	Ht/depth: 0.5 - 1.1m
Description: A mound forming a parallelogram in plan. and is therefore most prominent on its S side (height 1.1m); on the other three sides it is only 0.5m high			
Relationships: Forms the N edge of hollow TQ 2779 NE 012. See TQ 2779 NE 019			
Interpretation: The mound appears to have been created by default i.e. the construction of two NE to SW paths: on the W, the modern path has severed it from TQ 2779 NE 019; a former path TQ 2779 NE 014 delimits the mound on the E			

		OS Sheet: TQ 2779 NE	
Feature no: 018		NGR: TQ 2772 7991	
Feature type: Scarp		Length: 62.0m	
Width: 0.5 - 4.0m		Diam:	Ht/depth: 0.3 - 0.7m
Description: A strong scarp running E to W, increasing in height towards the E			
Relationships: See TQ 2779 NE 001			
Interpretation: This feature forms the tail of earthworks for the Serpentine Dam, forming a slight collar on the S side of the water			

		OS Sheet: TQ 2779 NE	
Feature no: 019		NGR: TQ 2770 7985	
Feature type: Mound		Length: 53.0m	
Width: 6.0 - 17.0m		Diam:	Ht/depth: 0.4 - 0.8m
Description: A subrectangular mound, oriented NE to SW, with a narrow 'tail', 20.0m long, 6.0 - 8.0m wide and 0.5m high, extending to the SW			
Relationships: Forms the N edge of hollow TQ 2779 NE 012. See TQ 2779 NE 017. Cut by two paths			
Interpretation: The mound appears to have been created by default i.e. the construction of two NE to SW paths			

HYDE PARK		OS Sheet: TQ 2779 NE	
Features Catalogue			
Feature no: 020		NGR: TQ 2766 7982	
Feature type: Mound		Length: 42.0m	
Width: 2.0m		Diam:	Ht/depth: 0.5m
Description: A low triangular, flat-topped mound			
Relationships: See TQ 2779 NE 012			
Interpretation: The eastern side may be the edge of a former gravel quarry. Possibly also a former raised flower bed			

		OS Sheet: TQ 2779 NE	
Feature no: 021		NGR: TQ 2767 7985	
Feature type: Scarp		Length: 64.0m	
Width: 2.5m		Diam:	Ht/depth: 0.5m
Description: A scarp running E to W along the S side of an existing path, itself along the S side of Rotten Row			
Relationships: None			
Interpretation: Embankment for the present path			

		OS Sheet: TQ 2779 NE	
Feature no: 022		NGR: TQ 2765 7984	
Feature type: Scarp		Length:	
Width: 2.5m		Diam:	Ht/depth: 0.3m
Description: Two 'promontories' of raised ground flanking an inturn. Each 'promontory' has a tree-hole at, or near, the terminal			
Relationships: None			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2779 NE	
Feature no: 023		NGR: TQ 2787 7986	
Feature type: Boundary post		Length: 0.37m	
Width: 0.23m	Diam:	Ht/depth: 0.16m	
Description: A rectangular-sectioned boundary post with rounded top. The W face bears a faint inscription: only the letters S, M are visible			
Relationships: None			
Interpretation: Parish boundary marker			

		OS Sheet: TQ 2779 NE	
Feature no: 024		NGR: TQ 2789 7982	
Feature type: Boundary post		Length: 0.35m	
Width: 0.25m	Diam:	Ht/depth: 0.63m	
Description: A rectangular-sectioned, round-shouldered post inscribed in three lines on the E face: S M; W; Patent Granometric Stone			
Relationships: Adjacent to TQ 2779 NE 025			
Interpretation: Parish boundary marker			

		OS Sheet: TQ 2779 NE	
Feature no: 025		NGR: TQ 2789 7982	
Feature type: Boundary post		Length: 0.3m	
Width: 0.14m	Diam:	Ht/depth: 0.35m	
Description: A rectangular-sectioned, round-shouldered sandstone post inscribed in two lines on the W face: S.C.;H.S.			
Relationships: Adjacent to TQ 2779 NE 024			
Interpretation: Parish boundary marker			

HYDE PARK Features Catalogue		OS Sheet: TQ 2779 NW	
Feature no: 001		NGR: TQ 2720 7987	
Feature type: Road		Length: 1384.0m	
Width: 20.0 - 25.0m	Diam:	Ht/depth: 0.3 - 0.7m	
<p>Description: Rotten Row: a broad prominently cambered road, flattish-topped, marking the former E to W course of Rotten Row from Whitehall to Kensington Palace, now visible only in Hyde Park. The N side is now part of a horse ride, with the result that the scarp is not so well defined, standing between 0.3 and 0.5m high. The top of the road is largely within the horse ride as well; it is between 8.0 - 12.0m wide. On the S side is an avenue of large trees; from these trees a scarp, measuring between 0.4 and 0.7m in height, falls to the S. This scarp has been under grass since c.1957</p>			
Relationships: None			
Interpretation: The course of Rotten Row (from French <i>Route de Roi</i>), constructed in 1690			

		OS Sheet: TQ 2779 NW	
Feature no: 002		NGR: TQ 2710 7996	
Feature type: Scarp		Length: 25.0m	
Width: 4.0m	Diam:	Ht/depth: 0.5m	
<p>Description: A scarp running N to S, with a branch running off to the W. The S end curves around TQ 2779 NW 003</p>			
Relationships: See TQ 2779 NW 003			
Interpretation: Unknown			

		OS Sheet: TQ 2779 NW	
Feature no: 003		NGR: TQ 2713 7993	
Feature type: Platform		Length: 12.5m	
Width: 8.5m	Diam:	Ht/depth: 0.2m	
<p>Description: A sharply defined rectangular platform cut into the slope S of the Serpentine. It is defined by scarps on the E and S and on the W by a modern path; to the N the ground slopes gently down towards the Serpentine Lido</p>			
Relationships: Cuts TQ 2779 NW 004			
Interpretation: Unknown			

HYDE PARK		OS Sheet: TQ 2779 NW	
Features Catalogue			
Feature no: 004		NGR: TQ 2715 7994	
Feature type: Scarp		Length: 70.0m	
Width: 3.0 - 5.0m		Diam:	Ht/depth: 0.5m
Description: A scarp running E to W from the edge of platform TQ 2779 NW 003			
Relationships: Cut by TQ 2779 NW 003. See TQ 2779 NW 007 and 008			
Interpretation: Uncertain but possibly connected with gravel extraction for Rotten Row c. 1690			

		OS Sheet: TQ 2779 NW	
Feature no: 005		NGR: TQ 2717 7996	
Feature type: Bank		Length: 53.0m	
Width: 7.0-11.5m		Diam:	Ht/depth: 0.2m
Description: A slight bank aligned W to E. The S scarp turns a right angle to the N at the W end, terminating after 15.0m			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2779 NW	
Feature no: 006		NGR: TQ 2730 7992	
Feature type: Scarp		Length: 257.0m	
Width: 2.0m		Diam:	Ht/depth: 0.4m
Description: A scarp running W to E, to the N of and alongside an avenue of trees. After c. 200m, it is deflected ENE but the original line continues			
Relationships: Cut by several drains			
Interpretation: Probably a terracing scarp for the pathway to its S			

HYDE PARK Features Catalogue		OS Sheet: TQ 2779 NW	
Feature no: 007		NGR: TQ 2734 7993	
Feature type: Hollow		Length: 80.0m	
Width: 20.0m	Diam:	Ht/depth: 0.2 - 0.6m	
Description: A large, flat-bottomed hollow, roughly rectangular in plan and oriented E to W. The hollow is open to the NW, with slight scarps on the N and E sides; the S side is the most sharply defined, standing 0.6m high. A channel or gully enters the hollow at the NE corner; this feature is approximately 30.0m long and 6.0 - 8.0m wide			
Relationships: See TQ 2779 NW 004 and 008			
Interpretation: Possibly a small infilled quarry for gravel, perhaps connected with the construction of Rotten Row c. 1690			

		OS Sheet: TQ 2779 NW	
Feature no: 008		NGR: TQ 2741 7994	
Feature type: Hollow		Length: 35.0m	
Width: 25.0m	Diam:	Ht/depth: 0.4m	
Description: An oval hollow, approached along a slight linear depression from the E			
Relationships: See TQ 2779 NW 004 and 007			
Interpretation: Possibly a small infilled quarry for gravel, perhaps connected with the construction of Rotten Row c. 1690			

		OS Sheet: TQ 2779 NW	
Feature no: 009		NGR: TQ 2740 7995	
Feature type: Bank/scarp		Length: 260.0m	
Width: 4.0-12.0m	Diam:	Ht/depth: 0.4m	
Description: A discontinuous bank/scarp aligned E to W			
Relationships: Helps to define hollows TQ 2779 NW 007 and 008. Parallel to the Serpentine			
Interpretation: Probably an embankment for the present path			

HYDE PARK Features Catalogue		OS Sheet: TQ 2779 NW	
Feature no: 010		NGR: TQ 2735 7996	
Feature type: Scarp		Length: 35.0m	
Width: 2.8m	Diam:	Ht/depth: 0.3m	
Description: A short scarp aligned E to W			
Relationships: Joins TQ 2779 NW 009			
Interpretation: Unknown			

		OS Sheet: TQ 2779 NW	
Feature no: 011		NGR: TQ 2736 7998	
Feature type: Scarp		Length: 86.0m	
Width: 3.0-7.5m	Diam:	Ht/depth: 0.3m	
Description: A scarp aligned E to W			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2779 NW	
Feature no: 012		NGR: TQ 2740 7980	
Feature type: Scarp		Length: 237.0m	
Width: 3.0 - 5.0m	Diam:	Ht/depth: 0.1m	
Description: A very slight E to W scarp, falling to the S			
Relationships: See TQ 2779 NW 013			
Interpretation: Air photographs, dated 1941, 1944 and 1945, show that this scarp defines the N edge of a line of Second World War air-raid shelters along the park edge: it was probably created by the removal of the shelters			

HYDE PARK Features Catalogue		OS Sheet: TQ 2779 NW	
Feature no: 013		NGR: TQ 2746 7978	
Feature type: Scarp		Length: 150.0m	
Width: 4.0 - 6.0m		Diam:	Ht/depth: 0.1m
Description: A very slight E to W scarp, falling to the S			
Relationships: See TQ 2779 NW 012			
Interpretation: Air photographs, dated 1941, 1944 and 1945, show that this scarp defines the S edge of a line of Second World War air-raid shelters along the park edge: it was probably created by the removal of the shelters			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NE	
Feature no: 001		NGR: TQ 2760 8090	
Feature type: Scarp		Length: 23.0 m	
Width: 19.0 m	Diam:	Ht/depth: 0.2 m	
Description: A very flat area defined mainly by a scarp 0.2 m high along its E side and the base of scarp TQ 2780 NE 004 to the N			
Relationships: None			
Interpretation: By the path along the W side of this area is a bronze plaque explaining that this was the site of: <p style="text-align: center;">A FOUNTAIN GIVEN BY HIS HIGHNESS THE HON MAHARAJAH MEERZA VIJARAM GAJAPATI RAJ MANEA SOOLTAN BAHADOOR OF VIJIANGRAM. K.C.S.I. STOOD ON THIS SITE FROM 1867 UNTIL 1964</p>			

		OS Sheet: TQ 2780 NE	
Feature no: 002		NGR: TQ 2763 8092	
Feature type: Scarp		Length: 115.0m	
Width: 5.0 m	Diam:	Ht/depth: 0.3m	
Description: A low scarp along a line of trees running WSW to NNE on both sides of the site of the fountain TQ 2780 NE 001			
Relationships: None			
Interpretation: The N edge of a pathway shown on the Ordnance Survey 25 inch map of 1869			

		OS Sheet: TQ 2780 NE	
Feature no: 003		NGR: TQ 2766 8092	
Feature type: Scarp		Length: 40.0m	
Width: 6.0m	Diam:	Ht/depth: 0.4m	
Description: A straight scarp alongside boundary fence			
Relationships: Cuts TQ 2780 NE 002			
Interpretation: A terrace scarp for the road to the E, a twentieth century modification to the area around Speakers' Corner			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NE	
Feature no: 004		NGR: TQ 2750 8090	
Feature type: Scarp		Length: 173.0 m	
Width: 11.0 m max		Diam:	Ht/depth: 1.0 m
Description: A gradual scarp sloping from the fence to the path along the S side of Bayswater Road			
Relationships: Cut by TQ 2780 NW 042			
Interpretation: The boundary scarp to the park			

		OS Sheet: TQ 2780 NE	
Feature no: 005		NGR: TQ 2782 8083	
Feature type: Grassmark		Length: 35.0m	
Width: 1.0 - 3.0m		Diam:	Ht/depth:
Description: A linear band of lush grass running NE to SW			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NE	
Feature no: 006		NGR: TQ 2796 8061	
Feature type: Scarp		Length: 335.0m	
Width: 3.0 - 20.0m		Diam:	Ht/depth: 0.4 - 1.4m
Description: A massive scarp running NW to SE along the boundary of Hyde Park with Park Lane. For most of its length the scarp top coincides with the park boundary but at TQ 2796 8060, however, the scarp bulges outwards to form a mound around a small modern building. The scarp reaches its greatest dimensions at this point			
Relationships: See TQ 2880 SW 015			
Interpretation: Probably recent and concerned with modifications to Park Lane 1958-62			

HYDE PARK		OS Sheet: TQ 2780 NE	
Features Catalogue			
Feature no: 007		NGR: TQ 2799 8052	
Feature type: Scarp		Length: 18.0m	
Width: 3.0m	Diam:	Ht/depth: 0.3m	
Description: A scarp running E to W			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NE	
Feature no: 008		NGR: TQ 2797 8050	
Feature type: Scarp		Length: 24.0m	
Width: 0.5m	Diam:	Ht/depth: 0.1m	
Description: A slight sinuous scarp running broadly N to S alongside a line of trees			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NE	
Feature no: 009		NGR: TQ 2794 8052	
Feature type: Ditch		Length: 32.0m	
Width: 2.0m	Diam:	Ht/depth: 0.2m	
Description: A ditch running E to W. At the E end, the ditch enters a rectangular hollow, measuring 4.0m N to S by 7.0m			
Relationships: Cut by modern path			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NE	
Feature no: 010		NGR: TQ 2769 8054	
Feature type: Bank		Length: 9.2m	
Width: 2.9m	Diam:	Ht/depth: 0.2m	
Description: A slight but well defined bank extending roughly N from the possible buildings TQ 2780 NE 022. The E scarp turns E at its S tip, suggesting a platform around TQ 2780 NE 022			
Relationships: None			
Interpretation: Appears to mark the course of part of a Second World War fence around a military compound, shown on air photographs of 1944			

		OS Sheet: TQ 2780 NE	
Feature no: 011		NGR: TQ 2750 8063	
Feature type: Lynchet		Length: 20.3m	
Width: 1.2m	Diam:	Ht/depth: 0.2m	
Description: A slight abraded scarp running roughly N to S			
Relationships: Parallel to TQ 2780 NE 024; see also grass marks TQ 2780 NE 013			
Interpretation: Possible represent the western scarps of medieval ridge-and-furrow cultivation, running along the contour			

		OS Sheet: TQ 2780 NE	
Feature no: 012		NGR: TQ 2770 8054	
Feature type: Scarp		Length: 16.5m	
Width: 0.9m	Diam:	Ht/depth: 0.1m	
Description: A slight scarp aligned N to S, defining a slight depression against TQ 2780 NE 011			
Relationships: None			
Interpretation: Unknown			

HYDE PARK		OS Sheet: TQ 2780 NE	
Features Catalogue			
Feature no: 013		NGR: TQ 2751 8068	
Feature type: Furrow		Length: 15.0m	
Width: 1.2m	Diam:	Ht/depth:	
Description: Two poorly aligned, vague linear parch marks and strips of lush grass, extending SW to NE			
Relationships: Roughly parallel to nearby lynchets TQ 2780 NE 024, 011, 040 and TQ 2780 NW 048			
Interpretation: Possibly medieval ridge-and-furrow cultivation			

		OS Sheet: TQ 2780 NE	
Feature no: 014		NGR: TQ 2754 8072	
Feature type: Lynchet		Length: 44.0m	
Width: 2.2m	Diam:	Ht/depth: 0.3m	
Description: A fairly strong lynchet running roughly N to S			
Relationships: See also lynchets TQ 2780 NE 015 and 039			
Interpretation: One of a series of contour-following lynchets from medieval ridge-and-furrow cultivation			

		OS Sheet: TQ 2780 NE	
Feature no: 015		NGR: TQ 2756 8076	
Feature type: Lynchet		Length: 34.0m	
Width: 1.4m	Diam:	Ht/depth: 0.3m	
Description: A fairly strong scarp extending roughly SW to NE. Its S tip curves suddenly to the S			
Relationships: Parallel to TQ 2780 NE 040 and TQ 2780 NW 048. Possibly the same as TQ 2780 NE 014			
Interpretation: One of a series of contour-following lynchets from medieval ridge-and-furrow cultivation			

HYDE PARK Features Catalogue	OS Sheet: TQ 2780 NE	
Feature no: 016	NGR: TQ 2758 8081	
Feature type: Mound	Length: 16.0m	
Width: 3.1m max	Diam:	Ht/depth: 0.3m
Description: A crescent shaped scarp defining the W side of a mound surmounted by a large tree hole		
Relationships: None		
Interpretation: Unknown		

	OS Sheet: TQ 2780 NE	
Feature no: 017	NGR: TQ 2758 8082	
Feature type: Lynchet	Length: 19.7m	
Width: 1.3m	Diam:	Ht/depth: 0.1m
Description: A slight scarp extending roughly SW to NE		
Relationships: Possibly a continuation of TQ 2780 NW 048		
Interpretation: One of a series of contour-following lynchets from medieval ridge-and-furrow cultivation		

	OS Sheet: TQ 2780 NE	
Feature no: 018	NGR: TQ 2755 8076	
Feature type: Parch mark	Length: 12.3m	
Width: 5.2m	Diam:	Ht/depth:
Description: A roughly rectangular parch mark aligned SW to NE with a possible division defining a square compartment at the SW end. It sits on top of the N tip of lynchet TQ 2780 NW 048 which is slightly enlarged at this point, apparently to create a platform around the parch mark		
Relationships: Overlies lynchet TQ 2780 NW 048		
Interpretation: Probable building foundations of unknown date		

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NE	
Feature no: 019		NGR: TQ 2751 8073	
Feature type: Lynchet		Length: 275.0m	
Width: 1.8m - 4.1m	Diam:	Ht/depth: 0.3m - 0.5m	
<p>Description: A lynchet, best preserved in the centre, fading to the N and to the S it disintegrates into a series of fairly strong but disjointed scarps up to 0.5m high. With TQ 2780 NW 048 to the E it defines a very level terrace way</p>			
<p>Relationships: Overlain by TQ 2780 NW 046. Parallel to TQ 2780 NE 020 and TQ 2780 NW 048</p>			
<p>Interpretation: Possibly in origin a medieval lynchet, but reused by a track leading NE out of the park, depicted on Greenwood's map of 1827 but not shown on the Ordnance Survey 25 inch map of 1894</p>			

		OS Sheet: TQ 2780 NE	
Feature no: 020		NGR: TQ 2750 8073	
Feature type: Ditch		Length: 77.0m	
Width: 3.4m	Diam:	Ht/depth: 0.2m	
<p>Description: A slight, discontinuous ditch extending NE at right angles away from TQ 2780 NW 053. N of the path the E uphill scarp continues for a further 46.0m. Downhill on its W a bank is visible as a single scarp 2.3m wide</p>			
<p>Relationships: Parallel to TQ 2780 NE 019. Joins TQ 2780 NW 053</p>			
<p>Interpretation: Probably a medieval field boundary</p>			

		OS Sheet: TQ 2780 NE	
Feature no: 021		NGR: TQ 2753 8062	
Feature type: Scarp		Length: 12.0m	
Width: 1.8m	Diam:	Ht/depth: 0.2m	
<p>Description: A short scarp on the same alignment as TQ 2780 NE 040, turning to the E at its N tip, corresponding to the eastward turn of the S tip of TQ 2780 NE 040. It is unclear whether there was an original breach at this point and/or a relationship with the possible Medieval bank TQ 2780 NE 035</p>			
<p>Relationships: On the same alignment as TQ 2780 NE 040 and possibly 034</p>			
<p>Interpretation: Possible fragment of a medieval lynchet</p>			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NE	
Feature no: 022		NGR: TQ 2769 8053	
Feature type: Scarp		Length:	
Width:	Diam:	Ht/depth: 0.2m	
Description: Three rectangular ridges 0.7m wide, each describing two sides of a rectangle. The longest measures 12.0m long by 2.5m wide; all three are aligned NW to SE			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NE	
Feature no: 023		NGR: TQ 2762 8050	
Feature type: Scarp		Length: 14.9m	
Width: 2.7m max	Diam:	Ht/depth: 0.2m	
Description: A scarp running roughly E to W, approximately at right angles to the anti-glider trench TQ 2780 NE 048			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NE	
Feature no: 024		NGR: TQ 2750 8063	
Feature type: Scarp		Length: 26.0m	
Width: 1.2m	Diam:	Ht/depth: 0.2m	
Description: An abraded scarp running roughly N to S			
Relationships: Parallel to TQ 2780 NE 011. See also TQ 2780 NE 013			
Interpretation: Possible represent slight lynchets, the western scarps of medieval ridge-and-furrow cultivation, running along the contour			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NE	
Feature no: 025		NGR: TQ 2751 8061	
Feature type: Mound		Length: 18.2m	
Width: 11.1m	Diam:	Ht/depth: 0.3m	
Description: An abraded irregular mound aligned N to S, with a tree hole on its summit			
Relationships: None			
Interpretation: Probably an outlying element of the bank TQ 2780 NE 027, separated from the rest by feature TQ 2780 NE 026			

		OS Sheet: TQ 2780 NE	
Feature no: 026		NGR: TQ 2751 8060	
Feature type: Scarp		Length: 25.0m	
Width: 2.0m	Diam:	Ht/depth: 0.2m	
Description: A scarp running SW to NE			
Relationships: It appears to separate the mound TQ 2780 NE 025 from the bank TQ 2780 NE 027			
Interpretation: Possibly a continuation of banks TQ 2780 NE 035 and 036			

HYDE PARK		OS Sheet: TQ 2780 NE	
Features Catalogue			
Feature no: 027		NGR: TQ 2752 8051	
Feature type: Bank		Length: 114m - 145m	
Width: 11.5m		Diam:	Ht/depth: 0.6m
Description: An abraded bank running N to S surmounted by an avenue of 1 standing tree and at least 8 tree holes. The southern 46.0m is well preserved up to 0.6m high; to the N the bank disintegrates into a series of moderately strong but disconnected scarps and possibly mound TQ 2780 NE 025. The W downhill scarp is stronger, 0.6m high, the E 0.2m			
Relationships: Cut by 2 paths and TQ 2780 NE 026. Parallel to medieval ridge-and-furrow TQ 2780 SE 004. Continued by TQ 2780 SE 022 or 031 and possibly TQ 2780 SE 009; at right angles to TQ 2780 SE 042			
Interpretation: Possibly in origin a medieval field boundary but certainly utilised as the tree-planted W boundary of the post-medieval enclosure (which we know later contained the Ranger's buildings) attached to the outer enclosure of the 17th century Ring, and depicted on a plan of c. 1706, attributed to Henry Wise			

		OS Sheet: TQ 2780 NE	
Feature no: 028		NGR: TQ 2754 8051	
Feature type: Scarp		Length: 18.5m	
Width: 2.3m		Diam:	Ht/depth: 0.1m
Description: A very abraded scarp running N to S			
Relationships: On the same alignment as TQ 2780 NE 034, TQ 2780 SE 038 and TQ 2780 SE 040			
Interpretation: Possibly a continuation of a medieval ploughing headland			

		OS Sheet: TQ 2780 NE	
Feature no: 029		NGR: TQ 2756 8051	
Feature type: Trench		Length: 50.5m	
Width: 1.3m		Diam:	Ht/depth: 0.1m
Description: A very regular straight trench extending NW to SE			
Relationships: Overlain by parch mark TQ 2780 SE 001			
Interpretation: A Second World War anti-glider trench, shown on air photographs of 1941			

HYDE PARK		OS Sheet: TQ 2780 NE	
Features Catalogue			
Feature no: 030		NGR: TQ 2756 8053	
Feature type: Parch mark		Length: 32.0m	
Width: 2.2m		Diam:	Ht/depth: 0.1m
Description: A strip of lush grass running roughly E to W through an area of general parching and evident disturbance			
Relationships: For disturbance, see TQ 2780 NE 031 and 032			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NE	
Feature no: 031		NGR: TQ 2755 8055	
Feature type: Scarp		Length: 7.0m	
Width: 1.8m		Diam:	Ht/depth: 0.2m
Description: A crescent shaped scarp extending S to NE			
Relationships: None			
Interpretation: Modern disturbance - see TQ 2780 NE 030 and 032			

		OS Sheet: TQ 2780 NE	
Feature no: 032		NGR: TQ 2757 8054	
Feature type: Hollow		Length: 12.0m	
Width: 3.9m		Diam:	Ht/depth: 0.1m
Description: A very slightly depressed area defined by two faint scarps, the stronger on the E 1.3m wide, the other minimal			
Relationships: None			
Interpretation: A modern disturbance, see TQ 2780 NE 030 and 031			

HYDE PARK		OS Sheet: TQ 2780 NE	
Features Catalogue			
Feature no: 033		NGR: TQ 2760 8060	
Feature type: Ridge-and-furrow		Length: 150.0m max	
Width: 1.9m average		Diam:	Ht/depth: 0.1
Description: Seven or eight discontinuous furrows 6.0m - 10.0m apart running roughly E from headland TQ 2780 NE 034. They are best defined E of the anti-glider trench TQ 2780 NE 048, reaching 0.2m deep and at their extreme W as clear grass-marks. Elsewhere, they are merely parch mark and/or minimal depressions			
Relationships: At TQ 2763 8059, two furrows clearly cut the ridges of TQ 2780 NE 049: elsewhere the relationship is unclear. Abutting TQ 2780 NE 034 and possibly banks TQ 2780 NE 035 and 036. Cut by anti-glider trenches TQ 2780 NE 046, 047, and 048			
Interpretation: Medieval ridge-and-furrow cultivation			

		OS Sheet: TQ 2780 NE	
Feature no: 034		NGR: TQ 2753 8059	
Feature type: Lynchet		Length: 24.4m	
Width: 1.6m		Diam:	Ht/depth: 0.3m
Description: A scarp running N to S, abutted by 4 furrows of TQ 2780 NE 033			
Relationships: Abutted by TQ 2780 NE 033. Possibly the same as scarp TQ 2780 NE 021 and lynchet TQ 2780 NE 040			
Interpretation: Possibly a headland for ridge-and-furrow TQ 2780 NE 033			

		OS Sheet: TQ 2780 NE	
Feature no: 035		NGR: TQ 2756 8063	
Feature type: Bank		Length: 31.0m	
Width: 4.3m		Diam:	Ht/depth: 0.2m
Description: A low bank running roughly SW to NE. The S tip of the E scarp turns SE, perhaps defining the end of a medieval furrow (see TQ 2780 NE 033)			
Relationships: Probably the same as TQ 2780 NE 036. Possibly continued by TQ 2780 NE 026. Relationships with TQ 2780 NE 021, 034, and 040 is unclear			
Interpretation: Possibly a medieval field boundary (see TQ 2780 NE 049)			

HYDE PARK		OS Sheet: TQ 2780 NE	
Features Catalogue			
Feature no: 036		NGR: TQ 2760 8067	
Feature type: Bank		Length: 45.0m	
Width: 3.1m		Diam:	Ht/depth: 0.3m
Description: A slight but regular bank running straight SW to NE parallel to the path. The E scarp continues further to the SW			
Relationships: Probably the same as bank TQ 2780 NE 035. Possibly parallel to possible ridge-and-furrow TQ 2780 NE 037 and at right angles to TQ 2780 NE 049			
Interpretation: Possibly a medieval field boundary between TQ 2780 NE 037 and 049			

		OS Sheet: TQ 2780 NE	
Feature no: 037		NGR: TQ 2758 8066	
Feature type: Ridge-and-furrow		Length: 18.0m max	
Width:		Diam: 1.5m	Ht/depth: 0.1m
Description: Two very slight linear depressions, visible mostly as lush green grass marks, running SW to NE 4.0m apart			
Relationships: Parallel to bank TQ 2780 NE 036			
Interpretation: Possibly medieval ridge-and-furrow cultivation, but dubious			

		OS Sheet: TQ 2780 NE	
Feature no: 038		NGR: TQ 2753 8065	
Feature type: Lynchet		Length: 15.5m	
Width: 1.3m max		Diam:	Ht/depth: 0.1m
Description: A very slight scarp running roughly N to S			
Relationships: Perhaps the same as TQ 2780 NE 039. Parallel to TQ 2780 NE 040 and 041			
Interpretation: Probably the E scarp of a ridge from medieval ridge-and-furrow cultivation			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NE	
Feature no: 039		NGR: TQ 2754 8069	
Feature type: Lynchet		Length: 14.7m	
Width: 1.8m	Diam:	Ht/depth: 0.3m	
Description: A fairly strong scarp running N to S along the contour			
Relationships: Possibly the same as TQ 2780 NE 038. Parallel to TQ 2780 NE 040			
Interpretation: A medieval lynchet produced by contour ploughing			

		OS Sheet: TQ 2780 NE	
Feature no: 040		NGR: TQ 2753 8064	
Feature type: Lynchet		Length: 141.0m	
Width: 1.4m average	Diam:	Ht/depth: 0.2 - 0.4m	
Description: A discontinuous scarp running with the contour. Its S section, 0.2m high turns E at its S tip, suggesting a possible relationship with the bank TQ 2780 NE 035 - see also TQ 2780 NE 021. The central section is strongest 0.4m high, the N end broadens and fades			
Relationships: Possibly the same as TQ 2780 NE 021 and 034. Parallel to TQ 2780 NE 014, 015, 038, 039 and 041			
Interpretation: One of a series of medieval ploughing lynchets			

		OS Sheet: TQ 2780 NE	
Feature no: 041		NGR: TQ 2752 8063	
Feature type: Ridge-and-furrow		Length: 14.0m	
Width: 1.5m	Diam:	Ht/depth: 0	
Description: A vaguely linear strip of lush grass running roughly N to S			
Relationships: None			
Interpretation: Possibly a furrow between TQ 2780 NE 038 and 040			

HYDE PARK		OS Sheet: TQ 2780 NE	
Features Catalogue			
Feature no: 042		NGR: TQ 2757 8069	
Feature type: Lynchet		Length: 22.0m	
Width: 1.4m	Diam:	Ht/depth: 0.1m	
Description: A stretch of possible abraded lynchet running along the contour parallel to TQ 2780 NE 014, 040 etc			
Relationships: None			
Interpretation: Possibly one of a series of medieval lynchets			

		OS Sheet: TQ 2780 NE	
Feature no: 043		NGR: TQ 2758 8069	
Feature type: Scarp		Length: 6.9m	
Width: 1.0m	Diam:	Ht/depth: 0.2m	
Description: A scarp running SW to NE, truncated at the S end by a path. It runs at an oblique angle to the other lynchets on the slope			
Relationships: Possibly the same as TQ 2780 NE 044			
Interpretation: Possibly remains of a medieval lynchet			

		OS Sheet: TQ 2780 NE	
Feature no: 044		NGR: TQ 2758 8070	
Feature type: Scarp		Length: 5.0m	
Width: 1.6m	Diam:	Ht/depth: 0.2m	
Description: A fragment of scarp, most clearly visible where cut by the path			
Relationships: Possibly the same as TQ 2780 NE 043			
Interpretation: Possibly the remnant of a medieval lynchet			

HYDE PARK		OS Sheet: TQ 2780 NE	
Features Catalogue			
Feature no: 045		NGR: TQ 2758 8069	
Feature type: Lynchet		Length: 10.2m	
Width: 0.9m	Diam:	Ht/depth: 0.2m	
Description: A section of scarp extending N to S between two paths			
Relationships: Parallel to lynchets TQ 2780 NE 040, 042 etc			
Interpretation: Possibly remains of a medieval lynchet			

		OS Sheet: TQ 2780 NE	
Feature no: 046		NGR: TQ 2761 8060	
Feature type: Scarp		Length: 19.6m	
Width: 1.6m	Diam:	Ht/depth: 0.1 m	
Description: A faint scarp extending roughly S at right angles away from trench TQ 2780 NE 047			
Relationships: Cuts furrows TQ 2780 NE 033 and 049			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NE	
Feature no: 047		NGR: TQ 2762 8062	
Feature type: Trench		Length: 59.0m	
Width: 2.1m	Diam:	Ht/depth: 0.1m	
Description: An extremely regular straight trench running approximately E to W. In places it is visible only as a strip of lush grass			
Relationships: Cuts furrows TQ 2780 NE 033 and 049. At right angles to scarp TQ 2780 NE 046			
Interpretation: A Second World War anti-glider trench visible on air photographs of 1941			

HYDE PARK		OS Sheet: TQ 2780 NE	
Features Catalogue			
Feature no: 048		NGR: TQ 2765 8059	
Feature type: Trench		Length: 144.0m	
Width: 1.9m		Diam:	Ht/depth: 0.1m
Description: An extremely regular straight trench extending roughly N to S, in places visible only as a strip of lush grass. A total of fifteen former flanking spoilheaps are visible as patches of lush grass on either side of the N end of the trench			
Relationships: At right angles to anti-glider trench TQ 2780 NE 047. Cuts furrow TQ 2780 NE 033 and 049 and scarp TQ 2780 NE 048			
Interpretation: Second World War anti-glider trench visible on air photographs of 1941			

		OS Sheet: TQ 2780 NE	
Feature no: 049		NGR: TQ 2760 8057	
Feature type: Ridge-and-furrow		Length: 36.5m	
Width: 1.4m		Diam:	Ht/depth: 0.1m max
Description: Very slight traces of four or five furrows running NW to SE. The two immediately W of the anti-glider trench TQ 2780 NE 048 are relatively well-preserved, their ridges at this point clearly cut by furrows TQ 2780 NE 033. The two furrows at TQ 2760 8057 are defined by parching and minimal depressions			
Relationships: Cut by furrows TQ 2780 NE 033, anti-glider trenches TQ 2780 NE 048 and 046 and scarp TQ 2780 NE 047. Possibly related to banks TQ 2780 NE 035 and 036			
Interpretation: Medieval ridge and furrow cultivation			

		OS Sheet: TQ 2780 NE	
Feature no: 050		NGR: TQ 2761 8077	
Feature type: Scarp		Length: 24.5m	
Width: 0.8m		Diam:	Ht/depth: 0.2m
Description: A slight but regular scarp running straight N to S			
Relationships: Parallel to scarp TQ 2780 NE 051			
Interpretation: Defines the E edge of a possible platform			

HYDE PARK Features Catalogue	OS Sheet: TQ 2780 NE	
Feature no: 051	NGR: TQ 2759 8076	
Feature type: Scarp	Length: 44.5m	
Width: 2.9m	Diam:	Ht/depth: 0.3m
Description: A scarp running N to S for 34.0m, turning SE for a further 11.5m at the S end		
Relationships: Parallel to scarp TQ 2780 NE 050		
Interpretation: Defines the W edge of a possible platform		

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 009		NGR: TQ 2717 8078	
Feature type: Scarp		Length: 13.5 m	
Width: 1.0 m	Diam:	Ht/depth: 0.1 m	
Description: A very slight scarp running NW to SE			
Relationships: Cut by TQ 2780 NW 029			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NW	
Feature no: 010		NGR: TQ 2713 8063	
Feature type: Scarp		Length: 47.0m	
Width: 1.1m	Diam:	Ht/depth: 0.2m max	
Description: A scarp and a parch mark describing a distorted semi-circle curving from NW to E. General parching suggests rubble immediately under the surface and the surrounding area is obviously disturbed			
Relationships: See also TQ 2780 NW 014			
Interpretation: The site of a Second World War barrage balloon anchorage, shown on air photographs of 1941 and 1944. By 1945 the site was being used as a military lorry park			

		OS Sheet: TQ 2780 NW	
Feature no: 011		NGR: TQ 2708 8055	
Feature type: Scarp		Length: 14.0 m	
Width: 2.6 m max	Diam:	Ht/depth: 0.4 m max	
Description: A fairly well defined scarp running N to S, its N end turning 90 degrees W to end against a path. The S end narrows and fades. The area between the scarp and the path rises slightly round a tree			
Relationships:			
Interpretation: This feature seems too regular to be a tree hole. It may be related to a former building			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 012		NGR: TQ 2709 8061	
Feature type: Parch mark		Length: 7.6 m	
Width: 4.4 m	Diam:	Ht/depth:	
Description: Very clear parch mark of a rectangular structure oriented NNW to SSE. Smaller rectangles are attached to the N and S sides.			
Relationships: None			
Interpretation: The sharpness of the mark suggests that foundations may lie immediately below the surface but none could be found by probing. It is possibly connected with the Second World War barrage balloon anchorage TQ 2780 SE 010			

		OS Sheet: TQ 2780 NW	
Feature no: 013		NGR: TQ 2708 8062	
Feature type: Parch mark		Length: 55.0 m	
Width: 0.60 m	Diam:	Ht/depth:	
Description: A long, continuous parch mark running SW to NE then turning E. A slight linear hollow is visible along the mark in places			
Relationships: None			
Interpretation: Probably related to the Second World War barrage balloon anchorage TQ 2780 SE 010			

		OS Sheet: TQ 2780 NW -	
Feature no: 014		NGR: TQ 2708 8063	
Feature type: Scarp		Length: 63.0 m	
Width: 1.10 m max	Diam:	Ht/depth: 0.2 m max	
Description: An irregular scarp running approximately E to W, becoming broader and clearer to the E			
Relationships: See TQ 2780 SE 010			
Interpretation: Probably related to the Second World War barrage balloon anchorage TQ 2780 SE 010			

HYDE PARK		OS Sheet: TQ 2780 NW	
Features Catalogue			
Feature no: 015		NGR: TQ 2707 8064	
Feature type: Mound		Length: 17.0 m	
Width: 15.0 m		Diam:	Ht/depth: 0.4 m
Description: A sub-circular mound with tree holes on and around it, including one on the summit of the mound			
Relationships: None			
Interpretation: Possibly an ornamental tree mound			

		OS Sheet: TQ 2780 NW	
Feature no: 016		NGR: TQ 2711 8065	
Feature type: Gully		Length:	
Width:		Diam: 7.7 m	Ht/depth: 0.15 m
Description: A shallow gully, 1.3 m wide, forming a circle with a diameter of 7.7 m. The centre of the circle is level and undisturbed			
Relationships: None			
Interpretation: The site of a machine-gun emplacement which defended the Second World War barrage balloon anchorage TQ 2780 SE 010: visible on air photographs of 1941			

		OS Sheet: TQ 2780 NW	
Feature no: 017		NGR: TQ 2729 8077	
Feature type: Scarp		Length: 22.0m	
Width: 1.2m		Diam:	Ht/depth: 0.4m
Description: A sinuous scarp aligned broadly N to S			
Relationships: Joins TQ 2780 NW 056			
Interpretation: Possibly a medieval field boundary (tentative)			

HYDE PARK		OS Sheet: TQ 2780 NW	
Features Catalogue			
Feature no: 018		NGR: TQ 2713 8072	
Feature type: Mound		Length: 7.0 m	
Width: 5.0 m		Diam:	Ht/depth: 0.2 m
Description: A small mound with fairly large tree holes clustered on W side, but none in the top of the mound			
Relationships: None			
Interpretation: A small tree mound			

		OS Sheet: TQ 2780 NW	
Feature no: 019		NGR: TQ 2711 8073	
Feature type: Mound		Length:	
Width:		Diam: 6.5 m	Ht/depth: 0.2 m
Description: A horseshoe-shaped mound with a break on the S			
Relationships: None			
Interpretation: This feature occupies the site of a park seat shown on the Ordnance Survey 25 inch map of 1869			

		OS Sheet: TQ 2780 NW	
Feature no: 020		NGR: TQ 2710 8074	
Feature type: Mound		Length: 7.5 m	
Width: 7.0 m		Diam:	Ht/depth: 0.2 m
Description: A sub-circular mound with elongated oval hollow in centre			
Relationships: None			
Interpretation: As TQ 2780 NW 018			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 021		NGR: TQ 2718 8074	
Feature type: Platform		Length: 17.0 m	
Width: 10.0 m	Diam:	Ht/depth: 0.1 m	
Description: Shallow, indistinct scarps define a platform in the junction formed by two paths. The scarps are a maximum of 1.0 m wide			
Relationships: None			
Interpretation: Uncertain: possibly a building platform			

		OS Sheet: TQ 2780 NW	
Feature no: 022		NGR: TQ 2719 8071	
Feature type: Furrows		Length: 15.3 m	
Width: 2.8 m max	Diam:	Ht/depth: 0.1 m	
Description: Two parallel, shallow furrows 2.0 m apart with a ridge between. They fade out at the E end, but start quite abruptly at W end			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NW	
Feature no: 023		NGR: TQ 2723 8063	
Feature type: Banks		Length: 103.0 m	
Width: 15.0 m overall	Diam:	Ht/depth: 0.3 m	
Description: Two low parallel banks, each about 5.0 m wide, running NNW to SSE with a furrow or ditch between them. They are levelled at the N end and both flattened and disturbed by tree holes at the S end. Parching on the banks makes them clearly visible on air photographs where they can be seen to be associated with ridge-and-furrow cultivation immediately to the E			
Relationships: Cut by TQ 2780 NW 025. See TQ 2780 NW 024			
Interpretation: Probably a medieval field boundaries or ploughing headlands: the ditch between may have been a trackway			

HYDE PARK		OS Sheet: TQ 2780 NW	
Features Catalogue			
Feature no: 024		NGR: TQ 2724 8065	
Feature type: Ridge-and-furrow		Length: 15.0 m max	
Width: 2.5 m		Diam:	Ht/depth:
Description: Two furrows visible as irregular parch marks, aligned much the same as TQ 2780 NW 026			
Relationships: Cut by TQ 2780 NW 025, contemporary with TQ 2780 NW 023, 026 and the rest of the medieval field system			
Interpretation: Medieval ridge-and-furrow cultivation			

		OS Sheet: TQ 2780 NW	
Feature no: 025		NGR: TQ 2724 8066	
Feature type: Ditch		Length: 41.0 m	
Width: 1.8 m		Diam:	Ht/depth: 0.25 m max
Description: A straight channel, in two surviving sections, running SW to NE, the sides rather disturbed and unclear in places, with occasional dumps of material across the channel. It is deepest at S end where it cuts through TQ 2780 NW 023			
Relationships: Cuts TQ 2780 NW 023, 024			
Interpretation: A Second World War anti-glider trench visible on air photographs of 1941 (three of the circular spoilheaps formerly flanking the trench are also visible on the ground)			

		OS Sheet: TQ 2780 NW	
Feature no: 026		NGR: TQ 2727 8065	
Feature type: Ridge-and-furrow		Length: 22.0 m max	
Width: 2.3 m		Diam:	Ht/depth: 0.15 m
Description: Fragments of up to seven parallel furrows running roughly E to W. They were visible as slight earthworks but the condition of the grass made them difficult to see and was not conducive to the formation of good parch marks. Some may be drains, notably the two southernmost			
Relationships: See also TQ 2780 NW 024, 028 and 030			
Interpretation: Medieval ridge-and-furrow cultivation			

HYDE PARK		OS Sheet: TQ 2780 NW	
Features Catalogue			
Feature no: 027		NGR: TQ 2724 8070	
Feature type: Ditch		Length: 21.0 m	
Width: 1.8 m		Diam:	Ht/depth: 0.1 m
Description: A shallow channel running NW to SE			
Relationships: None			
Interpretation: A Second World War anti-glider trench visible on air photographs of 1941			

		OS Sheet: TQ 2780 NW	
Feature no: 028		NGR: TQ 2730 8050	
Feature type: Ridge-and-furrow		Length: 25.0 m max	
Width: 5.0 m		Diam:	Ht/depth: 0.2m
Description: Two roughly parallel furrows running E to W down the slight natural hill slope. They are broad and abraded			
Relationships: See also TQ 2780 NW 024, 026 and 030			
Interpretation: Medieval ridge-and-furrow cultivation			

		OS Sheet: TQ 2780 NW	
Feature no: 029		NGR: TQ 2724 8078	
Feature type: Scarps		Length: 250.0 m	
Width: 4.5 m max		Diam:	Ht/depth: 0.2 m max
Description: Scarps forming a low bank running WSW to ENE immediately N of North Ride			
Relationships: None			
Interpretation: A disused path alongside North Ride			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 030		NGR: TQ 2723 8056	
Feature type: Furrow		Length: 65.0 m	
Width: 5.0 m max	Diam:	Ht/depth: 0.2m	
Description: A long, broken furrow running E to W down the natural hill slope. Lying roughly parallel to TQ 2780 NW 028 and 031, it is quite well defined but confused by trees			
Relationships: See also TQ 2780 NW 024, 026 and 028			
Interpretation: Possibly medieval ridge-and-furrow cultivation			

		OS Sheet: TQ 2780 NW	
Feature no: 031		NGR: TQ 2735 8054	
Feature type: Furrow		Length: 10.0 m	
Width: 4.0 m	Diam:	Ht/depth: 0.2m	
Description: A short section of probable furrow running down the slope TQ 2780 NW 032 and roughly parallel to TQ 2780 NW 030			
Relationships: Cuts slope TQ 2780 NW 032			
Interpretation: Possible medieval ridge-and-furrow cultivation			

		OS Sheet: TQ 2780 NW	
Feature no: 032		NGR: TQ 2735 8054	
Feature type: Scarp		Length: 55.0 m	
Width: 18.0 m	Diam:	Ht/depth: 0.55 m	
Description: A broad scarp running roughly N to S, the top most clearly defined. The N end is confused by a tree mound			
Relationships: Cut by TQ 2780 NW 031			
Interpretation: It appears to be a steepening of the natural slope but is close to the projected line of bank TQ 2780 NW 059			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 033		NGR: TQ 2731 8051	
Feature type: Scarp		Length: 27.0 m	
Width: 9.0 m	Diam:	Ht/depth: 0.35 m	
Description: A slight steepening of natural slope			
Relationships: None			
Interpretation: Uncertain			

		OS Sheet: TQ 2780 NW	
Feature no: 034		NGR: TQ 2741 8052	
Feature type: Scarp		Length: 130.0 m	
Width: 15.0 m max	Diam:	Ht/depth: 0.8 m max	
Description: An irregular scarp running roughly N to S			
Relationships: None			
Interpretation: This feature is largely a steepening of the natural valley slope but is enhanced to form a building platform along the N and W edges of New Lodge			

		OS Sheet: TQ 2780 NW	
Feature no: 035		NGR: TQ 2740 8055	
Feature type: Scarps		Length: 30.0 m	
Width: 7.0 m max	Diam:	Ht/depth:	
Description: A narrow terrace running N to S at a slight angle up the hill slope. It fades out at both ends			
Relationships: None			
Interpretation: It is not clear whether this is a natural feature or a former pathway			

HYDE PARK		OS Sheet: TQ 2780 NW	
Features Catalogue			
Feature no: 036		NGR: TQ 2749 8060	
Feature type: Scarp		Length: 18.5m	
Width: 2.1m	Diam:	Ht/depth: 0.1m	
Description: A faint abraded scarp running roughly E to W			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NW	
Feature no: 037		NGR: TQ 2749 8059	
Feature type: Scarp		Length: 15.0m	
Width: 1.3m	Diam:	Ht/depth: 0.2m	
Description: A scarp angling NE away from a path, parallel to TQ 2780 NE 026 on its W at a distance of c. 3.5m			
Relationships: Runs parallel to TQ 2780 NE 026			
Interpretation: See TQ 2780 NE 026			

		OS Sheet: TQ 2780 NW	
Feature no: 038		NGR: TQ 2747 8055	
Feature type: Scarp		Length: 39.0m	
Width: 3.9m	Diam:	Ht/depth: 0.3m	
Description: The strongest part of this scarp extends E to W for 34.0m. A more abraded section angles to the SE, starting 12.0m from the W end of the main scarp and extending for 27.0m			
Relationships: Approximately parallel to scarp TQ 2780 NW 040			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 039		NGR: TQ 2721 8084	
Feature type: Scarp		Length: 188.0 m	
Width: 13.0 m max	Diam:	Ht/depth: 0.6 m	
Description: A fairly gradual but prominent slope running E to W along the S side of Bayswater Road, fading at both ends			
Relationships: None			
Interpretation: The N boundary of Hyde Park, suggesting some build-up on Bayswater Road			

		OS Sheet: TQ 2780 NW	
Feature no: 040		NGR: TQ 2746 8054	
Feature type: Scarp		Length: 29.0m	
Width: 2.3m average	Diam:	Ht/depth: 0.4m	
Description: An abraded but fairly strong scarp running E to W			
Relationships: None, but roughly parallel and similar in form to TQ 2780 NW 038			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NW	
Feature no: 041		NGR: TQ 2730 8085	
Feature type: Scarp		Length: 27.0 m	
Width: 5.0 m max	Diam:	Ht/depth: 0.2 m	
Description: A short, broad and gradual scarp running WSW to ENE			
Relationships: None			
Interpretation: Unknown			

HYDE PARK		OS Sheet: TQ 2780 NW	
Features Catalogue			
Feature no: 042		NGR: TQ 2740 8088	
Feature type: Scarp		Length: 110.0 m	
Width: 4.5 m max		Diam:	Ht/depth: 0.7 m
Description: A scarp running E to W, E of Albion Gate			
Relationships: See also TQ 2780 NW 039 and TQ 2780 NE 010			
Interpretation: N boundary of Hyde Park, here apparently landscaped out from the boundary wall			

		OS Sheet: TQ 2780 NW	
Feature no: 043		NGR: TQ 2745 8056	
Feature type: Scarp		Length: 24.0m	
Width: 3.2m		Diam:	Ht/depth: 0.3m
Description: A broad abraded scarp, running N to S for 15.0m, turning NE for a further 9.0m at the N			
Relationships: See TQ 2780 NW 038 and 040			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NW	
Feature no: 044		NGR: TQ 2743 8043	
Feature type: Scarp		Length: 18.5m	
Width: 1.9m max		Diam:	Ht/depth: 0.2m
Description: A scarp running N to S parallel to a path, cut short on the N by a drain			
Relationships: None			
Interpretation: Possibly related to the adjacent path			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 045		NGR: TQ 2737 8061	
Feature type: Tree holes		Length: 14.0 m	
Width: 7.0 m	Diam:	Ht/depth: 0.2m	
Description: An irregular disturbed and pitted area			
Relationships: None			
Interpretation: Probably the result of tree disturbance though few hollows could be identified as individual tree holes			

		OS Sheet: TQ 2780 NW	
Feature no: 046		NGR: TQ 2748 8068	
Feature type: Bank		Length: 9.5m	
Width: 4.4m	Diam:	Ht/depth: 0.2m	
Description: An abraded spur projecting at right angles NW from lynchet TQ 2780 NE 019			
Relationships: Overlies TQ 2780 NE 019			
Interpretation: Unknown			

		OS Sheet: TQ 2780 NW	
Feature no: 047		NGR: TQ 2741 8061	
Feature type: Scarp		Length: 90.0 m	
Width: 18.0 m max	Diam:	Ht/depth: 0.7 m	
Description: An irregular scarp around the S corner of a park compartment			
Relationships: Overlies TQ 2780 NW 057			
Interpretation: Probably a natural scarp altered by paths and tree planting			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 048		NGR: TQ 2748 8066	
Feature type: Lynchet		Length: 235.0m	
Width: 1.2m - 5.3m	Diam:	Ht/depth: 0.5m max	
<p>Description: A lynchet running roughly SW to NE along the natural contour. At the SW it breaks into a series of disconnected scarps between 0.3m and 0.5m high; to the NE it gradually diminishes to 0.2m high. It defines a very level strip downhill on its W and is surmounted by an avenue of 5 standing trees and 6 tree holes</p>			
<p>Relationships: With TQ 2780 NW 048 to the E it defines a very level terrace way</p>			
<p>Interpretation: Possibly in origin a medieval lynchet, but reused by a track leading NE out of the park, depicted on Greenwood's map of 1827 but not shown on the Ordnance Survey 25 inch map of 1894</p>			

		OS Sheet: TQ 2780 NW	
Feature no: 049		NGR: TQ 2742 8080	
Feature type: Scarp		Length: 35.0 m	
Width: 3.0 m	Diam:	Ht/depth: 0.25m	
<p>Description: Fairly straight scarp running WNW to ESE from TQ 2780 NW 051. The E end turns S and is not well defined</p>			
<p>Relationships: None</p>			
<p>Interpretation: Unknown</p>			

		OS Sheet: TQ 2780 NW	
Feature no: 050		NGR: TQ 2738 8077	
Feature type: Scarp		Length: 18.0 m	
Width: 4.5m	Diam:	Ht/depth: 0.4m	
<p>Description: A scarp running diagonally up scarp TQ 2780 NW 051, forming a slight gully with it, steep on the W side but lower and shallower on the E</p>			
<p>Relationships: Cuts TQ 2780 NW 051</p>			
<p>Interpretation: Unknown</p>			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 051		NGR: TQ 2738 8077	
Feature type: Scarp		Length: 105.0 m	
Width: 17.0 m max	Diam:	Ht/depth: 0.4m max	
Description: An irregular scarp defining a raised area and partly forming the N side of ditch TQ 2780 NW 056			
Relationships: Cuts TQ 2780 NW 055			
Interpretation: Possibly a natural rise, but some landscaping is possible			

		OS Sheet: TQ 2780 NW	
Feature no: 052		NGR: TQ 2745 8076	
Feature type: Ditch and bank		Length: 19.0 m	
Width: 4.0 m	Diam:	Ht/depth: 0.2m	
Description: A short section of ditch running SSW to NNE. Air photographs show a bank on both sides of the ditch, but only a short section on the SE side could be seen on the ground, possibly due to poor grass conditions. The photographs also suggest a continuation to North Ride			
Relationships: Cut by TQ 2780 NW 053			
Interpretation: Possibly a medieval field boundary			

		OS Sheet: TQ 2780 NW	
Feature no: 053		NGR: TQ 2744 8073	
Feature type: Bank and ditch		Length: 70.0m	
Width: 13.0 m overall	Diam:	Ht/depth: 0.3m	
Description: A slight bank and ditch running NW to SE. The bank fades to the E where the ditch becomes stronger. At the E end the ditch turns NE to become TQ 2780 NE 020 and is deepened by a drain to 0.3m but air photographs suggest that it originally continued to the E			
Relationships: Cut by drains and TQ 2780 NW 052. Contemporary with TQ 2780 NW 054 to 057 and 059			
Interpretation: Medieval field boundary. The ditch possibly was utilised as a trackway running E to W across the park, as suggested by the Wise plan of c. 1706: see also TQ 2780 NW 056			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 054		NGR: TQ 2742 8075	
Feature type: Ditch		Length: 8.0 m	
Width: c. 6 m	Diam:	Ht/depth: 0.2m	
<p>Description: A short section of ditch running SW to NE from a star-shaped junction of 5 ditches. It is very difficult to see on the ground, but clear on air photographs and should not to be confused with the adjacent drain</p>			
<p>Relationships: Contemporary with TQ 2780 NW 053, 055 to 057 and 059</p>			
<p>Interpretation: Medieval field boundary</p>			

		OS Sheet: TQ 2780 NW	
Feature no: 055		NGR: TQ 2741 8077	
Feature type: Ditch		Length: 35.0 m	
Width: 3.5m	Diam:	Ht/depth: 0.25m	
<p>Description: A ditch running NW to SE, the SW side most clearly defined. At the S end it opens into a star-shaped area, where 4 more ditches converge</p>			
<p>Relationships: At the N end it appears to be cut or overlain by TQ 2780 NW 051. Contemporary with TQ 2780 NW 053, 054, 056, 057 and 059</p>			
<p>Interpretation: Medieval field boundary</p>			

		OS Sheet: TQ 2780 NW	
Feature no: 056		NGR: TQ 2734 8075	
Feature type: Ditch and bank		Length: 175.0 m	
Width: 5.0 m max	Diam:	Ht/depth: 0.25m	
<p>Description: A slight ditch running E to W, well defined at the E end where it joins 4 other ditches, forming a star-shape, but becoming slighter further. At its E end there is a bank (40.0 m by 5.0 m and 0.2 m high) along its S edge which curves into bank TQ 2780 NW 059.</p>			
<p>Relationships: Contemporary with TQ 2780 NW 053 to 055, 057 and 059</p>			
<p>Interpretation: Medieval field boundary. The ditch possibly was utilised as a trackway running E to W across the park, as suggested by the Wise plan of c. 1706: see also TQ 2780 NW 053</p>			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 057		NGR: TQ 2741 8068	
Feature type: Bank		Length: 175.0 m	
Width: 7.0 m max		Diam:	Ht/depth: 0.3 m max
Description: A narrow bank running parallel to bank TQ 2780 NW 059 and forming a ditch, 0.25m deep, between them. The bank is well defined, except where it is cut by drains, and at the N end it turns E to merge with bank TQ 2780 NW 053. The N end of the medial ditch opens into a low, uneven area from which 4 other ditches run, forming a star-shape			
Relationships: Cut by drains. Contemporary with TQ 2780 NW 053 to 056 and 059			
Interpretation: Medieval field boundary. The medial ditch may have carried and controlled the flow of spring water from the head of the Westbourne tributary valley (and hence the reason for the junction of five ditched boundaries). Ponds are indicated at the lower end of the valley on the Rocque plan of 1746: see TQ 2780 SW 065			

		OS Sheet: TQ 2780 NW	
Feature no: 058		NGR: TQ 2736 8066	
Feature type: Ridge-and-furrow		Length: 50.0 m max	
Width: 1.8 m		Diam:	Ht/depth: 0 m
Description: Four E to W furrows visible as irregular grass marks. The grass was not suitable for the formation of clear parch marks and more furrows should be visible under better conditions. Some of the furrows have slight hollows along part of their lengths			
Relationships: Cut by drains. Contemporary with TQ 2780 NW 026			
Interpretation: Medieval ridge-and-furrow cultivation			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 NW	
Feature no: 059		NGR: TQ 2741 8070	
Feature type: Bank		Length: 141.0 m	
Width: 16.0m max.	Diam:	Ht/depth: 0.65 m max	
<p>Description: A broad low bank running SSW to NNE. It is well defined at the S end and the E side is the highest. Further N it seems to have been levelled, surviving as a broader shallower feature no more then 0.2m high. At the N end a linear hollow 21m by 5m and 0.15m deep runs along the middle of the bank, which here slopes gently to the W, and the bank turns W to become a narrower bank which runs along the S side of ditch TQ 2780 NW 056</p>			
<p>Relationships: Cut by drains. Contemporary with TQ 2780 NW 053 to 057</p>			
<p>Interpretation: Medieval field boundary</p>			

		OS Sheet: TQ 2780 NW	
Feature no: 060		NGR: TQ 2738 8064	
Feature type: Ditch		Length: 43.0 m	
Width: 10.0 m	Diam:	Ht/depth: 0.15 m	
<p>Description: A shallow ditch running alongside bank TQ 2780 NW 059 on its W side</p>			
<p>Relationships: Contemporary with TQ 2780 NW 053 to 057 and 059</p>			
<p>Interpretation: Ditch to medieval field boundary TQ 2780 NW 059</p>			

HYDE PARK Features Catalogue	OS Sheet: TQ 2780 SE	
Feature no: 001	NGR: TQ 2750 8035	
Feature type: Scarp	Length: 15.0m	
Width: 1.1 m	Diam:	Ht/depth: 0.1m
Description: Slight scarp running N to S		
Relationships: Cuts TQ 2780 SW 015		
Interpretation: Unknown		

	OS Sheet: TQ 2780 SE	
Feature no: 002	NGR: TQ 2756 8035	
Feature type: Furrow	Length: 47.0m	
Width: 0.4m	Diam:	Ht/depth: 0.1m
Description: Very slight straight linear furrow		
Relationships: Parallel to TQ 2780 SE 010		
Interpretation: Uncertain		

	OS Sheet: TQ 2780 SE	
Feature no: 003	NGR: TQ 2752 8033	
Feature type: Ditch	Length: 38.0m	
Width: 3.0m max	Diam:	Ht/depth:
Description: A well-defined strip of lush grass in an area of parching, with occasional very slight scarps at the edges in places along its line		
Relationships: None		
Interpretation: Possibly the course of a former path		

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 004		NGR: TQ 2751 8048	
Feature type: Ridge-and-furrow		Length: 24.5 m	
Width: 1.2 m	Diam:	Ht/depth: 0.0 m	
Description: Three irregular strips of lush grass 5.5 m apart			
Relationships: Parallel to TQ 2780 NE 027. On the same alignment as lynchets TQ 2780 SE 019, 020 and 022, all to the S			
Interpretation: Medieval ridge-and-furrow cultivation			

		OS Sheet: TQ 2780 SE	
Feature no: 005		NGR: TQ 2755 8049	
Feature type: Parch mark		Length: 22.0m	
Width: 2.3m	Diam:	Ht/depth:	
Description: A parch mark extending W from a break in the anti-glider trench TQ 2780 NE 029			
Relationships: Overlies TQ 2780 NE 029			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 006		NGR: TQ 2758 8027	
Feature type: Bank		Length: 210.0m	
Width: 3.0m	Diam:	Ht/depth: 0.2m	
Description: A long low bank, running NW to SE in a fairly straight line, with a rounded profile and consistent in width. It is broken in places by paths and trees. A strip of green grass runs along part of the NE side, whereas much of the adjacent area is parched: this may be an associated ditch			
Relationships: TQ 2780 SE 032 may be a continuation of this feature. Cut by TQ 2780 SE 021 and TQ 2780 SW 016. Cuts TQ 2780 SE 007, 008 and 012. It possibly overlies TQ 2780 SE 009 but the relationship is unclear			
Interpretation: Probably a disused path. perhaps one of those shown on the Wise plan of c. 1706 and the lower of two depicted by Rhodes in 1762			

HYDE PARK		OS Sheet: TQ 2780 SE	
Features Catalogue			
Feature no: 007		NGR: TQ 2751 8031	
Feature type: Ditch		Length: 23.0m	
Width: 3.5m max.		Diam:	Ht/depth: 0.2m max
Description: A ditch running WSW to ENE with a ridge on each side. The ridges are roughly 2m across and are additionally defined by parching. A second 'ditch' to the north of these is probably just caused by an adjacent tree hole			
Relationships: Cut by TQ 2780 SE 006 and possibly related to TQ 2780 SE 003			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 008		NGR: TQ 2753 8030	
Feature type: Ditch or furrow		Length: 35.0 m	
Width: 4.0 m		Diam:	Ht/depth: 0.15 m
Description: A ditch or furrow running NW to SE with a ridge, 6.0 m wide, to the SW. Parching also suggests the trace of a ridge NE of the ditch			
Relationships: Cut by TQ 2780 SE 006			
Interpretation: Possible medieval ridge-and-furrow cultivation (tentative)			

		OS Sheet: TQ 2780 SE	
Feature no: 009		NGR: TQ 2755 8028	
Feature type: Scarps		Length: 61.0 m	
Width: 4.0 m max		Diam:	Ht/depth: 0.15 m
Description: A shallow scarp running N to S for 37.0m then turning a right-angle to run W for a further 24.0 m. The N to S section has a strip of lush grass running along its E side, suggesting a ditch. The E to W section shows more as a ditch with a rounded western terminal and is broken by a narrow causeway, 0.8 m wide, which continues NE as very slight scarps and parch marks			
Relationships: Possibly overlain by TQ 2780 SE 006 and cut by TQ 2780 SE 021. Possibly contemporary with TQ 2780 SE 038, 040 and 042			
Interpretation: This may be the south-eastern corner of a tree-lined enclosure, attached to the west side of the Ring enclosure, depicted on the Wise plan of c. 1706 and the Rhodes plan of 1762			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 010		NGR: TQ 2757 8036	
Feature type: Ditch		Length: 24.0m	
Width: 1.9-3.8m	Diam:	Ht/depth: 0.2m	
Description: A short straight length of shallow ditch aligned E to W			
Relationships: None			
Interpretation: Possibly a former path: one is shown in a similar location on the Greenwood plan of 1827			

		OS Sheet: TQ 2780 SE	
Feature no: 011		NGR: TQ 2759 8036	
Feature type: Track/parchmarks		Length:	
Width: 3-4.4m	Diam:	Ht/depth: 0.2m	
Description: A low bank-like feature following a curving path echoing the shape of the present path W of the Reservoir. Its NW section survives as a parchmark only			
Relationships: None			
Interpretation: A former track or path around the site of the Ring Tea House (demolished 1968) shown on the Ordnance Survey 5ft to the mile map of 1938. The shape and position of this feature suggest that it partially preserves the perimeter of the Ring itself			

		OS Sheet: TQ 2780 SE	
Feature no: 012		NGR: TQ 2757 8029	
Feature type: Scarp		Length: 25.0m	
Width: 3.0m	Diam:	Ht/depth: 0.2m	
Description: A gradual but fairly well defined slope running NW to SE with its N end curving slightly to the E			
Relationships: Cut by TQ 2780 SE 006			
Interpretation: Possibly a ploughing lynchet			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 013		NGR: TQ 2751 8040	
Feature type: Scarp		Length: 54.0m	
Width: 3.7m		Diam:	Ht/depth: 0.2m max
Description: A scarp extending roughly S from the E tip of TQ 2780 SW 062. Its central stretch reaches a maximum height of 0.2 m but it fades to the N and divides into two faint scarps at its S end			
Relationships: See also TQ 2780 SE 014, 019, 020, 022 and 031			
Interpretation: One of a series of erosion scars associated with the slight, seasonal shifting of a trackway into the Ring, along this line shown on the Wise plan of c. 1706			

		OS Sheet: TQ 2780 SE	
Feature no: 014		NGR: TQ 2779 8034	
Feature type: Furrows		Length: 11.0 - 35.0m	
Width:		Diam:	Ht/depth: 0.1m
Description: A block of at least 12 slight linear parallel furrows. Individual furrows average 25.0m to 35.0m in length, although some appear to be much shorter. They are regularly spaced about 2.0m apart, separated by slight ridges			
Relationships: None			
Interpretation: Possibly marks left from the removal of sill beams/dwarf walls of two military buildings shown in this position on air photographs of 1944-5			

		OS Sheet: TQ 2780 SE	
Feature no: 015		NGR: TQ 2751 8028	
Feature type: Scarps		Length: 10.0m	
Width: 5.0m		Diam:	Ht/depth: 0.2m
Description: A shallow hollow or short channel running WNW to ESE. The S scarp curves round to join TQ 2780 SE 016			
Relationships: None			
Interpretation: Unknown			

HYDE PARK Features Catalogue	OS Sheet: TQ 2780 SE	
Feature no: 016	NGR: TQ 2750 8027	
Feature type: Scarp	Length: 22.0m	
Width: 6.0m max	Diam:	Ht/depth: 0.2m
Description: A broad scarp running E to W		
Relationships: The E end curving round into TQ 2780 SE 015		
Interpretation: Unknown		

	OS Sheet: TQ 2780 SE	
Feature no: 017	NGR: TQ 2751 8025	
Feature type: Ditch	Length: 26.0m	
Width: 4.0m	Diam:	Ht/depth: 0.15m
Description: A shallow ditch running SW to NE, disturbed by trees at the NE end		
Relationships: None		
Interpretation: Unknown		

	OS Sheet: TQ 2780 SE	
Feature no: 018	NGR: TQ 2752 8024	
Feature type: Scarp	Length: 12.0m	
Width: 3.0m	Diam:	Ht/depth: 0.1m
Description: A shallow scarp running SW to NE		
Relationships: None		
Interpretation: Unknown		

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 019		NGR: TQ 2752 8040	
Feature type: Scarp		Length: 27.5m	
Width: 1.0m	Diam:	Ht/depth: 0.1m	
Description: A very faint scarp aligned N to S			
Relationships: See also TQ 2780 SE 013, 020, 022 and 031			
Interpretation: One of a series of erosion scars associated with the slight, seasonal shifting of a trackway into the Ring, along this line shown on the Wise plan of c. 1706			

		OS Sheet: TQ 2780 SE	
Feature no: 020		NGR: TQ 2752 8045	
Feature type: Scarp		Length: 51.0m	
Width: 2.4m	Diam:	Ht/depth: 0.3m	
Description: A faint scarp aligned N to S			
Relationships: See also TQ 2780 SE 013, 019, 022 and 031			
Interpretation: One of a series of erosion scars associated with the slight, seasonal shifting of a trackway into the Ring, along this line shown on the Wise plan of c. 1706			

		OS Sheet: TQ 2780 SE	
Feature no: 021		NGR: TQ 2761 8027	
Feature type: Scarp		Length: 16.5m	
Width: 2.0m max	Diam:	Ht/depth: 0.2m	
Description: A scarp running SSW to NNE, at the E edge of a slightly raised area, defined to the west by TQ 2780 SE 012			
Relationships: Cuts TQ 2780 SE 006 and is possibly related to TQ 2780 SE 025 and 029			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 022		NGR: TQ 2753 8040	
Feature type: Scarp		Length: 68.0m	
Width: 2.0m	Diam:	Ht/depth: 0.2m	
Description: An abraded scarp aligned N to S			
Relationships: See also TQ 2780 SE 013, 019, 020 and 031			
Interpretation: One of a series of erosion scars associated with the slight, seasonal shifting of a trackway into the Ring, along this line shown on the Wise plan of c. 1706			

		OS Sheet: TQ 2780 SE	
Feature no: 023		NGR: TQ 2762 8025	
Feature type: Parchmarks		Length: 22.0m max	
Width: 1.4m max	Diam:	Ht/depth: 0.1m	
Description: Two parallel linear parchmarks running along the top of the natural slope NW to SE, nearly parallel to TQ 2780 SE 006			
Relationships:			
Interpretation: Possibly remains of ridge-and-furrow cultivation (tentative)			

		OS Sheet: TQ 2780 SE	
Feature no: 024		NGR: TQ 2757 8025	
Feature type: Bank		Length: 16.0m	
Width: 6.0m	Diam:	Ht/depth: 0.2m max	
Description: A narrow bank running N to S downhill. At the N end it merges with the hill slope but it has a well defined rounded S end			
Relationships: Possibly related to TQ 2780 SE 027			
Interpretation: Possibly, together with TQ 2780 SE 027, defined the edge of a plantation shown on Greenwood's map of 1827			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 025		NGR: TQ 2759 8023	
Feature type: Scarp		Length: 15.0m	
Width: 2.0m	Diam:	Ht/depth: 0.15m	
Description: An irregular shallow scarp running SW to NE			
Relationships: Possibly cut by TQ 2780 SE 028. Possibly related to TQ 2780 SE 029 and 021			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 026		NGR: TQ 2761 8023	
Feature type: Scarp		Length: 20.0m	
Width: 4.0m max.	Diam:	Ht/depth: 0.2m	
Description: A gradual curving scarp running NW to SE. In combination with TQ 2780 SE 025 it forms a rounded V-shaped feature			
Relationships: Possibly related to TQ 2780 SE 025			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 027		NGR: TQ 2757 8023	
Feature type: Scarp		Length: 45.0m	
Width: 0.5m	Diam:	Ht/depth: 0.1m	
Description: A narrow but fairly well defined scarp running nearly N to S down the natural slope. The S end curves to the E but this may just be due to a tree-hole. Most of the scarp is very straight and it was parched at the time of survey			
Relationships: Possibly related to TQ 2780 SE 024			
Interpretation: Possibly, together with TQ 2780 SE 027, defined the edge of a plantation shown on Greenwood's map of 1827			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 028		NGR: TQ 2762 8021	
Feature type: Scarp		Length: 132.0m	
Width: 5.0m max.	Diam:	Ht/depth: 0.2m max.	
Description: A linear feature running WNW to ESE, well defined on its S side by a scarp, the N side defined by a narrow terrace between the scarp and the natural slope. The E end is less distinct, defined in places by slight gullies 0.35m wide and 0.1 m deep, until it fades away			
Relationships: The W end is cut by/merges with TQ 2780 SE 025 and 026			
Interpretation: Possibly one of several paths shown on this line on the Wise palm of c. 1706			

		OS Sheet: TQ 2780 SE	
Feature no: 029		NGR: TQ 2758 8022	
Feature type: Scarp		Length: 38.0m	
Width: 2.0m	Diam:	Ht/depth: 0.15m	
Description: A scarp running SSW to NNE, the S end curving to the E			
Relationships: Possibly once continuous with TQ 2780 SE 025 and perhaps 021. Possibly cut by TQ 2780 SE 028			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 030		NGR: TQ 2765 8221	
Feature type: Mound		Length: 26.0m	
Width: 21.0m	Diam:	Ht/depth: 0.3m	
Description: A low, near circular mound with tree-holes on its slopes but not its summit. The mound appears to be disturbed by short drainage trenches or vehicle tracks up to 12.0 m long, which run down and off the sides			
Relationships: TQ 2780 SE 028 appears to skirt the S edge of the mound. Apparently overlies TQ 2780 SE 033			
Interpretation: An ornamental tree planting mound. A circular, fenced clump is depicted here on Ordnance Survey 25 inch maps of 1869, 1897 and the 5ft to the mile map of 1938. A larger rectangular plantation is shown on the Greenwood map of 1827			

HYDE PARK		OS Sheet: TQ 2780 SE	
Features Catalogue			
Feature no: 031		NGR: TQ 2754 8041	
Feature type: Scarp		Length: 68.5m	
Width: 1.1m		Diam:	Ht/depth: 0.2m
Description: An abraded discontinuous scarp aligned N to S			
Relationships: See also TQ 2780 SE 013, 019, 020 and 022			
Interpretation: One of a series of erosion scars associated with the slight, seasonal shifting of a trackway into the Ring, along this line shown on the Wise plan of c. 1706			

		OS Sheet: TQ 2780 SE	
Feature no: 032		NGR: TQ 2769 8019	
Feature type: Bank		Length: 24.0m	
Width: 4.0m		Diam:	Ht/depth: 0.15m
Description: A slight and rather disturbed low bank aligned NNW to SSE. It fades at the N end but has a rounded terminal on the S			
Relationships: None			
Interpretation: Possibly a continuation of TQ 2780 SE 006			

		OS Sheet: TQ 2780 SE	
Feature no: 033		NGR: TQ 2767 8020	
Feature type: Scarp		Length: 20.0m	
Width: 2.0m		Diam:	Ht/depth: 0.15m
Description: A slight scarp running NW to SE			
Relationships: Apparently overlain by the mound TQ 2780 SE 030			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 034		NGR: TQ 2761 8020	
Feature type: Scarp		Length: 53.0m	
Width: 1.4m	Diam:	Ht/depth: 0.1m	
Description: A slight scarp running WNW to ESE			
Relationships: None			
Interpretation: Possibly the edge of one of several tracks adopting this line on the approach to the Ring, as depicted on the Wise plan of c. 1706			

		OS Sheet: TQ 2780 SE	
Feature no: 035		NGR: TQ 2763 8017	
Feature type: Scarp		Length: 29.0m	
Width: 0.9m	Diam:	Ht/depth: 0.1m	
Description: A slight scarp aligned WNW to ESE			
Relationships: Parallel to TQ 2780 SE 036. Probably the same as TQ 2780 SE 037			
Interpretation: Probably the N of two avenues of trees shown on the Wise plan of c. 1706 and Rhodes' map of 1762, a single avenue on the Rocque plan of 1746 and Ordnance Survey 25 inch maps of 1869 and 1897			

		OS Sheet: TQ 2780 SE	
Feature no: 036		NGR: TQ 2766 8015	
Feature type: Scarp		Length: 210.0m	
Width: 4.0m max.	Diam:	Ht/depth: 0.2m max.	
Description: A long scarp aligned WNW to ESE, disturbed and indistinct in places			
Relationships: Related to TQ 2780 SE 035 and 037			
Interpretation: Probably the S of two avenues of trees shown on the Wise plan of c. 1706 and Rhodes' map of 1762, a single avenue on the Rocque plan of 1746 and Ordnance Survey 25 inch maps of 1869 and 1897			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 037		NGR: TQ 2770 8015	
Feature type: Scarp		Length: 44.0m	
Width: 4.0m max.	Diam:	Ht/depth: 0.2m max.	
Description: A scarp running WNW to ESE			
Relationships: Probably the same as TQ 2780 SE 035. Parallel to TQ 2780 SE 036			
Interpretation: See TQ 2780 SE 035			

		OS Sheet: TQ 2780 SE	
Feature no: 038		NGR: TQ 2754 8046	
Feature type: Scarp		Length: 31.0m	
Width: 3.5m	Diam:	Ht/depth: 0.1m	
Description: A very abraded scarp extending N to S			
Relationships: Possibly the same as TQ 2780 SE 040 and TQ 2780 NE 034. Parallel to TQ 2780 SE 031			
Interpretation: Coincides with the W edge of the outer enclosure of the Ring, as depicted on the Wise plan of c. 1706			

		OS Sheet: TQ 2780 SE	
Feature no: 039		NGR: TQ 2778 8032	
Feature type: Scarp		Length: 33.0m	
Width: 2.4m	Diam:	Ht/depth: 0.2m	
Description: A scarp running NE to SW			
Relationships: None			
Interpretation: Possibly the S edge of a platform supporting two military buildings shown on air photographs of 1944-5			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 040		NGR: TQ 2755 8042	
Feature type: Scarp		Length: 17.5m	
Width: 1.1m	Diam:	Ht/depth: 0.2m	
Description: An abraded scarp extending N to S			
Relationships: Possibly the same as TQ 2780 SE 038 and TQ 2780 NE 034. Parallel to TQ 2780 SE 031			
Interpretation: See TQ 2780 SE 038			

		OS Sheet: TQ 2780 SE	
Feature no: 041		NGR: TQ 2779 8031	
Feature type: Ditch		Length: 10.0m	
Width: 1.0m	Diam:	Ht/depth: 0.2m	
Description: A N to-S ditch, with faint traces of a right angled turn to the W at the S end			
Relationships: None			
Interpretation: Possibly marks the corner of a military building shown on air photographs of 1944-5			

		OS Sheet: TQ 2780 SE	
Feature no: 042		NGR: TQ 2763 8048	
Feature type: Bank		Length: 132.0m	
Width: 10.0m-13.0m	Diam:	Ht/depth: 0.2m	
Description: An abraded discontinuous low bank 0.2m high, surmounted by an avenue of 15 mature trees and at least 13 tree extraction holes			
Relationships: At right angles to TQ 2780 SE 027 and 038			
Interpretation: A bank formerly supporting trees, the N boundary of the outer enclosure of the Ring, depicted on the Wise plan of c. 1706, Rhodes map of 1762 and still apparent on the Ordnance Survey 25 inch plan of 1869			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 043		NGR: TQ 2774 8022	
Feature type: Ditches		Length: 10.0m	
Width: 1.9m	Diam:	Ht/depth: 0.1m	
Description: Two slight parallel ditches, 5.0m apart, running SW to NE downhill			
Relationships: None			
Interpretation: Possibly the remains of Second World War military buildings shown in this area on air photographs of 1944-5			

		OS Sheet: TQ 2780 SE	
Feature no: 044		NGR: TQ 2765 8026	
Feature type: Ditch		Length: 36.0m	
Width: 1.4m	Diam:	Ht/depth: 0.1m	
Description: A slight ditch running NW to SE diagonally downhill, visible largely as a grass mark but in places as a slight channel			
Relationships: None			
Interpretation: Possibly a faint trace of one of several former tracks approaching the Ring, as shown on the Wise plan of c. 1706			

		OS Sheet: TQ 2780 SE	
Feature no: 045		NGR: TQ 2766 8049	
Feature type: Scarp		Length: 32.0m	
Width: 1.9m	Diam:	Ht/depth: 0.3m	
Description: Two contiguous scarps extending in a shallow curve from E to W			
Relationships: Define a shallow depression around the mound TQ 2780 SE 050			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 046		NGR: TQ 2783 8028	
Feature type: Ditch		Length: 33.0m	
Width: 1.5m	Diam:	Ht/depth: 0.2m	
Description: A ditch running NW to SE			
Relationships:			
Interpretation: Marks the course of a fence defining the E edge of a military compound on air photographs of 1947			

		OS Sheet: TQ 2780 SE	
Feature no: 047		NGR: TQ 2782 8030	
Feature type: Grassmark		Length:	
Width:	Diam: 5.0m	Ht/depth:	
Description: A slightly oval parchmark ring			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 048		NGR: TQ 2782 8014	
Feature type: Scarp		Length: 18.0m	
Width: 2.0m	Diam:	Ht/depth: 0.2m	
Description: A scarp running roughly N to S, its S end curving E			
Relationships: Possibly associated with TQ 2780 SE 049			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 049		NGR: TQ 2783 8015	
Feature type: Ditch		Length: 25.0m	
Width: 2.6m	Diam:	Ht/depth: 0.25m max.	
Description: A semi-circular ditch divided into two segments by a narrow causeway. The N side of the ditch is most prominent			
Relationships: May be related to TQ 2780 SE 048			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 050		NGR: TQ 2766 8049	
Feature type: Mound		Length: 14.3m	
Width: 5.6m	Diam:	Ht/depth: 0.2m	
Description: An elliptical mound aligned SW to NE			
Relationships: See TQ 2780 SE 045			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 051		NGR: TQ 2785 8028	
Feature type: Mound		Length:	
Width:	Diam: 5.0m	Ht/depth: 0.2m	
Description: A low, circular mound			
Relationships: None			
Interpretation: Probably a tree planting mound			

HYDE PARK		OS Sheet: TQ 2780 SE	
Features Catalogue			
Feature no: 052		NGR: TQ 2790 8009	
Feature type: Path		Length: 209.0m	
Width: 7.0m max.		Diam:	Ht/depth: 0.35m max.
Description: A grassed-over path running SW to NE, the N side marked by a scarp			
Relationships: None			
Interpretation: A disused path, in use in the twentieth century			

		OS Sheet: TQ 2780 SE	
Feature no: 053		NGR: TQ 2761 8045	
Feature type: Scarp		Length: 9.3m	
Width: 0.8m		Diam:	Ht/depth: 0.1m
Description: A very slight scarp aligned N to S			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 054		NGR: TQ 2798 8007	
Feature type: Scarp		Length: 60.0m	
Width: 1.5m max.		Diam:	Ht/depth: 0.2m max.
Description: A slight, gently curving scarp aligned SSW to NNE			
Relationships: See TQ 2780 SE 055			
Interpretation: Probably represents the course of a pathway around the seating area of the bandstand, shown on the Ordnance Survey 25 inch map of 1897			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 055		NGR: TQ 2800 8009	
Feature type: Scarp		Length: 45.0m	
Width: 5.0m	Diam:	Ht/depth: 0.3m	
Description: A broad scarp aligned SW to NE			
Relationships: Related to TQ 2780 SE 054			
Interpretation: A terracing scarp for the seating area of the bandstand, shown on the Ordnance Survey 25 inch map of 1897			

		OS Sheet: TQ 2780 SE	
Feature no: 056		NGR: TQ 2786 8030	
Feature type: Mound		Length:	
Width:	Diam: 10.0m	Ht/depth: 0.2m	
Description: At TQ 2785 8030 scarp TQ 2780 SE 058 forms a semi-circular bulge 0.4m high. Below this, immediately to the E, is a less prominent flat-topped mound which has a circular appearance on the ground			
Relationships: See TQ 2780 SE 058			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 057		NGR: TQ 2787 8055	
Feature type: Scarp		Length: 115.0m	
Width: 4.5m	Diam:	Ht/depth: 1.7m	
Description: A strong scarp diverging from the N of the Serpentine dam TQ 2779 NE 001 and extending for c. 55m: this forms a terrace for the Serpentine Road. The scarp then loops to the S and then returns to the NE			
Relationships: Possibly the same as TQ 2780 SE 060			
Interpretation: Partly terracing for the Serpentine Road but the general uneven nature of the scarp might suggest former gravel quarrying			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 058		NGR: TQ 2785 8033	
Feature type: Scarp		Length: 180.0m	
Width: 2.0 - 4.0m		Diam:	Ht/depth: 0.5m
Description: An E-facing scarp running N to S. At TQ 2787 8035, the scarp bulges in a prominent loop to the E and is overlain by the existing path; elsewhere the scarp respects the park compartments quite closely			
Relationships: See TQ 2780 SE 056			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 059		NGR: TQ 2788 8002	
Feature type: Scarp		Length: 34.0m	
Width: 4.6m max		Diam:	Ht/depth: 0.2m
Description: A scarp curving gently from N to SE			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SE	
Feature no: 060		NGR: TQ 2797 8001	
Feature type: Scarp		Length: 33.0m	
Width: 2.1m		Diam:	Ht/depth: 2.1m
Description: A scarp running E to W parallel to the Serpentine Road for 22.0m, then bending S into the base of mound TQ 2879 NW 003			
Relationships: Possible continuation of TQ 2780 SE 057			
Interpretation: See TQ 2780 SE 057			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 061		NGR: TQ 2797 8040	
Feature type: Parchmarks		Length: 157.0m	
Width: 4.5m	Diam:	Ht/depth:	
Description: Two parallel parchmarks, oriented NW to SE, each 1.5m wide and set 1.5m apart			
Relationships: Apparently cut by TQ 2780 SE 062 but unlikely			
Interpretation: Uncertain but possibly recent as it continues into the area top-stripped for the modern underground car park			

		OS Sheet: TQ 2780 SE	
Feature no: 062		NGR: TQ 2797 8035	
Feature type: Grassmark		Length: 47.0m	
Width: 1.5m	Diam:	Ht/depth:	
Description: A linear band of lush grass oriented E to W, in an area of parching			
Relationships: None			
Interpretation: A Second World War anti-glider trench shown on air photographs of 1941			

		OS Sheet: TQ 2780 SE	
Feature no: 063		NGR: TQ 2796 8035	
Feature type: Grassmark		Length: 50.0m	
Width: 30.0m	Diam:	Ht/depth:	
Description: A roughly rectangular area of parching with a 'tongue', 15.0m long and 2.0m wide, on the S side up to the existing path			
Relationships: None			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SE	
Feature no: 064		NGR: TQ 2798 8034	
Feature type: Ditches		Length: 17.0m	
Width: 8.0m	Diam:	Ht/depth: 0.1m	
Description: Fragmentary remains of slight linear trenches. originally forming a ladder-like arrangement of contiguous rectangles aligned NNW to SSE			
Relationships: Cut and by TQ 2780 SE 062			
Interpretation: Shown more clearly on air photographs of 1941, the remains of air-raid shelters of pre-1941 date, of the open trench type dug probably following the Munich Crisis in 1938			

		OS Sheet: TQ 2780 SE	
Feature no: 065		NGR: TQ 2788 8039	
Feature type: Grassmark		Length: 37.0m	
Width: 34.0m	Diam:	Ht/depth:	
Description: An irregular parchmark, crossed by as narrow trench aligned NW to SE			
Relationships: None			
Interpretation: The trench may be an anti-glider trench visible on air photographs of 1941			

		OS Sheet: TQ 2780 SE	
Feature no: 066		NGR: TQ 2798 1827	
Feature type: Scarp		Length: 18.0m	
Width: 1.2m	Diam:	Ht/depth: 0.1m	
Description: A scarp aligned NE to SW, with a slight return to the NW at the W end			
Relationships: None			
Interpretation: Part of an anti-glider trench visible on air photographs of 1941			

HYDE PARK Features Catalogue	OS Sheet: TQ 2780 SW	
Feature no: 012	NGR: TQ 2705 8017	
Feature type: Scarp	Length: 175.0m	
Width: 7.0m max	Diam:	Ht/depth: 3.0m max
Description: A very strong scarp SW of the Triangle Car Park, along the edge of the Serpentine up to Serpentine Bridge.		
Relationships: Same as TQ 2680 SE 011 on the W side of Serpentine Bridge		
Interpretation: A natural slope in origin, probably cut back and sharpened during landscaping works for the Serpentine		

	OS Sheet: TQ 2780 SW	
Feature no: 013	NGR: TQ 2749 8035	
Feature type: Scarps	Length: 42.0 m	
Width: 5.0 m	Diam:	Ht/depth: 0.35m overall
Description: A series of disturbed, indistinct scarps which seem to form a narrow terrace or pathway. The main scarp is relatively broad at its W end and 0.25 m high but towards the E it is shallower and more disturbed, ending as a parchmark. To the N a slighter scarp, 0.1 m high, runs parallel to the first for 15.0 m before turning N at its E end		
Relationships: Cut by TQ 2780 SE 001		
Interpretation: Uncertain but possibly course of a former path		

	OS Sheet: TQ 2780 SW	
Feature no: 014	NGR: TQ 2743 8031	
Feature type: Mound	Length: 24.5m	
Width: 8.0m	Diam:	Ht/depth:
Description: Flat-topped parallel sided linear mound		
Relationships: See also TQ 2780 SW 015		
Interpretation: A modern screening mound for Ranger's Cottage and Ranger's Lodge		

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SW	
Feature no: 015		NGR: TQ 2743 8028	
Feature type: Mound		Length: 26.0m	
Width: 10.6-13.0m	Diam:	Ht/depth:	
Description: Flat topped earthen mound broadening from N to S			
Relationships: See also TQ 2780 SW 014			
Interpretation: A modern screening mound for Ranger's Cottage and Ranger's House			

		OS Sheet: TQ 2780 SW	
Feature no: 016		NGR: TQ 2747 8032	
Feature type: Scarps		Length: 17.0 m	
Width: 13.0 m	Diam:	Ht/depth: 0.2 m max	
Description: Slight scarps, 0.1m high, forming a rectangular hollow with an uneven interior. Along the S side of the hollow is a low bank 0.15 m high and up to 3.0 m wide			
Relationships: Cuts TQ 2780 SE 006 and possibly TQ 2780 SE 017			
Interpretation: Uncertain but possibly the sit of a temporary building			

		OS Sheet: TQ 2780 SW	
Feature no: 017		NGR: TQ 2746 8031	
Feature type: Scarp		Length: 15.0 m	
Width: 2.2 m max	Diam:	Ht/depth: 0.25 max	
Description: A well defined scarp creating the rounded corner of a level platform			
Relationships: Possibly cut by TQ 2780 SW. 016			
Interpretation: Uncertain but possibly spoil from TQ 2780 SW 016 or an earlier feature cut by it			

HYDE PARK		OS Sheet: TQ 2780 SW	
Features Catalogue			
Feature no: 018		NGR: TQ 2749 8031	
Feature type: Tree hole		Length:	
Width:	Diam: 7.0m	Ht/depth: 0.1m	
Description: A near-circular hollow with shallow sides and an uneven floor			
Relationships: None			
Interpretation: Probably a large tree hole			

		OS Sheet: TQ 2780 SW	
Feature no: 019		NGR: TQ 2748 8029	
Feature type: Scarp		Length: 23.0 m max	
Width: 2.0 m max	Diam:	Ht/depth: 0.15m max	
Description: A series of short, roughly parallel scarps running NW to SE and disturbed by trees			
Relationships: None			
Interpretation: Possible remains of ridge-and-furrow cultivation but this interpretation is tentative			

		OS Sheet: TQ 2780 SW	
Feature no: 020		NGR: TQ 2748 8027	
Feature type: Hollow		Length: 12.0 m	
Width: 8.0 m	Diam:	Ht/depth: 0.2m	
Description: An irregular hollow			
Relationships:			
Interpretation: Possibly a large tree hole			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SW	
Feature no: 021		NGR: TQ 2725 8021	
Feature type: Scarp		Length: 38.0m	
Width: 0.5-9.5m		Diam:	Ht/depth: 0.1m
Description: A very slight long scarp running N to S, W of the Cockpit			
Relationships: Cut by present path at its S end			
Interpretation: Possibly upcast quarry material			

		OS Sheet: TQ 2780 SW	
Feature no: 022		NGR: TQ 2716 8019	
Feature type: Scarp		Length: 18.5m	
Width: 5.9m		Diam:	Ht/depth: 9.2m
Description: A very slight and gradual fall, hardly portrayable as a scarp, extending N to S and truncated by a path at the N			
Relationships: See TQ 2780 SW 041			
Interpretation: Probably relates to the quarry TQ 2780 SW 041			

		OS Sheet: TQ 2780 SW	
Feature no: 023		NGR: TQ 2717 8017	
Feature type: Scarp		Length: 80.0m	
Width: 1.1m		Diam:	Ht/depth: 0.2m
Description: For most of its length, this scarp forms an embankment for a path but deviates at one point around a tree hole. The final 25m at the western end increases to 2.8m in width and represents a continuation of the quarry scarp TQ 2780 SW 041			
Relationships: See TQ 2780 SW 041			
Interpretation: The S edge of the quarry TQ 2780 SW 041 and an embankment for the present path			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SW	
Feature no: 024		NGR: TQ 2721 8018	
Feature type: Scarp		Length:	
Width:	Diam:	Ht/depth: 0.2m max	
Description: A confused area of slight irregular scarps and parch marks: part of an oval depression with traces of a surrounding bank is the only comprehensible element			
Relationships: Overlies the quarry TQ 2780 SW			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SW	
Feature no: 025		NGR: TQ 2724 8018	
Feature type: Parch mark		Length: 6.5m	
Width: 3.5m	Diam:	Ht/depth: 0.0m	
Description: An approximately rectangular parch mark aligned N to S with a suggestion of a lateral internal division. A contiguous mark projects from the NW corner for 2.3m and then runs parallel to the W side			
Relationships: Overlies the quarry TQ 2780 SW 041			
Interpretation: Uncertain but possibly a small building foundation			

		OS Sheet: TQ 2780 SW	
Feature no: 026		NGR: TQ 2724 8019	
Feature type: Hollow		Length: 6.9m	
Width: 2.5m	Diam:	Ht/depth: 0.1m	
Description: A very slight rectilinear depression in the shape of a backwards 'L' aligned N to S			
Relationships: Overlies the quarry TQ 2780 SW 041. Abutting TQ 2780 SW 027 on its E			
Interpretation: Probably a recent disturbance			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SW	
Feature no: 027		NGR: TQ 2725 8019	
Feature type: Parch mark		Length:	
Width:	Diam: 7.0m	Ht/depth:	
<p>Description: An almost circular parch mark with an almost central circular depression 1.8m in diameter, 0.1m deep. A parched line extends E from the outer circle for 8.2 m; a further rectilinear mark extends 16m to the SW with two angle changes</p>			
<p>Relationships: Abutting TQ 2780 SW 026 on its W</p>			
<p>Interpretation: Unknown</p>			

		OS Sheet: TQ 2780 SW	
Feature no: 028		NGR: TQ 2732 8017	
Feature type: Scarp		Length: 10.5m	
Width: 1.3m	Diam:	Ht/depth: 0.2m	
<p>Description: A scarp defining an acute corner. A square sandstone slab is set into the side of the scarp</p>			
<p>Relationships: None</p>			
<p>Interpretation: Unknown</p>			

		OS Sheet: TQ 2780 SW	
Feature no: 029		NGR: TQ 2737 8020	
Feature type: Scarp		Length:	
Width:	Diam:	Ht/depth:	
<p>Description: This area has evidently been heavily disturbed, with frequent but insignificant circular and linear depressions 0.1m deep max. Only the larger elements TQ 2780 SW 028, 030, 031 and 032 have been singled out</p>			
<p>Relationships:</p>			
<p>Interpretation: The disturbance is connected with the demolition of numerous features and buildings which formerly stood here: on the Wise plan of c. 1706 and the Rocque plan of 1746 three structures stood inside a ditched or moated enclosure. Subsequently, the Rangers enclosure extended south over this area (as shown on the Ordnance Survey 25 inch map of 1869), attached to which was the Receiving House of the Royal Humane Society</p>			

HYDE PARK		OS Sheet: TQ 2780 SW	
Features Catalogue			
Feature no: 030		NGR: TQ 2733 8020	
Feature type: Scarp		Length: 18.0m	
Width: 1.4m		Diam:	Ht/depth: 0.2m
Description: An irregular scarp extending N to S, its S tip adjacent to a 7.0m linear depression 0.1m deep, 1.5m wide on the same alignment			
Relationships: Part of TQ 2780 SW 029			
Interpretation: Disturbance			

		OS Sheet: TQ 2780 SW	
Feature no: 031		NGR: TQ 2739 8021	
Feature type: Scarp		Length: 14.5m	
Width: 2.1m		Diam:	Ht/depth: 0.2m
Description: An irregular scarp running roughly N to S, its N tip turning slightly to the W in relation to two shallow linear depressions			
Relationships: Part of TQ 2780 SW 029			
Interpretation: Disturbance			

		OS Sheet: TQ 2780 SW	
Feature no: 032		NGR: TQ 2739 8019	
Feature type: Scarps		Length: 16.5m	
Width: 2.6m		Diam:	Ht/depth: 0.2m
Description: A series of scarps defining a rectangular 38.0m N to S by 30.0m			
Relationships: Part of TQ 2780 SW 029			
Interpretation: The site of the former enclosure for the Receiving House of the Royal Humane Society			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SW	
Feature no: 033		NGR: TQ 2744 8023	
Feature type: Scarp		Length: 14.5m	
Width: 1.0m	Diam:	Ht/depth: 0.2m	
Description: A scarp extending W to E for 8.0m and then turning roughly a right angle to the S			
Relationships:			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SW	
Feature no: 034		NGR: TQ 2739 8025	
Feature type: Scarp		Length: 59.0m	
Width: 3.1m	Diam:	Ht/depth: 0.4m	
Description: A scarp defining the SE corner of a platform for Ranger's Cottage Garden. It extends for 46.0m along the S side, including an interruption caused by a tree, and turns N at its W end, fading out 13.0m along the W side			
Relationships: None			
Interpretation: A construction platform for the Victorian Ranger's Cottage			

		OS Sheet: TQ 2780 SW	
Feature no: 035		NGR: TQ 2726 8035	
Feature type: Terrace		Length: 20.0m	
Width: 7.5m	Diam:	Ht/depth: 0.4m	
Description: A small terrace cut into the natural E-facing slope			
Relationships: None			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SW	
Feature no: 036		NGR: TQ 2727 8032	
Feature type: Scarp		Length: 21.5m	
Width: 2.0m	Diam:	Ht/depth: 0.4m	
Description: Scarp running N to S along the contours of the natural hillslope			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SW	
Feature no: 037		NGR: TQ 2735 8022	
Feature type: Scarp		Length: 22.0m	
Width: 2.2m max	Diam:	Ht/depth: 0.2m	
Description: Small sinuous scarp running N to S at base of natural W-facing valley slope			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SW	
Feature no: 038		NGR: TQ 2744 8039	
Feature type: Hollow		Length: 27.0m	
Width: 4-7.0m	Diam:	Ht/depth: 0.2m	
Description: Slight linear hollow running NE to SW			
Relationships: See TQ 2780 SW 039; possibly the same feature truncated by the present pathway			
Interpretation: Possibly an earlier pathway			

HYDE PARK		OS Sheet: TQ 2780 SW	
Features Catalogue			
Feature no: 039		NGR: TQ 2746 8043	
Feature type: Hollow		Length: 34.0m	
Width: 9.0m	Diam:	Ht/depth: 0.2m	
Description: A broad, shallow linear hollow			
Relationships: See TQ 2780 SW 038			
Interpretation: See TQ 2780 SW 038			

		OS Sheet: TQ 2780 SW	
Feature no: 040		NGR: TQ 2728 8024	
Feature type: Scarp		Length: 30.0m	
Width: 1.0m	Diam:	Ht/depth: 0.1m	
Description: Slight scarp running N to S			
Relationships: None			
Interpretation: Uncertain			

		OS Sheet: TQ 2780 SW	
Feature no: 041		NGR: TQ 2717 8023	
Feature type: Quarry		Length:	
Width:	Diam: 90-109.0m	Ht/depth: 0.2-3.5m	
Description: A large crescentic quarry known as the Cockpit. The quarry is cut back into the slope from S to N. The sides are now moderate slopes which have been landscaped and many trees and tree holes are evident. The interior undulates very slightly.			
Relationships: See TQ 2780 SW 022, 023 and 042			
Interpretation: A former gravel quarry, now landscaped. Shown on Rhodes' map of Kensington parish, 1762, and may have been one of the sources of gravel for the development of Kensington Gardens in the first third of the eighteenth century			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SW	
Feature no: 042		NGR: TQ 2717 8024	
Feature type: Platform		Length: 13.0	
Width: 5.0	Diam:	Ht/depth: 0.6m	
Description: A slight platform situated centrally to the slope of the Cockpit on the N side			
Relationships: See TQ 2780 SW 041			
Interpretation: Possibly the remnant of a working level in the quarry, perhaps subsequently adapted as an ornamental feature, a seat or arbour overlooking the Serpentine			

		OS Sheet: TQ 2780 SW	
Feature no: 043		NGR: TQ 2718 8021	
Feature type: Ditch		Length: 24.0m	
Width: 4.9m	Diam:	Ht/depth: 0.1m	
Description: Slight linear ditch or hollow aligned NW to SE in the floor of the Cockpit (TQ 2780 SW 041)			
Relationships: None			
Interpretation: Possibly an infilled drainage trench			

		OS Sheet: TQ 2780 SW	
Feature no: 044		NGR: TQ 2714 8026	
Feature type: Scarp		Length: 42.5m	
Width: 1.7m max	Diam:	Ht/depth: 0.2m	
Description: Slightly sinuous N to S scarp N of the Cockpit			
Relationships: None			
Interpretation: Uncertain			

HYDE PARK		OS Sheet: TQ 2780 SW	
Features Catalogue			
Feature no: 045		NGR: TQ 2733 8043	
Feature type: Scarp		Length: 42:0m	
Width: 7.0m	Diam:	Ht/depth: 0.45m	
Description: A scarp cut into natural hill slope, in two separate sections, forming a narrow terrace			
Relationships: Cut by drains			
Interpretation: Possibly a ploughing lynchet or southward extension of the medieval field boundary TQ 2780 NW 059			

		OS Sheet: TQ 2780 SW	
Feature no: 046		NGR: TQ 2735 8044	
Feature type: Scarp		Length: 45.0m	
Width: 8.0m	Diam:	Ht/depth: 0.45m	
Description: A broad scarp running parallel to TQ 2780 SW 045			
Relationships: Cut by drain, probably contemporary with TQ 2780 SW 045			
Interpretation: Possibly a ploughing lynchet or southward extension of the medieval field boundary TQ 2780 NW 064			

		OS Sheet: TQ 2780 SW	
Feature no: 047		NGR: TQ 2735 8046	
Feature type: Scarp		Length: 7.0m	
Width: 1.0m	Diam:	Ht/depth: 0.1m	
Description: A low but fairly well defined scarp forming an L-shape on the E side of the valley bottom			
Relationships: Cuts TQ 2780 SW 046			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SW	
Feature no: 048		NGR: TQ 2714 8034	
Feature type: Hollow		Length: 13.0m	
Width: 4.2m	Diam:	Ht/depth: 0.2m	
Description: A sausage-shaped hollow			
Relationships: None			
Interpretation: See TQ 2780 SW 049			

		OS Sheet: TQ 2780 SW	
Feature no: 049		NGR: TQ 2713 8034	
Feature type: Hollow		Length: 8.2m	
Width: 6.5m	Diam:	Ht/depth: 0.2m	
Description: An irregular hollow			
Relationships: None			
Interpretation: This hollow lies close to the centre of a circular plantation shown on the Ordnance Survey 25 inch map of 1869. The removal of these trees may have caused the general disturbance in the area			

		OS Sheet: TQ 2780 SW	
Feature no: 050		NGR: TQ 2710 8037	
Feature type: Hollow		Length: 23.0m	
Width: 3.4m	Diam:	Ht/depth: 0.3m	
Description: A linear hollow running E to W, its S scarp turning S at its E end			
Relationships:			
Interpretation: See TQ 2780 SW 049			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SW	
Feature no: 051		NGR: TQ 2712 8038	
Feature type: Hollow		Length: 22.0m	
Width: 5.0m max	Diam:	Ht/depth: 0.3m	
Description: A T-shaped hollow			
Relationships: None			
Interpretation: See TQ 2780 SW 049			

		OS Sheet: TQ 2780 SW	
Feature no: 052		NGR: TQ 2711 8034	
Feature type: Scarps		Length: 29.0m	
Width: 1.2-3.2m	Diam:	Ht/depth: 0.2m	
Description: A slight scarp, running NW to SE, broken by tree holes			
Relationships: None			
Interpretation: See TQ 2780 SW 049			

		OS Sheet: TQ 2780 SW	
Feature no: 053		NGR: TQ 2710 8033	
Feature type: Scarps		Length: 15.0m	
Width: 3.2m max	Diam:	Ht/depth: 0.3m	
Description: Two short scarps, meeting at a right angle			
Relationships: None			
Interpretation: See TQ 2780 SW 049			

HYDE PARK Features Catalogue		OS Sheet: TQ 2780 SW	
Feature no: 054		NGR: TQ 2709 8047	
Feature type: Enclosure		Length: 25.0m	
Width: 17.0m	Diam:	Ht/depth: 0.3m	
Description: A low bank up to 3.0m wide defining part of three sides of a rectangular enclosure. The SW part is not extant. The N half contains slight hollows and tree extraction holes			
Relationships: None			
Interpretation: Possibly the site of a small plantation shown here on the Ordnance Survey 25 inch map of 1869			

		OS Sheet: TQ 2780 SW	
Feature no: 055		NGR: TQ 2711 8042	
Feature type: Hollow		Length: 19.5m max	
Width: 4.0m max	Diam:	Ht/depth: 0.3m	
Description: A slight linear hollow			
Relationships: None			
Interpretation: Uncertain			

		OS Sheet: TQ 2780 SW	
Feature no: 056		NGR: TQ 2711 8040	
Feature type: Mound		Length: 10.5m	
Width: 7.0m	Diam:	Ht/depth: 0.2m	
Description: An amorphous earthen mound defined mainly on its W side by a curving scarp			
Relationships: None			
Interpretation: Unknown			

HYDE PARK		OS Sheet: TQ 2780 SW	
Features Catalogue			
Feature no: 057		NGR: TQ 2748 8022	
Feature type: Scarp		Length: 56.0m	
Width: 1.5-3.6m		Diam:	Ht/depth: 0.2m max
Description: A very slight, straight E to W scarp			
Relationships: None			
Interpretation: Uncertain			

		OS Sheet: TQ 2780 SW	
Feature no: 058		NGR: TQ 2746 8023	
Feature type: Scarp		Length: 50.0m	
Width: 1.9-3.8m		Diam:	Ht/depth: 0.4m max
Description: A wide shallow scarp running N to S approximately parallel to the modern path			
Relationships: Overlain by a mound TQ 2780 SW 059. See also TQ 2780 SW 060			
Interpretation: Possibly the course of an avenue of trees shown on the Rocque plan of 1746			

		OS Sheet: TQ 2780 SW	
Feature no: 059		NGR: TQ 2747 8020	
Feature type: Mound		Length: 15.3m	
Width: 8.0m		Diam:	Ht/depth: 0.3-0.8m
Description: An oval earthen mound with a central tree hole			
Relationships: Overlies TQ 2780 SW 058 and 060			
Interpretation: Probably a tree mound			

HYDE PARK		OS Sheet: TQ 2780 SW	
Features Catalogue			
Feature no: 060		NGR: TQ 2750 8020	
Feature type: Scarp		Length: 88.0m	
Width: 9.5m max		Diam:	Ht/depth: 0.6m
Description: A straight but split and fragmented gradual scarp running E to W parallel to the Serpentine E of Serpentine Lodge			
Relationships: Probably formerly continuous with TQ 2780 SE 035-037. Continuous with TQ 2780 SW 058			
Interpretation: Probably to be equated with two avenues of trees shown on the Wise plan of c. 1706 and Rhodes' map of 1762, and a single avenue on the Rocque plan of 1746			

		OS Sheet: TQ 2780 SW	
Feature no: 061		NGR: TQ 2706 8023	
Feature type: Scarp		Length: 45.0m	
Width: 28.0m		Diam:	Ht/depth: 1.5m
Description: A prominent crescentic and fairly steep scarp, open to the S, near Triangle Car Park. Its W side has been straightened alongside West Carriage Drive, but the remainder curves smoothly around to the E			
Relationships: None			
Interpretation: Possibly a former quarry			

		OS Sheet: TQ 2780 SW	
Feature no: 062		NGR: TQ 2749 8044	
Feature type: Scarp		Length: 23.0m	
Width: 26.0m		Diam:	Ht/depth: 0.1m
Description: A slight scarp extending approximately at right angles SW from the N tip of lynchet TQ 2780 SE 013, almost forming a corner			
Relationships: None			
Interpretation: Unknown			

HYDE PARK		OS Sheet: TQ 2780 SW	
Features Catalogue			
Feature no: 063		NGR: TQ 2749 8040	
Feature type: Scoop		Length: 2.8m	
Width: 3.2m		Diam:	Ht/depth: 0.2m
Description: A penannular scarp defining a slight hollow			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2780 SW	
Feature no: 064		NGR: TQ 2747 8036	
Feature type: Ditch		Length: 14.0m	
Width: 1.2m		Diam:	Ht/depth: 0.2m
Description: A short straight ditch			
Relationships: None			
Interpretation: Uncertain			

		OS Sheet: TQ 2780 SW	
Feature no: 065		NGR: TQ 2731 8020	
Feature type: Ponds (site of)		Length:	
Width:		Diam:	Ht/depth:
Description: No surface remains			
Relationships:			
Interpretation: Two cigar-shaped ponds, possibly fishponds, are shown in approximately this position on the Rocque plan of 1746. They were aligned N to S in series in the base of the Westbourne tributary valley			

HYDE PARK Features Catalogue		OS Sheet: TQ 2879 NW	
Feature no: 001		NGR: TQ 2805 7986	
Feature type: Scarp		Length: 57.0m	
Width: 1.7m	Diam:	Ht/depth: 0.3m max	
Description: An abraded discontinuous scarp extending E from the E end of hollow TQ 2779 NE 015 on the same alignment as the E half of scarp TQ 2879 NW 008. Seven tree holes lie roughly astride the scarp on the same alignment			
Relationships: Possibly the original continuation of scarp TQ 2879 NW 008. Probably cut by hollow TQ 2779 NE 015			
Interpretation: This scarp probably marks a former tree avenue			

		OS Sheet: TQ 2879 NW	
Feature no: 002		NGR: TQ 2817 7983	
Feature type: Scarp		Length: 200.0m	
Width: 13.0m max	Diam:	Ht/depth: 4.6m max	
Description: A broad, strong but discontinuous scarp, falling away from South Carriage Drive to the edge of Knightsbridge. It decreases from 4.6 m high at the W end to 1.9 m high at the E			
Relationships: Blends into the bank TQ 2779 NE 016, and cut by various structures			
Interpretation: This scarp creates a sharp drop in level at the edge of the park. It is possibly the result of terracing for South Carriage Drive and Knightsbridge			

		OS Sheet: TQ 2879 NW	
Feature no: 003		NGR: TQ 2801 7999	
Feature type: Mound		Length: 96.0m	
Width: 40.0m	Diam:	Ht/depth: 2.6m	
Description: A massive irregular mound. At its E end it decreases gently in height to form a 0.5 m high spur confined by paths			
Relationships: It is cut both by drains and a scarp for the construction of public toilets			
Interpretation: This feature is shown as a discrete plantation on the Ordnance Survey 25 inch map of 1878 and the mound may have been deliberately created for that purpose			

HYDE PARK Features Catalogue		OS Sheet: TQ 2879 NW	
Feature no: 004		NGR: TQ 2802 7992	
Feature type: Bank		Length:	
Width:	Diam: 8.0m	Ht/depth: 0.1m	
Description: A slight annular bank			
Relationships: None			
Interpretation: Remains of a former flowerbed			

		OS Sheet: TQ 2879 NW	
Feature no: 005		NGR: TQ 2805 7996	
Feature type: Scarp		Length: 13.3 m	
Width: 1.7 m	Diam:	Ht/depth: 0.1 m	
Description: A scarp running SW to NE parallel to existing flower beds			
Relationships: None			
Interpretation: Remains of a former flowerbed			

		OS Sheet: TQ 2879 NW	
Feature no: 006		NGR: TQ 2809 7998	
Feature type: Scarp		Length: 27.0m	
Width: 0.9 m	Diam:	Ht/depth: 0.2m	
Description: A scarp running N to SE parallel to an existing path, and defining the E edge of a rectangular parch mark, 7.9 m by 3.6 m			
Relationships: None			
Interpretation: Remains of a former flowerbed			

HYDE PARK Features Catalogue		OS Sheet: TQ 2879 NW	
Feature no: 007		NGR: TQ 2813 7996	
Feature type: Mound		Length: 52.0m	
Width: 31.0m	Diam:	Ht/depth: 0.4m max.	
Description: A low irregular mound aligned E to W defining the limits of an existing raised shrubbery			
Relationships: None but see TQ 2879 NW 010			
Interpretation: This feature is shown as a plantation on Greenwood's map of 1827, on the Ordnance Survey 25 inch map of 1878 and has remained so ever since. It may have been established by infilling a gravel quarry shown in the same position on Rhodes' plan of 1762 and possibly on the Rocque plan of 1746			

		OS Sheet: TQ 2879 NW	
Feature no: 008		NGR: TQ 2811 7986	
Feature type: Scarp		Length: 174.0m	
Width: 4.0m	Diam:	Ht/depth: 0.4m	
Description: A scarp extending along the N edge of South Carriage Drive, visible for 90 m as a broad gentle scarp up to 5.7 m wide, running under the tarmac parallel to Rotten Row (TQ 2779 NW 001). To the W it is visible as a sharper scarp 1.3 m wide running along the road edge, although the real continuation may be scarp TQ 2879 NW 001			
Relationships: See also scarp TQ 2879 NW 001			
Interpretation: A terrace for South Carriage Drive, perhaps re-using an earlier scarp connected with Rotten Row			

		OS Sheet: TQ 2879 NW	
Feature no: 009		NGR: TQ 2817 7994	
Feature type: Scarp		Length: 26.0m	
Width: 0.7m	Diam:	Ht/depth: 0.2m	
Description: A short, ephemeral scarp			
Relationships: Parallel to present path			
Interpretation: Possibly a former path edge			

HYDE PARK Features Catalogue		OS Sheet: TQ 2879 NW	
Feature no: 010		NGR: TQ 2814 7993	
Feature type: Uneven ground		Length:	
Width:	Diam:	Ht/depth:	
Description: An area c. 25m square of gently undulating ground			
Relationships: None			
Interpretation: Uncertain but possibly connected with the former extent of a plantation : see TQ 2879 NW 007			

		OS Sheet: TQ 2879 NW	
Feature no: 011		NGR: TQ 2820 7993	
Feature type: Scarp		Length: 47.0m	
Width: 7.0m max	Diam:	Ht/depth: 0.5m max.	
Description: A scarp, broadly aligned W to E, curving slightly to the N			
Relationships: None			
Interpretation: Probably connected with former gravel workings indicated here on the Rocque plan of 1746			

HYDE PARK Features Catalogue		OS Sheet: TQ 2880 NW	
Feature no: 001		NGR: TQ 2804 8050	
Feature type: Scarp		Length: 10.0m	
Width: 1.5m	Diam:	Ht/depth: 0.2m	
Description: A scarp running NE to SW			
Relationships: None			
Interpretation: Unknown (no archaeological significance)			

		OS Sheet: TQ 2880 NW	
Feature no: 002		NGR: TQ 2801 8052	
Feature type: Scarp		Length: 10.0m	
Width: 2.0m	Diam:	Ht/depth: 0.2m	
Description: A scarp running E to W			
Relationships: None			
Interpretation: Unknown (no archaeological significance)			

HYDE PARK Features Catalogue		OS Sheet: TQ 2880 SW	
Feature no: 001		NGR: TQ 2830 8000	
Feature type: Mound		Length:	
Width: 15.0m	Diam: 50.0m	Ht/depth: 1.6m	
Description: A mound falling away from Statue of Achilles			
Relationships:			
Interpretation: A platform built up for the construction of the Statue of Achilles in 1822			

		OS Sheet: TQ 2880 SW	
Feature no: 002		NGR: TQ 2821 8006	
Feature type: Grassmarks		Length: 25.0m	
Width: 25.0m	Diam:	Ht/depth:	
Description: Two parallel linear parchmarks running NW to SE			
Relationships: None			
Interpretation: Probably infilled drainage trenches: no archaeological significance			

		OS Sheet: TQ 2880 SW	
Feature no: 003		NGR: TQ 2820 8007	
Feature type: Scarp		Length: 26.0m	
Width: 2.5m	Diam:	Ht/depth: 0.2m	
Description: A faint scarp running NNW to SSE			
Relationships: Cut by a line of three tree-holes			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2880 SW	
Feature no: 004		NGR: TQ 2824 8003	
Feature type: Bank		Length: 57.0m	
Width: 3.2m	Diam:	Ht/depth: 0.3m	
Description: A faint scarp running NNW to SSE			
Relationships: Parallel to the present path			
Interpretation: A planting bank supporting a line of trees			

		OS Sheet: TQ 2880 SW	
Feature no: 005		NGR: TQ 2823 8014	
Feature type: Mound		Length:	
Width:	Diam: 8.0m	Ht/depth: 0.1m	
Description: A low rectangular mound			
Relationships: Abuts scarp TQ 2880 SW 006			
Interpretation: Unknown			

		OS Sheet: TQ 2880 SW	
Feature no: 006		NGR: TQ 2823 8013	
Feature type: Scarp		Length: 40.0m	
Width: 1.0m	Diam:	Ht/depth: 0.2m	
Description: A low scarp forming a right angle, with arms oriented NW to SE and NE to SW; the latter falls away from the path			
Relationships: The NW to SE arm forms the front of mound TQ 2880 SW 005			
Interpretation: Unknown			

HYDE PARK Features Catalogue		OS Sheet: TQ 2880 SW	
Feature no: 007		NGR: TQ 2810 8012	
Feature type: Bank		Length: 36.0 m	
Width: 4.0 m	Diam:	Ht/depth: 0.2 m max.	
Description: A low straight bank with rounded profile, running E to W, fading at the W end and merging with path scarps at the E end. The S side is the most clearly defined			
Relationships: None			
Interpretation: Possibly a former pathway			

		OS Sheet: TQ 2880 SW	
Feature no: 008		NGR: TQ 2809 8009	
Feature type: Scarps		Length: 65.0 m max.	
Width: 17.0 m max.	Diam:	Ht/depth: 0.7 m overall	
Description: A gentle slope running NW to SE, roughly concentric with the edge of the tarmac around a bandstand. The slope is divided into roughly parallel steps, each about 0.2 m high			
Relationships: Parallel to the bandstand enclosure			
Interpretation: This feature may be related to the terracing in of the former seating area around the bandstand			

		OS Sheet: TQ 2880 SW	
Feature no: 009		NGR: TQ 2801 8017	
Feature type: Ditches		Length: 34.0m max	
Width: 1.0m	Diam:	Ht/depth: 0.1m	
Description: A system of shallow trenches forming overall a rectangle of 34.0m by 17.0m and divided by transverse ditches to form a ladder-like arrangement			
Relationships: None			
Interpretation: The site of Second World War trench-type air-raid shelters, disused by 1941 (air photographic evidence)			

HYDE PARK Features Catalogue		OS Sheet: TQ 2880 SW	
Feature no: 010		NGR: TQ 2805 8020	
Feature type: Parchmark		Length: 7.5m	
Width: 7.0m	Diam:	Ht/depth:	
Description: A parchmark of a square feature, partly obscured by the course of the present path			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2880 SW	
Feature no: 011		NGR: TQ 2801 8033	
Feature type: Bank		Length: 27.0m	
Width: 7.0m	Diam:	Ht/depth: 0.3m	
Description: A broad bank, poorly defined, oriented NW to SE			
Relationships: Same as TQ 2880 SW 019. See also TQ 2880 SW 018, 020, 021, 024			
Interpretation: This feature marks the former W edge of a blast mound for Second World War air-raid shelters, visible on air photographs of 1941, 1944 and 1945			

		OS Sheet: TQ 2880 SW	
Feature no: 012		NGR: TQ 2813 8008	
Feature type: Mound		Length: 70.0m	
Width: 15.0 - 45.0m	Diam:	Ht/depth:	
Description: An L-shaped raised area planted with trees and shrubs			
Relationships: Conforms closely to triangular park compartment in which it is situated			
Interpretation: A raised flower and shrub bed of recent date			

HYDE PARK		OS Sheet: TQ 2880 SW	
Features Catalogue			
Feature no: 013		NGR: TQ 2817 8004	
Feature type: Mound		Length: 70.0m	
Width: 22.0 - 40.0m		Diam:	Ht/depth:
Description: A subrectangular raised area planted with trees and shrubs			
Relationships: Conforms closely to the park compartment in which it is situated			
Interpretation: A raised flower and shrub bed or recent date			

		OS Sheet: TQ 2880 SW	
Feature no: 014		NGR: TQ 2813 8002	
Feature type: Scarp		Length: 33.0m	
Width: 6.0m		Diam:	Ht/depth:
Description: A scarp falling away from the War Memorial			
Relationships: None			
Interpretation: Defines the slight platform for the War Memorial			

		OS Sheet: TQ 2880 SW	
Feature no: 015		NGR: TQ 2825 8024	
Feature type: Bank		Length: 335.0m	
Width: 30.0m		Diam:	Ht/depth: 1.6m
Description: A large linear bank running NW to SE along the boundary of Hyde Park and Park Lane. The bank has a modern appearance; there are no large tree-holes and at TQ 2822 8029 there is an indent to avoid a large (diameter 3m) tree-hole, presumably the remains of a tree which was standing at the time of the bank's construction. At the S end around TQ 2830 8020, the line of the bank is carried round into a prominent SW facing tongue, suggesting an attempt at landscaping			
Relationships:			
Interpretation: This bank was created by dumping spoil during roadworks associated with the widening of Park Lane 1958-62. It forms an effective screen between Park Lane and the park.			

HYDE PARK Features Catalogue		OS Sheet: TQ 2880 SW	
Feature no: 016		NGR: TQ 2827 8024	
Feature type: Terrace		Length: 38.0m	
Width: 10.0m	Diam:	Ht/depth: 1.4m	
Description: A sharply defined terrace set into the E side of TQ 2880 SW 037			
Relationships: Cuts TQ 2880 SW 015			
Interpretation: Probably the base for an ornamental flower bed			

		OS Sheet: TQ 2880 SW	
Feature no: 017		NGR: TQ 2816 8017	
Feature type: Scarp		Length: 42.0m	
Width: 2.0m	Diam:	Ht/depth: 0.2m	
Description: An intermittent scarp running N to S alongside the Broad Walk, with a slight westward return at the N end			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2880 SW	
Feature no: 018		NGR: TQ 2814 8017	
Feature type: Bank		Length: 24.0m	
Width: 7.0m	Diam:	Ht/depth: 0.2m	
Description: A low bank oriented NW to SE. A second scarp, perpendicular to the original, runs E from the bank for 10m			
Relationships: Probably a continuation of TQ 2880 SW 020			
Interpretation: Although situated just to the S of the site of Second World War air raid shelters it continues the line of their E side			

HYDE PARK Features Catalogue		OS Sheet: TQ 2880 SW	
Feature no: 019		NGR: TQ 2806 8020	
Feature type: Scarp		Length: 90.0m	
Width: 2.0m	Diam:	Ht/depth: 0.3m	
Description: A scarp running NW to SE			
Relationships: Same as TQ 2880 SW 011. See also TQ 2880 SW 020, 021 and 024			
Interpretation: This feature marks the former W edge of a blast mound for Second World War air-raid shelters, visible on air photographs of 1941, 1944 and 1945			

		OS Sheet: TQ 2880 SW	
Feature no: 020		NGR: TQ 2810 8024	
Feature type: Scarp		Length: 43.0m	
Width: 3.0m	Diam:	Ht/depth: 0.3m	
Description: A linear trench			
Relationships: Line continued by TQ 2880 SW 018. See also TQ 2880 SW 011, 019, 021 and 024			
Interpretation: Probably the E boundary of Second World War air-raid shelters, visible on air photographs of 1941, 1944 and 1945			

		OS Sheet: TQ 2880 SW	
Feature no: 021		NGR: TQ 2809 8023	
Feature type: Hollow		Length: 31.0m	
Width: 12.0m	Diam:	Ht/depth: 0.3m	
Description: A rectangular area broadly aligned NW to SE, typified by scarps along the perimeter with transverse scarps between			
Relationships: See also TQ 2880 SW 011, 019, 020 and 024			
Interpretation: Site of Second World War air-raid shelters, visible on air photographs of 1941, 1944 and 1945			

HYDE PARK Features Catalogue		OS Sheet: TQ 2880 SW	
Feature no: 022		NGR: TQ 2808 8028	
Feature type: Scarp		Length: 27.0m	
Width: 3.0m	Diam:	Ht/depth: 0.1m	
Description: A broad low scarp			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2880 SW	
Feature no: 023		NGR: TQ 2806 8032	
Feature type: Scarp		Length: 32.0m	
Width: 2.0m	Diam:	Ht/depth: 0.2m	
Description: A scarp running N to S along a line of trees			
Relationships: None			
Interpretation: Unknown			

		OS Sheet: TQ 2880 SW	
Feature no: 024		NGR: TQ 2806 8030	
Feature type: Ditch		Length: 14.0m	
Width: 0.5m	Diam:	Ht/depth: 0.1m	
Description: A linear hollow running NE to SW with a shorter (4.0m) branch suggesting the corner of rectangle			
Relationships: See TQ 2880 SW 021			
Interpretation: Possibly connected with Second World War air-raid shelters			

HYDE PARK Features Catalogue		OS Sheet: TQ 2880 SW	
Feature no: 025		NGR: TQ 2808 8044	
Feature type: Mound		Length:	
Width:	Diam: 60.0m	Ht/depth: 0.2 - 0.6m	
Description: An oval mound, 75.0m NW to SE by 60.0m. On three sides the mound is defined by slight scarps only 0.2/3m high but is most prominent, at 0.6m, on the S. The summit of the mound is occupied by the 'Joy of Life' fountain, situated slightly off-centre, designed by T B Huxley Jones and erected in 1963			
Relationships: None			
Interpretation: This is the site of an open reservoir, constructed by the Chelsea Water Works Company in 1725 and removed in 1859			

LIST OF NMR SITES FOR HYDE PARK

Ordnance Survey Sheet TQ 27 NE:

- TQ 27 NE 105: Rotten Row
- TQ 27 NE 106: Crystal Palace (site of)
- TQ 27 NE 107: The Dell
- TQ 27 NE 108: Possible gravel pits
- TQ 27 NE 109: Gravel pit
- TQ 27 NE 110: 18th century pond and probable gravel pits
- TQ 27 NE 111: Second World War air-raid shelters (southern)
- TQ 27 NE 112: Second World War allotments (site of)

Ordnance Survey Sheet TQ 28 SE:

- TQ 28 SE 121: Hyde Park (parent record)
- TQ 28 SE 122: Second World War activity in Hyde Park (parent record)
- TQ 28 SE 123: The Serpentine
- TQ 28 SE 124: 18th/19th century circular plantation mound
- TQ 28 SE 125: The Cockpit (gravel pit)
- TQ 28 SE 126: Second Receiving House, Royal Humane Society (site of)
- TQ 28 SE 127: The Ring (site of)
- TQ 28 SE 128: Reservoir (site of)
- TQ 28 SE 129: 18th century plantation and building
- TQ 28 SE 130: Moat (site of)
- TQ 28 SE 131: Ponds (site of)
- TQ 28 SE 132: Second World War anti-aircraft battery (site of)
- TQ 28 SE 133: Second World War 'Z' battery (site of)
- TQ 28 SE 134: Second World War military accommodation (site of)
- TQ 28 SE 135: Second World War barrage balloon emplacements (sites of)
- TQ 28 SE 136: Second World War bomb air-raid shelters (eastern) (site of)
- TQ 28 SE 137: Second World War aircraft obstructions (site of)
- TQ 28 SE 164: The Cheesecake House (site of)
- TQ 28 SE 165: Medieval field system
