

Ancient Monuments Laboratory  
Report 214/87

MAGNETOMETER SURVEY AT PENNY'S FARM  
CRANBOURNE, DORSET, 1987.

David Jordan MSc

AML reports are interim reports which make available the results of specialist investigations in advance of full publication. They are not subject to external refereeing and their conclusions may sometimes have to be modified in the light of archaeological information that was not available at the time of the investigation. Readers are therefore asked to consult the author before citing the report in any publication and to consult the final excavation report when available.

Opinions expressed in AML reports are those of the author and are not necessarily those of the Historic Buildings and Monuments Commission for England.
