F93	no weight data for Spanish tin glaze (published pg 218 fig 123/2740). Local/Donyatt entered as S. Somerset coarseware.
F94	no weight data for unclassified tin glaze (?Spanish).
F95	19C in date with much residual from other features. Not entered into database.
F96	1 index card (25-96-6) info not entered.
F97	1 index card info not entered (GS 97-99), ?duplicate information of index card GS F97.

- F98-99 check Saintonge slip ware sherd & vessel count, 3 vessels published (pg 197 fig. 106/2364, 2365, 2367) only 2 sherds & 2 vessels indicated on index card. Bris/Staffs earthenware ?too early for 1670's date. No data for med residual Normandy gritty ware (published pg 57 fig. 23/677).
- F101 Bris/Staffs earthenware ?too early for 1670's date. No data for weights.
- F102 no classification for coarsewares.
- F104 sgraffito is unclassified.
- F105 no weight for S. Somerset coarseware.
- F106 no data for weights.
- F111 no data for weights. S. Devon sandy ware entered as Coarse sandy ware.
- F112 no mnv for fabric 20.
- F113 fabric 41 entered as fabric 42.
- F114 fabric 41 entered as fabric 42 & fabric 63 entered as fabric 62.
- F115 no data for weights.
- F119 no data for weights. Fabric 63 entered as fabric 62.
- F120 group published pg 74 fig. 35/1072-94. No sherd or mnv count for fabrics 20 & 23. Problems over fabrics 25 & 26 identifications. Fabric 26 is listed on index cards and published (EAR 3) under fabric 26 description (pg 5) as being from GS 120. Fabric 25 is not identified on index cards (therefore no data details entered)but is published as fabric 25 on pg 74 fig. 35/1080 it is also listed on pg 58 illustration number 1080. Both fabric numbers entered but it is worth noting on the index card that fabric 26 has an illustration number beside it, only data details for fabric 26 entered. NB: without fabric 20 & 23 sherd & mnv count only total weight details have been calculated and entered.
- F121 no data for weights. Fabric 41 entered as fabric 42.
- F135 no data details for Bedford garage ware (published pg 81 fig. 40/1319) or Ham green ware (published pg 81 fig. 81/1311). Fabric 41 entered as fabric 42.
- F136 2 sherds roman residual only. details not entered into database.
- F138 no weight or mnv details for fabric 20.
- F139 no data for weights.
- F143 no data for weights.
- F146 no data for weights.
- F147 no weight details for fabric 40. Fabric 63 entered as fabric 62.
- F148 no data for weights.
- F149 no data for weights of mnv.
- F153 no data for weights.
- F154 no data for weights.
- F155 no data for weights or mnv.
- F156 no data for weights. Normandy gritty ware handle published (pg 57 fig. 23/670). Group published as 12C with 7 med intrusive sherds.
- F157 no data for weights. Fabric 41 entered as fabric 42.
- F158 group published (pg 78 fig. 37/1169-77). Difficult to match index card details with published material. Only entered published material but with no data details (sherd, weight or mnv). ?Group needs re-examining.
- F159 no data for weights. No mnv for fabric 20, fabric 41 entered as fabric 42.
- F161 no data for weights.
- F162 no data for weights. No separate individual classifications for Exeter wares.
- F164 Med group with 2 index cards but with differing information. Both sets of data combined and entered. No weight details for tripod pitcher.
- F166 no data for weights or mnv.
- F167 fabric 41 entered as fabric fabric 42, no separate weights for individual classifications of Exeter wares (fabs 40-44). English white ware indicated on index card as being same fabric and vessel as another feature (without feature number being given), the closest match I can find is F147 therefore F147 has been entered.
- F170 only dated as medieval.
- F171 no data for weights, no mnv for fabric 20.
- F172 no data for weights.
- F174 no data for weights.
- F176 no weight given for plain Delft sherd.
- F193 no data for weights or mnv. No individual classifications for import, Exeter fineware or sandy wares.
- F604 only dated as medieval.
- F605 green glazed ridge tile scrap (with low crest) only. Not entered into database.
- F610 only dated as medieval.
- F612 no weight for unclassified micaceous ware (sent for thin sectioning) or unclassified white ware. Fabric 25 entered as unclassified coarseware (fabric dates too late for the date of this group).
- F613 only dated as medieval.
- F620 no data for North Devon plain yellow glazed slipware (published pg 223 fig 128/2864)
- F683 no data for weights.
- F684 no data for weights or mnv. No individual fabric classifications for Exeter finewares.
- F686 no data for weights or mnv. Check Spanish classification for this group at this date. No individual fabric

- classifications for imports, local jugs or cooking pots.
- F687 no data for weights., no individual fabric classifications for coarseware or sandy ware.
- F688 no weights given for unclassified micaceous wares. No mnv for fabric 20. No individual fabric classifications for Exeter finewares.
- F691 group published (pg 53 fig. 19/494-520). No data for weights. 2 index cards, data details on index card with grid ref. (37-92-13) entered.
- F694 dated medieval (12C/13C) but no pot details, not entered.
- F695 no data for weights or mnv. No individual fabric classifications for imports or Exeter finewares.
- F697 no data for weights or mnv. no individual fabric classifications for imports, unclassified ware or Exeter finewares. Three layers (41-94-6, 39-92-7 & 39-92-8), one layer dated as possibly late 12C the other two as late 13C, data details treated as one and date entered as med.
- F699 no data for weights or mnv.
- F700 no index card, no weight for Italian maiolica (published pg 218 fig 123/2725)
- F703 group not dated but entered as med. No individual fabric classification or weight for fineware import, described as tin glazed (check), ?is tin glaze stratified or intrusive, ?is group med or post-med.
- F710 Med group not dated.

Layers

- L1 & 2 modern, treated as unstrat, not entered.
- L3 badly contaminated, treated as unstrat, not entered.
