THE BRITISH MUSEUM,
LONDON, WC1B 3DG.

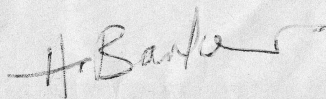

HB/EB

14th April, 1975.

Dear Mr. Chittick,

With reference to your letter of 21st March addressed to Dr. Werner, who retired at the end of February, the results of the spectrographic analysis are consistent with the material being terracotta.

Your sincerely,

H. BARKER
Acting Keeper

H. N. Chittick, Esq.,
Director,
British Institute in Eastern Africa,
