

A.E.Werner, Esq.,  
Keeper,  
Research Laboratory,  
The British Museum,  
London WC1B 3DG.

21st March, 1975.

Dear Mr. Werner,

I am very grateful to you for the information contained in your letter of 25th February.

Is it possible that the results of the spectrographic analysis are consistent with the reddish material being terracotta?

Yours sincerely,

H.N.Chittick  
Director
