F145	no weight or mnv details. No specific fabric classifications for Exeter fineware jugs.

Somerset cooking pot rim (fig. 36/1146). Classification of fabric 47, although published examples have been stated (pg 58), there appears to be no description or discussion of this fabric, has it been superseded by a known kiln source?, there is no sherd/mnv count and no weight given for this fabric (fig. 36/1121).
