Document reference	ADM 1/29088		
Subject	Modernisation of admin, dental & medical facilities, RN barracks		
Summarise the salient points of the document	A detailed breakdown and work study report from 1964 of the space and equipment requirements for the modernisation. This would entail a new building on the site of the former Nelson block and internal changes of function within Frobisher and Anson blocks, the work to be undertaken in Financial Year 1966–67. However, the subsequent comments by MoD staff etc indicate that the facilities as eventually completed (no details provided in this document) were smaller than those proposed in this work study.
