ILLUSTRATIONS

PREHISTORIC ROCK-ART AT ASHOVER SCHOOL AND FURTHER NEW DISCOVERIES ELSEWHERE IN THE PEAK DISTRICT

Fig. 1	The three newly discovered rock-art carvings at Ashover School	4
Fig. 2	Other newly identified examples of rock-art in the Peak District	8
Fig. 3	The distribution of known prehistoric rock-art in the Peak District	9
Plate 1	Ashover School: carving 1	5
Plate 2	Ashover School: carving 2	6
Table 1	Motifs found at Peak District rock-art sites	11
Table 2	The types of context and location in which Peak District rock-art is found	16

NEOLITHIC PITS, HOWDEN RESERVOIR, HOPE WOODLANDS, DERBYSHIRE: EXCAVATION AND FIELDWALKING 1999

Fig. 1	Location of Howden Pits excavation	30
Fig. 2	Features A–D, plans and sections	32
Plate 1	Cross-section through Feature A	33
Plate 2	Cross-section through Features D and C	34
Table 1	Upper Derwent King's Tree: charcoal from Neolithic pits	43

THE POLISHED STONE AXE AND FLINTWORK FROM FISSURE CAVE, HARTLE DALE, NEAR BRADWELL, DERBYSHIRE

Fig. 1	Fissure Cave artefacts	51
Table 1	Distribution of flint and chert artefacts according to context	52

A FLINT DAGGER FOUND NEAR CURZON LODGE, LONGCLIFFE, BRASSINGTON, DERBYSHIRE

Fig. 1	Site location	60
Fig. 2	Flint dagger, scraper and burin	61
Fig. 3	Flints from Site 2	61

A BRONZE SHIELD FRAGMENT AND SPEARHEAD FROM ELVASTON QUARRY, DERBYSHIRE

Fig. 1	Location of Elvaston Quarry and the find spot	64
Fig. 2	Spearhead and shield fragment, found at Elvaston Quarry, June 1965	66
Table 1	Comparative sizes of Class IIIa spearheads from the River Trent	68

THE ROMANO-BRITISH POTTERY FROM THE KILNS AT LUMB BROOK, HAZELWOOD, DERBYSHIRE

Fig. 1	Lumb Brook: quantification of vessel forms	82
Fig. 2	Lumb Brook: medium-necked jar fabrics	83
Fig. 3	Lumb Brook: medium-necked jar forms	83
Fig. 4	Lumb Brook: wide-mouthed jar forms	84
Fig. 5	Lumb Brook: wide-mouthed jar fabrics	85
Fig. 6	Lumb Brook: narrow-necked jar forms	86
Fig. 7	Lumb Brook: narrow-necked jar fabrics	86
Fig. 8	Lumb Brook: quantification of fabrics by kiln group	88
Fig. 9	Lumb Brook: average sherd weight analyses by kiln group	89
Fig. 10	Lumb Brook: sherds from Kilns 2, 3 and 4	90
Fig. 11	Lumb Brook: sherds from Kiln 4 nos 12–21	92
Fig. 12	Lumb Brook: sherds marked ST/F, ST/FILL etc. probably from Kiln 4 nos 22–23	94

Fig. 13	Lumb Brook: sherds from Kiln 5 nos 34–45; lead smelting hearth nos 46–50	96
Fig. 14	Lumb Brook: sherd from Kiln 6 no. 51; Kilns 5/6 nos 52–65; miscellaneous examples of vessel types nos 56–62	97

EXCAVATION OF A MEDIEVAL BUILDING AND A CIVIL WAR REFORTIFICATION AT BOLSOVER CASTLE, DERBYSHIRE

Fig. 1	The position of Bolsover in Derbyshire and plan of Bolsover Castle showing the position of the main 1997/98 excavations	113
Fig. 2	Plan showing the 1997/98 excavations and service trenches	114
Fig. 3	Section and plan of part of the surviving Medieval bank and underlying features exposed in Trench 01	116
Fig. 4	Plan showing the Medieval features and the later quarry exposed and excavated in Area 03	118
Fig. 5	Sections and profiles of the Medieval features and the later quarry exposed and excavated in Area 03	120
Fig. 6	Section of Trench 08 on the south side of the Outer Bailey bank and simplified cross-section across the full width of the Outer Bailey bank	122
Fig. 7	Selected Medieval and Post-Medieval pottery from the 1997/98 excavations	133
Fig. 8	Selected Medieval and Post-Medieval metalwork	138
Fig. 9	Selected ceramic items from the 1997/98 excavations: clay-pipe fragments and associated waste and pieces of industrial vessels from Trench 08	140
Plate 1	Excavation of Trench 01 in 1997 showing the exposed rubble core of the Outer Bailey bank	117
Plate 2	Section across 0082, one of the post pits forming the plan of the Medieval aisled building	119
Table 1	Pottery type by context	136

THE COAL MINES OF NEW MILLS

Fig. 1	Section of the Lower Coal Measures with the Goyt syncline	147
Fig. 2	The Yard Coal outcrop in the vicinity of New Mills	148
