

K 1169 Condition Report

Dimensions: (L) 12.5mm; (W) 10.5mm; (Th.) 1.5mm

Weight: 0.48g

Catalogue number: 188

Description: Fragment of cast silver with relief decoration forming part of the head of a creature. May be part of fragment group: K53/K993/K1026 (rivet)+K1248/K1169.

Analysis:

Surface XRF analysis was undertaken on the gilding.

A sub-surface area was prepared on the base of the hilt-collar to allow analysis of the core alloy.
